The Brookville Democrat came out last week materially improved in appearance and make-up. Its form is changed from a folio to a quarto, and a new and attractive head adorns its body.

Some think there's nothing like a fine education, it gives to the gifted such eloquent tongues; but Dr. Bull's Cough Syrup is the thing in creation, that knocks into smithereens a pain in the lungs.

Mr. G. W. Robinson, who was out and able to attend to business, suffered a back set, having contracted more cold, and is again confined to his room. But we hope it will not prove serious.

Mr. R. H. Wallace, the affable and obliging ticket agent of the N. Y., P. & O. Ry., at Oil City, gave the REPUBLICAN a pleasant call yesterday, and left his card, which will be found in this issue. If any of our readers have in contemplation a Western trip, they will certainly find it greatly to their advantage to call on or address Mr. Wallace before purchasing tickets.

The coal men of Pittsburgh are happy and happier still the denizens of Cincinnati, Louisville and the lower Ohio and Mississippi. The recent breakup and high water has released about 12,000,000 bushels of coal that have been awaiting transportation by water all winter, and now everybody in the districts where a coal-famine has raged since cold weather set in will have plenty and to spare.

At a special meeting of the Board of Pardons at Harrisburg on the 5th inst., the case of David L. King, under sentence of death for the murder of J. C. Davis, in Clarion county, was continued until January 17th, in order to give King's counsel an opportunity to show that when he killed Davis he was in danger of his life. An effort is being made to have the sentence of death commuted to imprisonment for life.

On Sunday last at half past six in the evening the dwelling house of Richard Siegworth, one mile east of Tylersburg, on the narrow gauge road, was totally destroyed by fire.

Next to Prof. John L. Sullivan's foreign visit the topic that has occupied the most space in the papers of the past week is the \$100,000 breach of promise case of Miss Clara Campbell against Charles Ar buckle, of Ar buckle coffee fame, which has just come to a close in the New York supreme court. Of all the soft, sickening, yum-yum slush that the reading public has been treated to, this case is the worst yet oozed up. For instance, witness a sample letter—one among many that have been put in evidence:

Oh, Bonnie, I am worried. If I could rest my head on your lap and have a good cry I imagine I would feel better, but I know not. I do not want you to wait for any comfort. Do you know that I have a heart? But your notes would indicate that I have not. I must close. I am blue and sick. With h's and k's most close, and remain your, K. M. Q.

In the above specimen, which is part of a letter from Mr. Arbuckle to Miss Campbell, "h's and k's" meant "huge and kisses," and the initials "K. M. Q." meant "kiss me quick." The jury returned a verdict in favor of "Bonnie" for \$45,000 as damages for her smashed heart. Coffee will likely take another upward jump now.

Institute Receipts and Expenses. Supt. Kerr makes the following report of the receipts and expenditures of the late teachers' institute:

In drilling for natural gas on the Normal School grounds at Clarion, the operators were surprised last Friday by a good oil strike at a depth of about 1500 feet. The well is variously estimated as flowing from 25 to 100 barrels per day, and has caused considerable excitement in that section, besides having the effect to check the upward tendency of the oil market for a short time.

The Meadville Gazette, Col. Reisinger's paper, seems to be getting on swimmingly. It is now issued twice a week, and besides being brim full and running over with crisp local news, contains all the latest telegraphic news of the country. The Gazette's editorials are not excelled by any of the city journals of the State, for sound Republicanism, and their effect is always noticeable in the election figures of Crawford county. It deserves the hearty support of every Republican in that county, and we predict for it that success which a honest, fearless, and able journal is bound to achieve.

The unusual sight of a number of wild deer has lately been witnessed on Slipperyrock creek, in the northeastern portion of Beaver county, and are supposed to have wandered there from Forest or Elk county. A lad named McMillen, 12 years old, laid one low with his gun; and on Sunday about the same time, another ran past a church where the congregation had just been dismissed, and one-half the late worshipers joined in the chase after it.

The "oldest inhabitant" avers that it is three quarters of a century since wild deer were last seen in that portion of Beaver county.—Beaver Times.

As will be observed by reference to the proper corner, Mr. C. M. Shaukey is to-day announced as a candidate for Representative Delegate to the Republican State Convention, which will meet in Harrisburg, April 25. Also, Mr. A. B. Kelly, as a candidate for Delegate to the National Republican Convention at Chicago, subject to the decision of the conference of this Congressional district.

