

FARM AND GARDEN.

Hot Water for Plants. It is a fortunate circumstance that a plant will endure a scalding heat that is fatal to most of its minute enemies.

The London florists recommend hot water, up to a degree of Fah., as a remedy when plants are sickly, owing to the soil souring—the acid absorbed by the roots acting as a poison.

Parasites on Live Stock. Colts, calves, and older stock are very apt to be crowded with objectionable parasites. They best thrive upon poor animals, and are supposed to be bred by old, worn out, and miserable creatures.

Farm and Garden Notes. Cheap seed is often expensive. Pigs and poultry are profitable. Secure pure water for home use.

There is another kind of louse from which horses suffer, which, if once seen, can never be forgotten—we refer to poultry lice.

The Grasses. For convenience the grasses may be ranged in two general divisions: the natural and the artificial.

It is always well to repeat the dressing and keep the animals moving about till dry, or they may lick off more lotion than is good for them, or stand about and get chilled.

A Modern Solomon. It has always been supposed that Solomon was the wisest man who ever lived, but it looks now as if Mr. P. T. Barnum, the showman, is worthy to wear the sage king's crown.

Song birds being very scarce in Oregon a number of German citizens of Portland propose to import from the Fatherland a number of nightingales, skylarks, bullfinches, chaffinches, goldfinches, greenfinches, black and gray thrushes, linnets, starlings and other singing birds.

John S. Williams recently died at Reading, Penn., from the effects of having been stung by a fish. His hand and arm swelled to unusual proportions, and blood poisoning finally set in.

For cattle, especially for cows in milk, where its dusty character is not especially objectionable, it is usually preferred to timothy.

It is said that more than one hundred species of clover are known to naturalists, but in this country only a few are cultivated, and of these the common red trifolium pratense is the species most generally in use and for general purposes the best of all.

Red clover is one of the most important crops for soiling on account of its rapid early growth and the large amount of excellent green food grown on acres. Care must be taken when pasturing it while wet with dew or rain, as cattle are liable to eat so much as to cause bloating, sometimes causing death.

Many beautiful jetted stuffs are for outer summer wraps, or for the convenient shoulder capes.

Many polonaise costumes are noted among the late importations. The polonaise is usually of fine wool.

White trimmings which are more stylish than any other on this summer's hats are most becoming to the young, who are those meant to wear them.

Small black mantles of Bengaline, silk, or embroidered cashmere, are worn with dresses of all kinds.

There is a great deal of talk about the fact that it will not bear close cropping as well as the timothy. Its excellence consists in its production of hay of the purest and finest quality for all general purposes and especially for horses, in which it has no rival.

It has always been supposed that Solomon was the wisest man who ever lived, but it looks now as if Mr. P. T. Barnum, the showman, is worthy to wear the sage king's crown.

Flowered silks with lace in summer costumes is a very pretty one and something much favored by French modistes.

Where hunger comes on, valor must obey. Song birds being very scarce in Oregon a number of German citizens of Portland propose to import from the Fatherland a number of nightingales, skylarks, bullfinches, chaffinches, goldfinches, greenfinches, black and gray thrushes, linnets, starlings and other singing birds.

NEWS AND NOTES FOR WOMEN.

There are 4000 women in Government employ at Washington. A lady in Hart County, Ga., still wears an old-fashioned bonnet.

French percale remains a popular material for serviceable wear. Mrs. Seely is eighty-seven years old and has just cast her first vote in Kansas.

Queen Olga, of Greece, has made and embroidered a national costume for her husband. Dotted and figured jerseys are very popular, but should be worn only with plain skirts.

Imperial lawn, goods finished like linen, cambric, is used for matinee saques and gowns. Many beautiful jetted stuffs are for outer summer wraps, or for the convenient shoulder capes.

Many polonaise costumes are noted among the late importations. The polonaise is usually of fine wool. Vanderbilt once paid Miss May Tilling, \$30,000 for inventing a new kind of tapestry hanging for his house.

