THE LUMBERMAN is published in the interest of its subscribers; consequently it is a curiosity in modern trade journalism. No advertiser can buy a line in its editorial or news pages. That is what makes it the best advertising medium in the world. A journal in which every other paragraph is a paid "write up," or illustrated puff, is absolutely worthless to the reader; it is worse than uscless, because it is misleading. The Lumberman has information to seil at the rate of \$4.00 per year for 18 or 10 pages per week. It gives more pages of reading matter, outside of its advertising—the full number running from 40 to 48 pages each week—than any other journal published at the same price in the world. They contain substantially all the lumber news, and the weekly reviews of the markets south and west, north and south, are indispensable to any lumberman who cares to keep jest ed on current events.