On Thursday evening the 5th inst., quite a delegation or detachment went out from here to assist at the mustering in of the new Post at Tylersburg. The Cornet Band went along too, and did the agreeable in the way of music. The new post is called John and Martin Bowman Post, being named after two sons of D. Bowman who went from that vicinity, and who died in the war.

There was quite a turnout. The Installing Officer was J. H. Patrick of Clarion, assisted by Comrades Frazier, Knox, Irwin, Morrow and others. It was an occasion to be remembered. All partook of the contents of the groaning tables and creature comforts, dispensed by able caterers to the taste of the boys.

After the usual ceremonies there was a camp-fire meeting in the Hall, when the band played the airs of the war, and some composed since that event. Short camp-fire speeches were made by Comrades Patrick, Morrow, Phipps, Irwin, Knox, and others, after which the installing officers and others went to a second supper. It broke up about 1 a. m., and Stow Post and the band strung into Tionesta from 2 to 3 o'clock on the morning of the 6th.

A little rain lent more spice to the occasion, on the homeward trip, with sleet and some hail, but as the old vet's are supposed to be bronzed by their campaigning they could stand it better than the militia and the band, who thought much, but said little.

J. W. Johnson, another of the Colby murderers, was last week convicted in the first degree in the Clinton county courts.

An exchange says the green ink used in printing the new postage stamps is poisonous, and it is claimed that it is undoubtedly dangerous to moisten the back of the stamps with the lips or tongue, as many persons do.

Those of our readers desiring steady employment and good pay would do well to reply to the advertisement "Work for the Winter" in another column. The Chase Nurseries are an old and well-established firm and offer liberal inducements.

A letter from Mrs. Trunkey received by one of our citizens, dated London, England, Dec. 23, contains the welcome information that Judge Trunkey is "steadily but slowly improving in health." He has been taking continuous treatment from Dr. Walker, a leading physician, since June last, but at no time has anything like a critical operation been suggested.

The Franklin News thinks people ought to understand by this time that there is no economy in turning down the wick of a lamp. While it is no saving whatsoever, it is the best possible way in which to fill the air of a room with a subtle and destructive poison. The smell of a room in which a lamp is burning low is sickening and depressing to any one with good lungs and the right sense of smell. Such an atmosphere is loaded with headache and fever and is nothing less than home-made malaria.

Jail Delivery.

Sheriff Sawyer's three boarders bid him adieu last evening without any particular "fuss or feathers." About eight in the evening the discovery was made that the birds had flown, and pursuit followed until morning but without avail. The boarders were Aquilla Mong, Calvin Ganoce, and Chas. M. Kelly, confined for selling liquor without license.

Their escape was quite an easy matter after it is seen how it was done. The iron bolt which passes through the wall and forms the latch by which the cell door is fastened or locked, is secured on the inside by a piece of iron through which it passes forming a T, to which it is fastened by a nut which has a thread and is somewhat battered or riveted. The ends of the T are fastened by wrought nails. They had cut the wood from around these nails and filed them off with a new three-cornered file. Then the iron was easily unscrewed, or rather, formed a lever by which the nut was unscrewed, the bolt pushed through the wall, and the cell door swung open, letting the prisoners into the corridors.

As has been customary with former Sheriffs one of the cells was used as a pantry, and during the day the door entering the corridor is seldom locked. This door is usually locked right after supper, but last evening for the first time, was not locked immediately, and Mrs. Sawyer had only just stepped out for a few moments, during which the gentlemen took their leave, doubtless having had everything in readiness, and were only waiting to take advantage of the first opportunity.

They were tracked some distance out of town, but the trail was finally lost. The Sheriff feels considerably bored over the affair, but when the case is examined it is readily seen how simple and easy the escape could be made, and no blame be attached to Mr. Sawyer, who is unusually vigilant and careful. The county will be saved the expense of boarding the men for the next three months, but they will most likely be recaptured.

G. A. R. Post at Tylersburg.

WHAT AM I TO DO? The symptoms of Biliousness are un-happily but too well known. They differ in different individuals to some extent. A Bilious man is seldom a breakfast eater. Too frequently, also, he has an excellent appetite for solids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.
