

FARM AND GARDEN.

Plant-Lice and their Insect Enemies

Two features in the life of plant-lice are the enormous rate at which they multiply, and the suddenness with which they sometimes disappear.

Fodder Crops for a Small Piece of Ground

Quite a large quantity of feed can be grown on a small lot. Cut outs when just ripe, bind in small sheaves, allow to stand in small shocks until the straw is cured, then store away in the mow to be fed out in the bundle during the winter months.

Farm and Garden Notes

Nothing pays as well on the farm as a good garden. A Minnesota farmer believes that no fonder is equal to green amber cane for producing butter.

Trimming Roses

In regard to trimming roses, an experienced cultivator advises the readers of the New York World, that when the buds have swelled sufficiently to show their condition, the plants should be cut back to the plumpest bud, cutting in the weakest growers to within four or six buds above the ground, particularly if growing for exhibition purposes.

Filling Out Orchards

In almost every orchard are vacant places caused by the death of trees first set. If this happens the first year or two, the vacant places may be filled, and with a little extra care the later-set tree will be able to hold its own, and come into bearing about as soon as its fellows.

Scientific and Industrial

The Place of Alcohol and Some Recent Investigations as to It

It is so common, nowadays, that we have many new investigations as to alcohol. No subject has more excited the attention of those who make the study of medicine especially the methods of physiological and pathological research as applied to therapeutics in general.

Electric Rides are the Latest

Instead of the ordinary excursion on a trolley, a dry chloride of silver battery, and a primary coil will, so it was lately stated before the American Institute, fire the rifle 35,000 times without recharging.

Victims of Epicurean Club Men

At a club dinner in New York the central piece was a large aquarium filled with fine fish, which attracted the attention of the company while they were eating their bivalves.

What a Ship is Made Of

"Ship ahoy there, Cap," said a New York Mail and Express reporter to a well known ship-carpenter the other day. "Do you mind telling the names of all the different kinds of wood used in the construction of that ship?"

What a Ship is Made Of

"Ship ahoy there, Cap," said a New York Mail and Express reporter to a well known ship-carpenter the other day. "Do you mind telling the names of all the different kinds of wood used in the construction of that ship?"

Crime of Intemperance

Elfish Ireland, in a late address upon the evils of intemperance in the United States and the influence of saloons thereon, and of alcoholic drinking as a present curse of mankind, eloquently declared that wherever the influence of alcohol, drunk like in drinking and malicious intent, causes admission to the mouth of amies and promises.

A Sunday School on Beer Kegs

Great difficulty is often experienced by missionaries of the American Sunday-school Union in securing rooms in which to hold meetings in this city. One who has had great success in planting schools during the past four years writes of working two or three days in removing freight in a depot, so as to secure a place for organizing a Sunday school.

Timothy Hay is Easily Cured, Heavy for

Timothy hay is easily cured, heavy for its bulk, presents a good appearance and suffers less from grasses when allowed to go to seed before cutting. Professor Sanborn believes that timothy is worth 35 to 40 per cent, more per acre for cutting when sufficiently out of bloom in preference to cutting in bloom or before blooming.

W. C. T. U. COLUMN

The W. C. T. U. meets the 3d and 4th Tuesday of each month at 8 p. m.

President—Mrs. E. H. Holman. Vice Presidents—Mrs. J. G. Dale, Mrs. W. J. Roberts.

Woe unto him that giveth his neighbor drink, that putteth thy bottle to him, and maketh him drunken also.—Hab. 1, 13.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

Woe unto him that giveth his neighbor drink, that putteth thy bottle to him, and maketh him drunken also.—Hab. 1, 13.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

The Wicked worketh a deceitful work; but he that soweth righteousness shall have a true reward.—Rev. 11, 18.

Marion Harland

The celebrated authoress is highly esteemed by the women of America, says on pages 103 and 44 of her paper work "Eve's Daughter," Common Sense for Men, Wife and Mother.

How Intelligent Women Decide

When the question has to be met as to what is the best course to adopt to secure a sure, safe and agreeable remedy for those organic diseases which afflict the female sex, there is but one wise decision, viz., a course of self-treatment with Dr. Pierce's Favorite Prescription. It is an unflinching specific for periodical pains, displacement, internal inflammation, and all functional disorders that render the lives of the women miserable and joyless.

Beauty Without Paint

"What makes my skin so dark and muddied? My cheeks were once so much and ruddy! I use the best cosmetics made." Is what a lovely maiden said.

By its mild, soothing and healing properties, Dr. Sugi's Catarrh Remedy cures the worst cases of nasal catarrh, also "cold in the head," coryza, and catarrhal headaches. 50 cents, by druggists.

Milton composed "Paradise Lost" in a large arm-chair with his head thrown back.

There is no doubt of this great remedy's potency. It is no New Discovery unknown and mayhap worthless, but is familiar to the public for years as the only reliable remedy for diseases of the Kidneys, Liver and Stomach. To be well, your blood must be pure, and it can never be pure if the Kidneys, (the only blood purifying organs) are diseased.
