## From a Former Forest County Boy.

The following letter from a former resident of this county, will be read with pleasure by the many old friends of the writer still left here. Mr. Reynolds, we may state has for many years held the responsible office of Auditor of his (Osceola) county, the emoluments of which are not to be sneezed at:

me and I find that I have been slow in responding, but you know how it goes paying the printer. The REPUBLICAN has been a welcome visitor every week, and I GILLESPIE-CATLIN-At the bride's see by it that up at Bobs and Brush Camp Creeks things appear to be settling up. I can not see how men will spend their best days trying to make homes for some one else. I know all about that country; up there among the hemlocks and pines. Money would not hire me to go back, and although I have not done very well here, the country is not to blame; we had grasshoppers here for seven years, but they are among the things of the past, and I do not believe we will get the pesky things again. I wish some of my friends could see this country and satisfy themselves of its worth. The black soil is from 12 to 36 inches deep, and just lying here waiting for the husbandman to turn it up to the warm sun and breeze of this beautiful country to bring forth a bountiful harvest. I have known men to hire all their work done-breaking included-and get a crop of flax that would pay all expenses, and have from one to five dollars per acre left, in one year; but this is like all countries, if a man expects to make a start he must pitch in and make things "git." It is filled up pretty well with soldiers, and when ne comes up for office, if a good square man, he gets there. But I am perhaps tiring your patience. I hope to live long enough to go out there and see Huntington, Benjamin and Selden May, the Weller boys, and plenty more of those I do not now call to memory.

[Our friend seems ignorant of the fact that Huntington and Selden May have passed over to the silent majority, and that never more will be meet them in this world,--Ro.]

Farming has commenced here now, and on everything will be green, and then this is one of the most beautiful countries that man ever laid eyes upon. ### NORTHWESTERN LUMBERMAN

PUBLISHED WEEKLY AT 308-316 DEARBORN ST., CHICAGO, BY W. B. JUDSON. TERMS, ONE YEAR, \$1; SIX MONTHS, \$2, IN ADVANCE.

THE LUMBERMAN is published in the interest of its subscribers; consequently it is a curiosity in modern trade journalism. No advertiser can buy a line in its editorial or news pages. That is what makes it the best advertising medium in the world. A journal in which every other makes it the best advertising medium in the world. A journal in which every oth-or paragraph is a paid "write up," or il-iustrated puff, is absolutely worthless to the reader; it is worse than useless, be-cause it is misleading. The Lumberman has information to sell at the rate of \$4.00 per year for 18 or 50 pages per years. It per year for 18 or 20 pages per week. It gives more pages of reading matter, out-side of its advertising—the full numerical running from 40 to 48 pages each week-than any other journal published at the same price in the world. They contain substantially all the lumber news, and the substantially all the lumber news, and the weekly reviews of the markets south and west, north and south, are indispensable to any lumberman who cares to keep posted on current events. Its advertising pages contain more valuable information than is given in all the pages of many lumber journals, so-called. As a matter of fact, its advertising pages are of the utmost value to all users of wood-working machinery, as they form a complete catalogue of the latest and best of all the modern devices used in lumber manufacturing. Send for it. uring. Send for it,