Emily Riccio, daughter of the late Sultan of Zanzibar, has written a description of Oriental harem life. The plain skirts of plaid silk, with satin stripes or bars make the prettiest possible petticoats for young girls.

White trimmings which are more stylish than any other on this summer's hats are most becoming to the young, who are those meant to wear them.

Small black mantles of Bengaline, silk, or embroidered cashmere, are worn with dresses of all kinds.

CONVINCING EXPERIENCE.

Which are Justified by a World-Wide To THE PUBLIC EXPERIENCE. Having branch houses and laboratories in seven different quarters, and therefore having a world-wide experience, we, H. H. Warner & Co., justify ourselves in making the following statements:

First.—For the past decade we have held that 80 per cent of disease originates in the kidneys, which introduce uric acid into the system, a poison that is injurious to every organ, attacking and destroying first the organs which are the weakest. We have no doubt that if the kidneys are kept in perfect health most of the ordinary ailments will be prevented, or, if contracted, cured.

Second.—The kidneys, being the sewers of the human system, it is impossible to keep the entire system in good working order unless these organs are doing their full duty. Most people do not believe their kidneys are out of order because they never give them any pain. It is a peculiarity of kidney disease which increases in age, causing a gradual departure from ordinary health, which departs increasingly in age, causing a gradual departure from ordinary health.

Third.—We do not cure every kidney disease from one bottle. This is an impossibility. Fourth.—Warner's Safe Remedies have been recognized by the doctors and the people all over the globe as standards of the highest excellence.

Fifth.—We make the following unqualified guarantee: GUARANTEE 1.—That Warner's Safe Remedies are pure, and contain no harmful ingredients. GUARANTEE 2.—That the testimonials used by us are genuine, and so far as we know, absolutely true. We will forfeit \$5,000 for proof to the contrary.

Sixth.—Warner's Safe Remedies have permanently cured many millions of people whom the doctors have pronounced incurable. Our cures are always convincing proof of merit.

Seventh.—Warner's Safe Remedies were put on the market in obedience to a vow made by H. H. Warner, that the remedy now known as Warner's Safe Cure, restored him to health he would spend his entire fortune to do so.

Eighth.—Warner's Safe Remedies are the most powerful of any medicine ever known, and their power over disease is permanent and their reputation is of the most excellent kind. They are the only medicine that will cure all those ailments which are caused by uric acid, and which are fatal to the blood, which will surely end fatally, if not at once removed.

Ninth.—Warner's Safe Remedies are the only medicine that will cure all those ailments which are caused by uric acid, and which are fatal to the blood, which will surely end fatally, if not at once removed.

Tenth.—Warner's Safe Remedies are the only medicine that will cure all those ailments which are caused by uric acid, and which are fatal to the blood, which will surely end fatally, if not at once removed.

Eleventh.—Warner's Safe Remedies are the only medicine that will cure all those ailments which are caused by uric acid, and which are fatal to the blood, which will surely end fatally, if not at once removed.

Twelfth.—Warner's Safe Remedies are the only medicine that will cure all those ailments which are caused by uric acid, and which are fatal to the blood, which will surely end fatally, if not at once removed.

A Great Offer.

KID GLOVES can easily be cleaned by first putting the glove on the hand, then take a clean piece of flannel, some tepid water and a cake of Ivory Soap, wet the flannel slightly and rub lightly on the soap, then rub the soiled parts of the glove with the soaped flannel. After the dirt is removed, rub all parts of the glove with a damp piece of clean flannel; remove the glove, stretch it lengthways and lay aside to dry. Ordinary soap contains much alkali, which will turn the color of the kid.

There are many white soaps, each represented to be "just as good as the Ivory" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

WELLS' INVISIBLE Velvet Cream. A Magic Complexion Beauty Dressing for Face, Neck and Arms. It is the most delicate and effective skin treatment for chloasma, freckles, eruptions, dandruff, itching, and all skin ailments.
