

REPUBLICAN TICKET.

NATIONAL. PRESIDENT, BENJAMIN H. HARRISON, of Indiana. VICE PRESIDENT, LEVI P. MORTON, of New York. STATE. Judge of the Supreme Court, JAMES T. MITCHELL, Philadelphia. COUNTY. Assembly, CHARLES A. RANDALL, District Attorney, P. M. CLARK.

HARRISON AND MORTON. Our Next President and Vice President Nominated at Chicago.—Cheering all Along the Line.

General Benjamin H. Harrison of Indiana, was nominated by the Republican Convention at Chicago on Monday, on the 8th ballot, receiving 544 votes. And Hon. Levi P. Morton of New York, was nominated for Vice President, on the first ballot, receiving 591 votes.

After a solid week of careful and enthusiastic work the great Convention finished up most gloriously on Monday evening with the above wise and most satisfactory nominations. The greatest enthusiasm prevails all over the land to-day over the happy outcome of the convention. Every one of the defeated candidates has sent congratulations to the successful man, with the assurances of their heartiest support in the coming campaign. Every State delegation was enthusiastic and anxious to second the motion to make the nominations unanimous, and it was done amid the wildest burst of enthusiasm.

In the balloting for President the Pennsylvania delegation stood mainly for Sherman, giving him 53 out of the 60, till the last ballot, when it went solid for Harrison with the exception of one vote. California went solid for Blaine throughout, until the last ballot when its solid vote was thrown for Harrison, and being near the head of the list, the wide-awake Pacific coasters had the satisfaction of making the first break which ended in the nomination. They went home happy and with flying colors, after pledging the Pacific States to the successful candidate.

That Mr. Blaine could have taken the nomination at any time during the convention goes without saying, but his real friends in the convention were determined that his name should not go before the convention until every effort to nominate some of the other candidates had been exhausted, and all had withdrawn, and his nomination made practically unanimous. This position they succeeded in preserving absolutely without reproach to him or his vast army of warm supporters. James G. Blaine will be heard from in the campaign which is to follow, and there will be music in the air.

The platform is strong in every plank, and leaves not one prominent issue in the back-ground, but speaks out with no uncertain sound on every point. It will commend itself heartily to all Americans, and is a terrible blow to the party of free trade.

Of the final result of the Convention the Derrick says:

"Hurrah for Harrison! The great Convention has nominated Indiana's favorite son for President of the United States. This means an aggressive campaign and taking no steps backward. The grandson of Old Tippecanoe, who whipped Indians and Democrats with equal freedom, will not permit a milk and water campaign. The days of the old log cabin and hard cider will be recalled by many of the older voters and the younger ones will have an opportunity to join in the chorus for a member of one of the purest blooded American families that America contains. In a practical sense the nominations were wise. The Democracy cannot succeed with out some of the doubtful States as well as New York. Without New York the Democracy cannot win. It will require 201 electoral votes to carry the next Presidential election. There are 153 counted as surely Democratic. New York's 36 makes 189, or 12 votes less than enough to elect in the absence of getting some of the other doubtful States; that is to say, 15 from Indiana in addition would carry him through, or the 15 votes from both New York and Connecticut with New York would elect a Democrat. But without New York's 36 votes the other three could not elect, and the figures may be placed in as many positions as you will. If there is any man in this country who can carry

Indiana, it is Ben Harrison. This knocks one doubtful State away from the present incumbent and the red bandanna. Then,

"Hurrah for Morton, a man who stands as good a chance of carrying the State of New York as any one outside of Chauncey M. Depew. His name will be a power on the ticket and probably take the Empire State from the Democratic column where pride in a local candidate put it four years ago. With such a team as Harrison and Morton, running on such a platform as that adopted by the Chicago convention, success should be assured beyond reasonable peradventure. The Solid South is not likely to gain any assistance from the loyal States with such leaders carrying the standard of Protection and American rights. It is a much stronger ticket than we dared to hope for from the proceedings of last week. The convention has redeemed itself magnificently."

