Chief Justice Mercur, of the Supreme Court of Pennsylvania, died at the residence of his son at Wallingford, Pa., at 9:30 o'clock Monday morning from congestion of the lungs. Judge Mercur would have been a candidate for re-election had he lived.

J. C. Scowden is laying off for a few days with a sore leg, the result of being knocked out of time by getting too close to a fractious ox team, the wagon to which they were attached passing over him, fracturing the outer bone of the right leg above the ankle. He has already been endorsed by several counties in the State.

Collector Canfield has a number of delinquent taxables on his last year's school duplicate which he is anxious to have squared up, in fact so anxious is he that some of the aforementioned delinquents will think the "old Nick" is after 'em if they don't settle up p. d. q. This is a gentle hint to the delinquents, as it were, but it means "biz."

Meetings have been held during the past week to see what could be accomplished toward having a little fun in Tionesta on the coming Fourth. It was decided at the last meeting to celebrate, and committees were appointed to take charge of the different arrangements and they will probably be ready to report a program by next week. "Let 'er go Gallagher!"

A well digging apparatus has been patented by Mr. William Lowman, of Marienville, Pa. This invention covers a peculiar construction and arrangement of a mast with braces, treadle, lever, link, rope and pulley, for operating drilling tools by man power, making an apparatus quickly set up and taken down, and that can be easily folded and carried by a single wagon.—Scientific American.

John Wyant, whose dwelling, on the old Samuel Hunter place two miles up Tionesta creek, together with nearly all its contents, was destroyed by fire on Monday of last week, desires to thank the people of the community for the substantial manner in which they came to the rescue of himself and family, furnishing them with a complete outfit for housekeeping again, including wearing apparel, &c.

To discontinue an advertisement," says John Wannamaker, the great Philadelphia merchant, "is like taking down your sign. If you want to do business you must let the public know it. Standing advertisements, when changed frequently, are better and cheaper than reading notices. They look more substantial and business like, and inspire confidence. I would as soon think of doing business without clerks as without advertising."

Outsiders frequently wonder where the railroads obtain proper return for some of the ingenious but costly methods adopted in advertising their lines. One of the latest to attract our attention is a nicely bound 64-page book entitled, "What to Do," containing description and the correct rules of a large number of games suitable for parlor or lawn, which has been issued by the Passenger Department of the St. Paul, Minneapolis & Manitoba Railway, and will, we understand, be forwarded postpaid upon receipt of 8 cents by C. H. Warren, General Passenger Agent, at St. Paul. It is a book that would ornament almost any table and interest both old and young.

The editor of the Franklin News does up the situation in coffee in this knowin' way: Coffee is higher now than it has been for over thirty years. The price has advanced over 100 per cent in the past year, and there is no near prospect of lower prices. In May, last year, the price of fair Rio was 13 cents. Now it retails at 28 cts. It is estimated that if the present situation continues, the coffee drinkers of the United States will pay \$50,000,000 more for their breakfast tipples than they paid in 1885. If the movement upward continues, coffee will pass out of daily use of the mass of consumers and become a luxury. The cause of the advance is said to be three-fold. In Brazil, the chief source of supply, there is a storage of crop roughly estimated at over 1,000,000 bags. Second, the consumption of coffee has increased more rapidly than the supply. Third, the crop in Java and Ceylon is short, owing to the ravages of the leaf disease, which baffles attempts to grapple with it. Gambling in coffee, based on the uncertainty of the crop, is another cause of the rise. A great syndicate has been buying and booming

prices for months. Their profits have been enormous. Consider the fact that coffee which was worth \$13 a bag one year ago is now worth \$26. It is thought that the Arbuckles, who are the greatest distributors of coffee in the world, have netted \$500,000 by the rise.

Our New School Board.

There was a school meeting on Monday evening. The new board organized by election of G. W. Robinson, President, and C. M. Shawkey, Secretary; Supply Committee, G. W. Robinson, E. L. Davis.

School term fixed at 8 months; wages, \$60.00 for advanced room and \$37.50 each for the other two; school to commence first Monday of September.

Tax levy—School, 10 mills; Bond, 5 mills; Building, 1 mill. Time fixed for regular meetings first Friday in each month.

Teachers will be selected on the first Friday of July.

The levy is 4 mills less than last year, and 7 mills less than 1885. The school finances are in excellent condition, the amounts due the Borough will settle all outstanding indebtedness, and the tax levied is one which will just cover running expenses, interest on bonds, and bonds coming due.

The schools have been a success this year, the attendance large, and prospects of next year's work bright.

The board has issued a catalogue setting out the course of study for the benefit of non-resident pupils who desire to attend, which will be furnished on application.

Perfection Reached.

The Burke Washing Machine, H. M. Foreman and M. Hepler agents for Forest and Warren counties, comes the nearest to perfection of any machine yet put upon the market. At least that is the testimony of those who have used it. Below are given a few testimonials of well known ladies in Tionesta who have given it a thorough test and know whereof they speak:

The Burke Washer is just what it is represented to be. I have used one for two months and would not exchange it for any other I have ever seen.

Mrs. C. A. RANDALL. The Burke washer is an excellent machine. I would recommend it to every one who needs help on "wash day."

Mrs. DR. HUNTER. It washes clean and requires no rubbing of the clothes by hand. I can recommend it to every one.

Mrs. ELI HOLEMAN. I believe it to be the best washer in the world.

Mrs. D. W. AGNEW. I have used the Burke washer three or four months and could not do without it. The washing can be done much more quickly than the old way and I think just as well.

Mrs. W. L. KLINEFELTER. It is complete, does work well, saves water, soap and labor, and is not as hard on clothes as a washboard.

Mrs. D. W. CLARK. My children, aged ten and twelve years, can do my washing, and we need not use a wash-board. I am very well pleased with the Burke washer.

Mrs. P. JOYCE. I have used three different washing machines, but the Burke is the best of all. It does the washing quicker, and requires less soap, water and fuel than any other.

Mrs. FRANK ZIGLER. I have used the Burke washer for six months, and would not part with it for six times the price asked for it.

Mrs. M. HEPLER. Besides the above the following named ladies of Tionesta have used the Burke washer, and give equally strong testimony as to its merits: Mrs. P. Agnew, Mrs. H. S. Brockway, Mrs. Jas. G. Carson, Mrs. J. B. Agnew, Mrs. L. Agnew, Mrs. J. A. Proper.
