

FARM AND GARDEN.

To Make Hens Lay. Most of the special foods to cause hens to lay are secret preparations...

Early Fattening of Pigs. Young growing hogs should not be heavily grain fed, especially as in this country grain usually means corn...

Heaves in Horses. The difficulty in breathing and the cough are the usual symptoms of heaves in horses. This disease is very common in all of the Eastern States...

War Against Weeds. Mr. T. M. Rarger, Summit, N. Y., laments in the New York Tribune that so little is said in the agricultural papers about the different weeds...

Feeding Corn Fodder. Some twelve years ago, while putting to the test the German theory of proper nutrient ratios, says Professor J. W. Sauer...

Farm and Garden Notes. There is money in poultry. Provide shade for your fowls. Give your fowls fresh water twice daily.

Artificial silk is the latest discovery, and judging from the fact that it is at hand, it seems likely that the silk worm's occupation will soon be gone...

Disputed Health Facts. Here are a few recent health facts which the Atlanta Constitution quotes...

Making Sweet Butters. A great deal of butter is spoiled by bad management of the milk and cream before churning. Every butter maker should remember that the excellence of butter depends on its delicate flavor...

Grafting. Grafting is the insertion of a cion of one species or variety, on the stem or branch of another. As a general rule, shoots of the previous year's growth are used...

Scientific and Industrial. A "Cyclist Course" in Vienna there were bicycles and tricycles of two hundred different systems.

Whip-grafting on the root, seedling stocks one or two years old are generally used. As the graft is always made at the collar, the stems are cut off at that place...

Whip-grafting on small trees standing in the same way. Cleft-grafting is used when the trees or branches are too large for whip-grafting...

Where large branches are to be grafted, they are cut off horizontally, with the saw, made smooth with the knife, then a split made by the chisel being placed in the center of the cut...

Persons who are unable to resist the pleasure of reading in railway cars, and who, in consequence, endanger their eyesight by dependence upon the meager lamp-light furnished by the railroad companies...

A glass of wine, for instance, changed the history of France for nearly twenty years. Louis Philippe, king of the French, had a son, the Duke of Orleans, and heir to the throne...

The bridges over the Tay and the Forth, in Scotland, have attracted much attention as engineering works, the first named viaduct being notable as the largest bridge in the world...

Use the very best seed, and you will realize from the products more than enough extra to pay the difference in cost. This same rule will apply to breeding stock and poultry...

Encouragement for Workers. In a copy of the New York Times of recent date is an article on the drink question which ought to afford considerable encouragement to the workers in the temperance cause...

Pearls in the Blue Grass Country. For some time past it has been more or less vaguely stated that pearls of a valuable character were being picked up in Kentucky and sold at a good price to jewelers and others...

Alone in the Face of the Enemy. The enemy was a jug of rum, which the reaper, wet with sweat and nearly dying of thirst, saw before him. It was standing in a patch of open dandelions...

There are now in operation, according to Mr. W. H. H. Peck, twenty-two electric tramways in the United States, ten on the continent of Europe, and eight in Great Britain. Mr. Peck predicts that the time is not far distant when electricity will have come into general use in place of horses for the cars of city streets.

The uses of saccharine, which is a hundred times sweeter than sugar, are thus set down by The American Druggist: "Not being a carbohydrate like sugar, it does not affect the digestive process, and passes out through the urine without change."

A Note of Warning. The Quarterly Journal of Inebriety, from the purely scientific point of view, contains some valuable information regarding especially such as are not physically stout, concerning the danger involved in the "contagion of drinking companions."

One Glass of Wine Too Much. A glass of wine, for instance, changed the history of France for nearly twenty years. Louis Philippe, king of the French, had a son, the Duke of Orleans, and heir to the throne...

Temperance News and Notes. The courts of Kansas have decided that cider is an intoxicating drink. Four Trenton (N. J.) Sunday liquor sellers were recently sentenced to six months in the county jail.

At the meeting of the Catholic Total Abstinence Society lately held in Milwaukee, a resolution was adopted favoring the strict enforcement of all laws compelling the closing of saloons on Sunday, and prohibiting the sale of liquor to minors and drunkards...

W. C. T. U. COLUMN.

Conducted by the Trustees Union. The W. C. T. U. meets the 2d and 4th Tuesday of each month, at 3 p. m. President—Mrs. E. L. Holman.

Who was it that stole his neighbor's hat? The wicked worketh a deceitful work; but to him that soweth righteousness shall be a true reward.—Rev. 11, 18.

Log Cabin Success.

What was the young man? Robert G. Law left him a fortune of twenty millions. He was from childhood reared in luxury; he received a splendid education with an especial training into a thorough knowledge of rational management...

George Law is another young man left with millions of money, who is reported among the "arrests." His father, bred a gentleman, was gentlemanly and strong, with commensurate brain power, so he became a great contractor, then a railroad builder and left a dozen millions for his son to dispose of.

The founders of both of these great estates were born in the humble walks of life, grew strong, mentally, physically, by simple living and honest labor and developed into financial giants. Their sons were reared in luxury, and they inherited their fathers' intellectual pigmies.

The great men of our country have not, as a rule, come from the elegant mansions of the aristocracy, but from the Log Cabins of the rural districts. Simple ways of living, freedom from dissipation and extravagant pleasures, simple remedies for disease, effective invocations of the Log Cabin system, developed powerful, brainy men, who compel the world to recognize their strength and power.

It is a fact that the Log Cabin system, the Log Cabin remedies are the most effective for family use. Our grandmothers knew how to prepare the teas and syrups of roots, herbs and barks which drive disease from the system by natural methods and leave no ill-effects. The most potent of these old-time remedies were after long and searching investigations by H. H. Warner, M. D., developed safe, pure, and effective for family use.

Their Only Medicine Chest.

I have been using BRAXHART'S PILLA for the last fifteen years, and through it have had nine children. I have never had a doctor in the house, except three times, when we had an epidemic of scarlet fever, which we soon banished by a vigorous use of BRAXHART'S PILLA.

Warner's Log Cabin Remedies—old-fashioned, simple compounds, used in the days of our hardy forefathers, are "old times" but "newly reliable." They comprise "Sarsaparilla," "Hops and Purgative," "Cough and Consumption Remedy," "Hair Tonic," "Extract," "Blood Purifier," "Cathartic," and "Liver Pills."
