Chairmen Cooper and Sanders of the Republican and Democratic State Committees, have jointly issued instructions about election tickets. The instructions are simply a succinct statement of the law, which provides that State Treasurer shall be voted under the head of "State ;" that Supreme Judge and any local Judges shall be voted for under the head of "Judiciary," and other officer shall be voted under the head of "County."

LET every Republican committeeman and worker keep in view the duty of having every Republican voter bility and with my own money. I at the polls and cast his ballot for the should have stayed there altogether, ing a penalty to the sale of tobacco in whole ticket.

THE South and Great Britain are solid for the Democrats. You can draw your own conclusions.

A PROTECTIVE tariff secures us diversified industries, which are essential to fair wages, as they tend to keep the demand for labor equal to the supply.

EVERY Republican should fully realize the importance of the election realize the importance of the election to be held on the 8th of November. We must depend on our own strength, not on the weakness of the enemy. Those who win must fight. Only the active and brave deserve victory. We ask you to make it assured by doing your duty. DEMOCRATIC FEGERAL officials are backing a movement to have the Na; tional convention of the party meet in Washington city. This would be a convenient arrangement for the powers that be, and would work a great sav-ing in postage, telegraph tolls and railroad fare to the administration, as

less influence over any official who toxicating liquors were violators of consents to accept office at its hands, ought to render its defeas certain, even if it could find a saint or a sage willing to be its candidate, and could contrive to nominate him.

PRESIDENT CLEVELAND and wife are traveling in the West, "swinging around the circle," as it is termed. But Mrs. Cleveland appears to be the member of the firm that attracts most attention. The speeches of the President, made at different points, have not raised him in the opinion of intelligent people. They read as if studied and for a political effect. They do not show the quick off hand readiness and familiarity with places, persons and things as those exhibited by Mr. Blaine when passing through any parts of our country. The President, is a crime. To these it seems the most ardent love of woman grows cold when compared to the seductive soul de-stroying associations of the bar room.