We had hoped to be able to present a supplement with this issue, giving a full account of the convention's proceedings, but will send it out separately.

THE CANDIDATES.

GENERAL BENJAMIN H. HARRISON, of Indiana, soldier, lawyer and statesman, has been a Republican since the party's birth. He is a grandson of General Harrison, the ninth president of the United States. His grandfather was one of the early settlers of Ohio, and he was born in a humble house at North Bend, O., August 26, 1833, and is consequently nearly 55 years of age. His father, John Scott Harrison, had served as governor of the Northwest-ern territory and in Congress, but had retired to till the farm only a few miles below Cincinnati. He got his first elements of education at the district school and was afterwards graduated at the Miami University at Oxford when 18 years of age. He was admitted to the bar before he was 21. He was married in his 21st year, and with his wife set out to seek his fortune in Indiana, and settled down at Indianapolis. He has for nearly two decades been one of the foremost lawyers in the state. As was almost inevitable he drifted into politics, and soon became known as one of the best young Republican speakers in his state. In July, 1862, he raised a company and was commissioned a second lieutenant. He served with credit till the end of the war. In 1880 he was elected United Senator. During his term of six years he made a national reputation. Although his law practice is large, General Harrison is not rich but is "comfortable."

HON. LEVI P. MORTON, of New York, was born at Shoreham, Vt., in 1824. His father was a lineal descendant of George Morton, who came from England in the ship Ana, in 1623. He received a common school education. The boy at an early age left school and began business life as a clerk in a Concord, N. H., dry goods store. When 21 he set up business himself, opening a dry-goods store in Concord. In 1849, he moved to Boston and became a member of the dry-goods firm of Beebe, Morton & Co. His connection with the firm continued until 1854, when he moved to New York and engaged in the dry-goods business. Leaving this he established a banking house. Mr. Morton entered political life in 1876, and in 1878 was elected to Congress from the 11th District. As a member of Congress he took a prominent position whenever financial questions were under consideration. President Garfield offered Mr. Morton the office of Secretary of the Navy, which the latter declined. He did accept from President Garfield, however, the appointment of Minister to France. With the coming into power of the Democratic Administration he returned home.

How the Platform Takes.

The platform adopted by the Republican Convention at Chicago is considered the strongest and altogether the most emphatic that the party has placed before the people since the nomination of Abraham Lincoln. A few opinions are appended:

The best and strongest statement of Republican principles since the days of Abraham Lincoln.—New York Tribune.

It is the brainiest, most ringing, outspoken platform any party ever adopted. There is not a dishonest word or a double dealing and evasive sentence in it.—Trenton Gazette.

A sober, sensible document, upon which every good citizen can balance himself, be he Republican or Democrat.—Baltimore American.

We congratulate the country that the Republicans have committed themselves squarely upon the one question of which everybody is thinking and on which the canvass ought to be and will now be made.—New York Herald, Ind.

The Home Market Club put the whole Republican platform at Chicago into these periods on the banner which it displayed in the Convention yesterday: "American wages for American workmen, American markets for the American people, protection for American homes."—Boston Advertiser.

It is a model of clear, dispassionate, bold, complete statement of Republican doctrine. The enthusiastic reception accorded it by the National Convention will be echoed by Republicans everywhere.—Utica Herald.

Not one of its predecessors has surpassed the platform of 1888 in the boldness and distinctness with which national issues are met.—Boston Traveller.

There is nothing equivocal or uncertain in its various planks from beginning to end. It is for Protection and emphasizes it most strongly.—Hartford Post.

It is the ablest and most comprehensive document of the kind ever issued by any Convention in this country.—Cleveland Leader.

No grander or more important manifesto has ever been issued by a political party in America than the platform which was adopted at Chicago.—Columbus Journal.

They have constructed a platform upon which no friend of liberty or upholder of the dignity of properly required labor need be afraid or ashamed to stand. They have done their work faithfully and well.—Albany Journal.

