

Republican Ticket.

JUDICIARY. Judge of the Supreme Court, HENRY W. WILLIAMS, Tioga County.

STATE. State Treasurer, WILLIAM B. HART, Dauphin County.

COUNTY. Prothonotary, CALVIN M. ARNER. Sheriff, GEORGE W. SAWYER.

Commissioners, J. J. PARSONS, C. F. LEBEBUR. Auditors, R. Z. GILLESPIE, E. L. JONES.

Jury Commissioner, C. H. CHURCH.

THERE is no use going a-gunning for that Democratic State ticket. It is not worth shooting at.

JUDGE WILLIAMS will run thousands ahead of his party vote in all counties north and northwest.

MANY of the regular Democrats desire to put in a substitute for Mr. Cleveland, just as he did when he was drafted to fight his Southern friends.

THE Ohio Democracy adopted a Free Trade plank, while those of Pennsylvania insisted on one to be constructed to suit convenience. It is only a question of frankness.

IT is just as reasonable to suppose that your house is better protected by removing the locks, and bolts, and bars, as to assert that our industries would be better promoted by Free Trade.

A PROTECTIVE Tariff gives our people work at remunerative prices. Free Trade transfers the labor and reward to foreign countries. One fills our outgoing vessels with articles for the world's market, while the other unloads the world's products on our shores. Do you wish to buy or sell?

INSTEAD of hanging out Mr. Cleveland's portrait at Wheeling to insult the soldiers it would have been in better taste to have displayed the picture of the substitute he placed in the ranks he should have placed him on the canvas.

THE party which is howling about corporations, nominated J. Ross Thompson, the western attorney of the Pennsylvania railroad, for supreme judge, and R. J. McGrann, a railroad contractor, for state treasurer. As there are no more state offices to be filled, the rest of the railroad men had to be left out. The Thompson family have been so long in the employ of the Pennsylvania railroad that it is said that they are born with P. R. on their backs.—Meadville Gazette.

DEMOCRATIC organs have taken it upon themselves to rebuke Governor Foraker for "waving the bloody shirt" at Wheeling the other day. But these very conservative sheets have not one word to utter in rebuke of the unconstructed rebel Governor Wilson, whose hot and uncalled-for harangue was instrumental in calling out the patriotic utterances of the loyal Governor of Ohio. Governor Wilson declared the Confederate heroes and patriots equally deserving with the veterans of the Union army. Gov. Foraker in his speech proved the absurdity of Wilson's declarations. For this Foraker is condemned, but not a word have they to say against Wilson.—Venango Citizen.

THE frankness of Mr. W. L. Scott's personal organ, the Erie Herald, is to be commended and is a lesson to the organs that are trying to interpret the tariff plank of the platform. The Herald says: "The tariff plank of the State platform does not reflect the sentiment of Mr. Scott, who reported it, nor of the Democratic party. It was agreed upon in committee as the only practicable compromise under the circumstances. It would, in fact, have been an impingement of Mr. Randall's Democracy, unless the Democratic opposition to tariff reform were indorsed. This latter alternative, of course, was not thought of, and in the interest of peace and harmony the issue was 'dodged.'"

This means that the Democratic party and Mr. Scott are opposed to a protective tariff, but were afraid to say.

THE designer of the Scotch yacht Thistle, Mr. Watson, arrived in New York Friday by the steamship City of Rome, in company with Mr. Bell, the representative of the syndicate of owners of the yacht and the challenger for the America cup. Both are very confident—or pretend to be—that the Scotch boat will win the international

It is well enough for them to be confident, but if they express themselves too freely they may be compelled to change their tune before they are much older. The Volunteer is a dangerous craft, and she will be sailed for all that is in her. If the Thistle wins, we will yield with good grace, and embrace the first opportunity which presents itself to strive to win the cup back again. However, we will all know much more about the matter by October 1st.

A Short Catechism.

What did President Cleveland do on Memorial day? He went fishing. What did he catch? He caught Hail Columbia from the Grand Army and its friends. What did he do on his return to Washington? He offered to surrender the captured rebel flags to "the Confederate States." What did he discover when he made that illegal proposition? He discovered that he had opened his mouth and put both legs in it. He is a dandy President—he is!

"AH, THERE!"

The Democratic platform pronounces against monopolies in its usual emphatic style, but we observe with surprise, that W. L. Scott succeeded in nominating his man J. Ross Thompson, of Erie, for Judge of the Supreme Court. Everybody knows that Mr. Scott is opposed to all monopolies—except those with which he is connected as a stockholder or director. He has proved his devotion to about all the monopolies which Congress has attempted to control and regulate by voting against every bill intended for that purpose.

