THE Connecticut Senate on Wednesday set itself right on the tariff question. A few days ago a vote was taken on a resolution favoring the abolition of duties on raw material, but it was presented in such a way that bardly anyone but the mover knew what he was voting on. It received favorable action and the fact was at once seized upon by the Freetrade press as an evidence of the growth of Free-tradism in New England. But Wednesday the matter came squarely before the Senate again, and, with everyone aware of its real import, it received just two votes in its favor, while nineteen votes were cast against it. So the Mugwump papers are caught short in their effort. to bull the Free trade market.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefitted the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with facturers. Especially is this the case with Green's August Flower and Beschee's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Laug troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size,