Republican Primaries.

The Republican primary elections of this county were quite well attended last Saturday, considering that there was no contest for any of the offices to be filled. Yesterday the return Judges of the several precincts met at the Court House, pursuant to rules, and were called to order by S. D. Irwin Esq., Chairman. H. C. Whitekin and Jas. D. Davis were appointed Secretaries, and the convention then proceeded to count the vote. Their work was quickly done, and the meeting was characterized by the best of feeling. Hon. Charles A. Randall was found to have received all the votes for Assembly, and was duly declared the nominee of the Republicans for that office. The same was found to be the case with P. M. Clark Esq., for District Attorney, and he was also declared the nominee of the party.

The following Conferees were then chosen:

Congressional Conferees—John Osgood, Wm. B. Heath, John Thomson. Geo. W. Sawyer was elected Chairman of the County Committee for the ensuing year.

We need not refer to the ticket individually at this time, but will take occasion to speak of it, as the campaign progresses. Suffice it to say, the gentlemen nominated are both well and favorably known all over the county, and the party has made no mistake in giving them the compliment of a re-nomination without any opposition. Both Mr. Randall and Mr. Clark will receive the hearty and united support of the Republicans of the county, and be elected.

Hon. J. B. Agnew addressed the convention in his usual easy manner, followed by Hon. C. A. Randall, who in a few well chosen words reviewed the proceedings of the National Convention and ended by saying that the Republican Banner County of the State of Pennsylvania heartily endorses the platform and nominees of the Convention. P. M. Clark and W. H. King also addressed the convention.

W. H. King, John Thomson and W. B. Heath, were appointed a Committee on Resolutions and reported as follows, which were unanimously adopted by the convention:

The return Judges of Forest County assembled this 26th day of June, 1888, in accordance with the rules of the Republican party in force in the Banner County of the State, pass the following resolutions: Resolved, That we endorse the Republican platform of principles enunciated at Chicago and Harrisburg, as containing the true doctrine of the party, the leading principles of which, are the protection of American labor, liberty of the people and the maintenance of the Government founded by our patriot forefathers and defended by the soldiers of the late war.

Resolved, That in General Benjamin Harrison, our nominee for the highest office in the gift of the people, we recognize the true patriot, the able and consistent statesman and worthy descendant of "Old Tippecanoe," who like his ancestor, we believe to be well calculated to lead us to victory.

Resolved, That in Hon. Levi P. Morton, candidate for Vice President of the United States, we recognize the able statesman of experience, fully in sympathy with the progressive and useful measures represented by the party and declared in its platform and exemplified in its past history.

Resolved, That we endorse our County business, and that these Resolutions be published in THE REPUBLICAN.

HURRAH for Harrison, Morton, Mitchell, Randall and Clark!

History repeats itself. In 1840 Van Buren was re-nominated without opposition very much the same as Cleveland was this year. William Henry Harrison, was nominated by the Whigs and elected. Now, the Republicans have put up the grandson of old "Tippecanoe," and will proceed to knock out Grover and "repeat history."

KNUTE NELSON, the Norwegian, who represents the Fifth district of Minnesota in the present Congress, was defeated for re-nomination last week by the Republicans of his district. Mr. Nelson has the distinction of being the only openly avowed free trader on the Republican side of the House, and his course has not been satisfactory to his constituents who will send a man to the Fifty first Congress who will not misrepresent them.—Brookville Republican. The Republican party serves emphatic notice on all concerned that no free traders need apply for favors in its camp.

HON. THOMAS McCAMANT was addressed a letter to the Republican State Committee, asking their support for the nomination of Auditor General, the position he is now filling by appointment, and as he is the only candidate for the place, and as his ability is unquestioned, it is not probable that if the committee make the selection, as it should do, that there will be a single vote against him.—Kittanning Free Press. Mr. McCamant has virtually been the Auditor General for several terms back, and his fitness for the responsible trust is manifest to every one who has taken the trouble to inform himself. His nomination and election by the Republicans would reflect great credit upon the party.

