

FARM AND GARDEN.

How Many Grains to the Hill. In their efforts to get a big crop, many persons use too much seed, and thus defeat their purpose.

The Delicious Muskmelon.

The common muskmelon is one of the most healthful and delicious fruits for summer eating.

Interfering in Horses.

The subject of interfering naturally interests a good many owners of horses, and about the most common cause is that which will give it enough attention to be able to overcome it in most cases.

Good Common Flowers.

A writer in a Pennsylvania local paper says that all things considered, there is no annual flower that affords so much display in the garden for so little expense and care as the petunia.

Drummond phlox makes a very showy bed in the garden and has the additional advantage of being a good flower to cut. It has a spicy fragrance and a bright, cheerful look.

Sweet alyssum, though not all showy in the garden, is very useful for cutting to mix with larger flowers. Its fragrance is quite dazzling.

I never realized what a grand ornamental plant the common poke weed, Phytolacca decandra, is, until I saw it standing on a city lawn.

Farm and Garden Notes.

Label all newly planted fruit trees. Toads are the policemen of the garden. Look after fences before turning animals out to pasture.

Regularly in feeding, watering and milking an important matter in the dairy. Practice it.

When the farmer shall begin to estimate the value of sheep from the standpoint of meat, fertility and general advantage to the farm, he will not allow the market price of wool to determine whether or not he will raise them.

Overfeeding is the principal cause of disease among poultry, and uncleanness is the next. If these faults are avoided, fowl will thrive well and be profitable.

There are three sure ways for finding the points of the compass when in the woods. Three-fourths of the moss on trees grows on the north side.

W. C. T. U. COLUMN.

The W. C. T. U. meets the 3d and 4th Tuesday of each month, at 3 p. m.

"Boy Billy" was the adopted son of Christian Zende, an honest German, who was much shocked one day at seeing the boy in a lager-beer saloon, tossing off a foaming glass of beer.

"Come here, Billy," said Christian Zende. "Why were you in the beer-shop to-day? Why do you drink beer, my boy?"

"No, Billy, it is not good for the mouth. I did not mean to go to the beer-shop, but I was hungry and I took a drink of beer."

"I have been using ALCOCK'S PLEASANT PILLS for 20 years, and found them one of the best of family medicines. Briefly, summarizing my experience, I say that when placed on the stomach of the back ALCOCK'S PILLS fill the body with nervous energy, and thus cure fatigue, brain exhaustion, debility and kidney ailments.

Every body has heard of a "horse laugh," but who has ever seen an equine guff with the power of speech? Such an animal would be pronounced a miracle, but so would the telegraph and telephone have been a hundred years ago.

There is much alcohol in beer. Here comes your mother, and she is dripping with drops of raw spirit carefully on his tongue. Billy went dancing about the room and then ran for water.

"Oh, no, no," said Billy. "Let me go. I hate beer. I'll never drink any more! I'll never go in that shop again. Oh, let me go! I can't eat those things. My mouth tastes terrible now. Oh, take them away, Father Zende!"

"Take them away! Take away good beer when I have it! My boy, you drank them fast to-day."

"Oh, they make me sick. Said Billy. A man drinks all these bad things mixed up in water. He gets drunk and then he gets big in the body; he gets shaky in his hands; he gets weak in his eyes; he gets mean in his manners."

"The log cabin in which General Grant was born is on exhibition in Cincinnati."

Don't despise everybody by hawking, blowing and spitting. Use Dr. Saxe's Catarrh Remedy and be cured.

A Floating Sawmill.

Along the bayous and lagoons of Florida grows some of the finest timber in the South, much of it in places considered entirely inaccessible until J. L. Maul & Son hit upon the plan of constructing a floating sawmill.

The mill is built upon the solid land. Although it stands five feet high out of the water, its draught is only about a foot and a half, which permits it to be taken into the shallowest lagoons, where timber could not be floated.

Popularity of a Hash Luncheon.

"Hash is becoming the popular mid-day luncheon dish of business men," said a well-known restaurant keeper to a New York Sun reporter.

It seems next to impossible for the average business man to eat slowly. He will waste valuable time talking with acquaintances. He will loiter in his office or in the office of a friend and think nothing of it; but when the luncheon hour arrives he makes a rush for the nearest restaurant and bolts his food with alarming rapidity.

AFTER EXERCISE. When men and maidens seek the sport They find around the tennis court, Or when upon the diamond field Their bats the champion players wield, When walks, or rides, or bending oars, Bring perspiration from the pores, Then people all should bear in mind The best and purest soap to find, For after some such exercise The system most in danger lies, Absorbing then both swift and sure The poisons found in soaps impure, And those who keep for face and hands Or general use as time demands, The IVORY SOAP, need have no fear From exercise throughout the year.

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the Ivory," they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.