Mr. Thompson has manifested his opposition to monopolies in a peculiar way—by acting as their servant. He is a lawyer, a resident of Erie, and was born in this city. He has had no judicial experience and is considered a fair average lawyer. His professional card shows that he is opposed to monopolies and corporations. It reads:

J. ROSS THOMPSON, ATTORNEY-AT-LAW, ERIE, PA. Solicitor Pennsylvania Railway Co.

Of course Candidate Thompson will necessarily come in conflict with Attorney Thompson on the question of monopolies, but it is not anticipated at this writing that any considerable quantity of blood will be shed in the struggle.—Venango Citizen.

Woe unto him that giveth his neighbor drink, that putteth the bottle to him, and maketh him drunken also.—Hab. II, 15.

SCIENTIFIC TEMPERANCE INSTRUCTION IN A PUBLIC SCHOOL.

The public schools of Lower Makefield township, Bucks county, gave a pleasing entertainment consisting of essays, dialogues, recitations and music, on the evening of May 20. Our W. C. T. U., as an incentive to honest research, had offered four prizes for the best essays on temperance physiology and hygiene, the information to be based on instruction received during the past school year. Three grades of questions were arranged from the books used as texts for these essays.

Grade First—What is our duty in regard to the use of alcoholic liquors? Why? (1) As to their use as a drink; (2) As to their use in the preparation of food; (3) As to their use as medicine.

Grade Second—(1) What are the evil effects of alcoholic drinks on the human body and mind? (2) What are the evil effects of tobacco on the body and mind.

Grade Third—Alcoholic Drinks. What are they? How obtained? What is their effect upon digestion? What is their effect upon the stomach? What is their effect upon the liver? Are they food? Is alcohol a poison? What is their effect upon the nerves? What is their effect upon the mind? May a craving for alcoholic drinks be inherited? Does their use produce an appetite for them? If it does, can the appetite be easily controlled? Is it safe to use alcoholic drinks of any kind?

Sixty two meritorious essays passed before the awarding committee, who wished it were in their power to give twenty prizes instead of four.

The youngest securing a prize was a lad of nine years, whose instruction through one of our faithful teachers, Miss Nellie D. Graham, had been almost entirely oral, but whose compo-

sition showed a remarkable understanding of the subject.

Our hall, with a seating capacity of five hundred, was filled with the parents and friends of the pupils, and we feel that all went away convinced that the efforts of our teachers to educate our children as to the baleful effects of this "oershadowing curse" have not been in vain. X.

THE WORK OF THE W. C. T. U.

The work of the W. C. T. U. is known all over our country—we shall soon be able to say all over the world, so rapidly are its women missionaries belting the globe with their efforts. It has succeeded in thoroughly arousing the English-speaking people of the world to the ruin impending, unless the drinking habits of the nations are reformed, and the liquor traffic with its immeasurable evils subjugated and eventually extirpated. Its forty or more departments of work afford opportunity for the exercise of every variety of talent that women possess. Its superintendents of departments of work, its organizers, lecturers, writers, evangelists, missionaries, and practical leaders of work, already number thousands, who have found the place for which they are fitted, and in helping others, are enlarged and blessed themselves. Its membership is roughly estimated at two hundred thousand.

But in any crisis, or pending emergency, the contagious enthusiasm of the W. C. T. U. enables it to recruit its ranks temporarily from other branches of service, when its numbers can be duplicated.

The temperance work cannot succeed without the aid of women. The world would be set back half a century were the W. C. T. U. to disband. For drunkenness is the vice of men rather than of women, and they are, in the mass, under the dominion of appetite as women are not, and must have their help in rising above it.

MARY A. LIVERMORE.

The difference between prohibition and the license system is illustrated by the records of Vineland, N. J., and Yonkers, N. Y., for last year. Vineland, with no saloons, paid for the support of paupers, \$500; Yonkers, with 60 saloons, paid for the same purpose, \$12,000.

Our national Treasurer, Mrs. Esther Pugh, suggests that "every member of a W. C. T. U. should endeavor to secure the honorary membership of at least one of the gentlemen of her household—husband, father, brother or son."

Give Them A Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Bosche's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

BRACE UP.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an all-around tonic, which will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at G. W. Bovard's Drug Store.

Some Foolish People.

Allow a cough to run until it gets beyond the reach of medicine. They often say, "Oh, it will clear away, but in most cases it drives them away. Could they be induced to try the successful medicine called Kemp's Balsam, which we sell on a positive guarantee to cure, they would immediately see the excellent effect after taking the first dose. Price 50c and \$1.00. Trial size free. G. W. Bovard.

A Captain's Fortunate Discovery.

Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schr-oner.

The Population of Tionesta.

Is about 700, and we would say at least one half are troubled with some affection of the Throat and Lungs, as those complaints are, according to statistics, more numerous than others. We would advise all not to neglect the opportunity to call on us and get a bottle of Kemp's Balsam for the Throat and Lungs. Price 50c, and \$1.00. Trial size free. Respectfully, G. W. Bovard.