PAIN'S CELERY COMPOUND

Weak Nerves. PAIN'S CELERY COMPOUND is a Nerve Tonic which never fails. Containing Celery and Coco, those wonderful stimulants, it speedily cures all nervous disorders.

RHEUMATISM. PAIN'S CELERY COMPOUND purifies the blood. It drives out the lactic acid, which causes Rheumatism, and restores the blood-making organs to a healthy condition. The true remedy for Rheumatism.

KIDNEY COMPLAINTS. PAIN'S CELERY COMPOUND quickly restores the liver and kidneys to perfect health. This curative power combined with its nerve tonic, makes it the best remedy for all kidney complaints.

DYSPEPSIA. PAIN'S CELERY COMPOUND strengthens the stomach, and quiets the nerves of the digestive organs. This is why it cures even the worst cases of Dyspepsia.

CONSTIPATION. PAIN'S CELERY COMPOUND is not a Cathartic. It is a laxative, giving easy and natural action to the bowels. Regularity surely follows its use. Recommended by professional and business men. Send for book. Price \$1.00. Sold by Druggists.

DEPARTMENT STORE.

5c., 10c., 25c., 50c., COUNTERS.

WM. SMEARBAUGH & CO., TIONESTA, PA.

A PROFITABLE OPPORTUNITY FOR INVESTMENT.

TALLAPOOSA, GA.

THE PROGRESSIVE YOUNG CITY OF THE NEW SOUTH.

This prosperous young city, which is now attracting investors, manufacturers and settlers from every section of the Union, is situated in the "Piedmont" region of western Georgia, four miles from the Atlanta line, in the heart of the richest iron, gold, marble, agricultural and timber district of the South. Its population has doubled in the last six months, and with the present rapid increase will be 8,000 before the close of the present year.

In location is on the Georgia Pacific Railroad, 80 miles from Atlanta, 40 miles from Anniston and 100 miles from Birmingham, and is already the objective point of three other railroads now building or about to be completed.

There are nearly fifty business houses, express, telegraph and post office, one newspaper, three churches, three hotels, eight saw and planing mills and wood working establishments, schools, cotton gins and factories. Nearly \$4,000,000 is represented in the capital stock and money invested in the city at the present time. Its elevation 1,100 feet above the sea, and the city is noted for its remarkable healthfulness, being out of the limestone district and entirely beyond the range of cholera, yellow fever, or any epidemic. The purest and best of iron ores and mineral waters abound, and the natural drainage and location of the city is perfect.

The climate is a happy medium between the subtropical climate of Florida and the extreme cold of the North, the average thermometer being in Winter 50° and in Summer 70°. The city is surrounded with the highest grades of iron ore, manganese and marble, and the gold deposits of Tallapoosa are at the present time attracting wide-spread attention. Over \$100,000 has already been invested in one mine which will begin operations by April 1st. The gold ore of this region assays from \$5.00 to \$300 per ton, and the supply of iron, gold and marble is inexhaustible.

Soon to be a Large Manufacturing City. The Tallapoosa Furnace Co., capital stock \$100,000 is already organized, and are under contract to have their works in operation by December 1st, 1888. The Tallapoosa Marble Co., authorized capital \$100,000, are under contract to have their works in operation in eight months.

The Tallapoosa Steam Brick Manufacturing Co. is already putting in an enormous plant for brick and terra cotta work, with a capacity of 50,000 daily, and arrangements have been completed for a wagon factory, saw, door and blind factory, boiler manufacturing, broom factory, rope factory, and negotiations are in progress for a silk mill, to employ 300 hands, cotton mill, rolling mill and several other industries, with favorable prospects for their location here at an early day.

Enormous Advance in Real Estate. The recent advance of real estate in Tallapoosa is the latest and most remarkable feature of this region, and is the result of the rapid growth of cities in the rich mineral belt of the new South.

Real estate and building lots which sold for \$300 in 1886, are changing hands at \$1,500 now. Property on the leading business streets has advanced from \$50 to \$100 in the last few months, and is still on the ground floor in comparison with prices of property in other cities. With the present rapid growth of the city, property most soon-sold in value during the next year, and lots that are selling today at from \$50 to \$200, should bring five times that sum before the close of the present year. This Company has invested over \$100,000 in improvements in the last few months; over 100 new buildings are in process of erection or nearly completed in the city, and bushe, push and enterprise is everywhere apparent.

Early \$1,000,000 for manufacturing enterprises and improvements is pledged for the city to be located here in the next three years, and this alone means a population of from ten to twenty-five thousand.

Liberal Inducements to Manufacturers. This Company is prepared to offer the most liberal inducements to manufacturers who will locate their works in Tallapoosa. They will donate land on railroad front for plant, and other valuable considerations; raw material and cheap labor are abundant, and a home market assured. The South is fast becoming the great manufacturing center of the Union, and Northern manufacturers thinking of changing location will find it to their advantage to communicate with this Company.

★ COME TO THE SOUTH. ★ It is the most desirable section for settlers and investors in the United States today. Estates are being made rapidly by the advance in real estate and company's stock, and we have as yet seen but the beginning of an era of wonderful prosperity in this partially developed, though greatly advanced, section. In climate it is the Eden of the earth, in healthfulness it is the Eden of the earth, and in fertility of soil, abundance and diversity of mineral products, and in growing prosperity and greatness, no section of the country can equal it.

Profitable Investments. Enormous Dividends. We would call the special attention of either large or small investors, who have been accustomed to small rates of interest, to the advantages of Tallapoosa as a place of profitable and absolutely safe investment. Real estate stocks in Tallapoosa are rapidly advancing, and investments can be made here to-day that are sure to double and quadruple before the close of the present year. Investments made in real estate in a rapidly growing and prosperous manufacturing city are sure to return handsome profits to the investor, and are absolutely safe investments. We have yet to know of a single instance of investments made here, that have returned large dividends to the investor. As the city is but just in its infancy, real estate is selling at low prices, and those who invest during the next few months will reap the harvest before values rise to the exorbitant figures which will surely follow the rapidly growing prosperity of the city.

To Those Looking for a Profitable Place for Location. If you are wholly without money, do not come to Tallapoosa. Don't go into any new country without at least something to give you a start, but if you have a little money, if you farmer, mechanic or laborer, and desire to locate in a section where the winters are mild and equable, and the summers so warm that the North, where perfect health is secured for yourself and family; where you can build a house for one-half the cost of building the same house in the North; where you can live in comfort as much less than in New England and the West; and are willing to use your energies and influence in co-operation with others for the benefit of the city in which you are located, and approach a thriving, industrious, progressive city and people come to Tallapoosa. If you are of this class you are wanted here, and the little you have can be invested in the building of a house that will rapidly increase in value on your lands, or in the chance of some business or enterprise that will earn the most gratifying dividends.

Come and Investigate. Nine out of ten of those who come and personally investigate the merits of Tallapoosa, as a place of profitable investment and location, either become investors or permanent residents, or both. The wonderful advantages of this Piedmont region and rich mineral belt are as yet comparatively unknown to Northern investors, and their information of interest and description by us would be looked upon with incredulity.

We will cheerfully pay the traveling expenses of any person visiting Tallapoosa who does not find it to their own advantage, and those looking for a profitable place of location, and ways all who wish to come and see for themselves the many advantages of Tallapoosa as a place of profitable and safe investment, location of business or manufacturing, or for residence.

SEND FOR PROSPECTUS. We have issued an elaborate prospectus, by describing the city and its surroundings, and the property of this Company, giving illustrations of many of the buildings, and the plan of the city, price list of lots, latest quotations on stock of the Company, and other information of interest to investors and real estate writers, which we will mail free on application. Address,

Col. Geo. W. Adair, President Tallapoosa Land, Mining & Man'g Co., Tallapoosa, Ga.
