County Surveyor Whitekin informs us that the Fuel Supply Co., of Oil City, has struck a well on the Michael Henry farm, Pinegrove twp., which is believed to be good for 60 barrels. This well is located about 200 feet from the east line of the Whitekin farm, and bids fair to make that a valuable piece of property, the prospects of which has the effect to make Hank smile out loud, and we don't blame him.

"Bowmanville" is the name of a new town situated on the branch of the P. & W. Railroad, and is the finest lumbering town along this line of railroad. It is owned by Messrs. W. W. & J. C. This is the biggest day's sawing ever done in this 'neck o' the woods."

A correspondent at Lima, Ohio, sends us the following particulars of an accident which happened to Wm. Sible, a former Forest county boy: On the 9th inst., while working on the Malby lease, shortly after dinner he had his left hand badly mashed. He was turning off the band-wheel with a chisel to make it run true, and in some manner it caught on a spike and jerked his hand in between the wheel and rest. He was brought to town and taken to Dr. Vail's office where the wounded member was given attention. The hand was found to be in

bad shape, so that the second finger was taken off, and part of the bones removed from the first and third fingers. The back of the hand was badly cut and an artery severed, so that considerable blood was lost before the hand was dressed. He is doing very well under the circumstances, and given good care by his wife, and is in hopes of being around soon.

Yesterday, while a number of little boys were watching the operations of John Grubbs' new drilling rig, above Jamieson Station, one of the workmen turned on the steam to start the engine while Claude, the 10-year-old son of Samuel Campbell, was standing near the exhaust. The escaping steam struck the little fellow as he was turning to leave, scalding him very severely, though not seriously about the left arm and back. He started for home, a distance of over two miles, and was in a great deal of agony when he arrived. Dr. Rumberger administered the proper remedies, and soon had the boy feeling quite comfortable.

We find this pleasant reference to our former townsman, Mr. F. E. Mabie, in the Erie Gazette of a recent date. All of Frank's large circle of friends in this section will be glad to hear of his success and rapid promotion: "Col. Cogswell, for several years in charge of the city work of the Acme Oil Co., of Erie, has gone to Boston to take charge of the sales department of the Tidewater Pipe Line Co., a larger field. The Colonel leaves with the regret of numerous friends. He will be succeeded by F. E. Mabie, an Erie boy, who has been with Rice, Robinson & Witherop, of Titusville, for four or five years. Mr. Mabie is thoroughly up in the oil business and having a wide acquaintance in the city will be a valuable acquisition to the company."

Warren Wrinkles.

"Everything is quiet on the Potomac." The Glorious Fourth passed off in a harmless and deafening racket. I fired off my two bunches of crackers and calmly munched my ginger bread while I watched the balloons which did not go up (as usual). The streets were crowded. The gay young fellow, hand in hand with his girl, wandered perspiring around trying to see the sights. The weather was fine and the merchants did a big business. Thus another red letter day takes its place among the things of the past.

The face of the farmer now wears a complacent expression. The "fourth" ushered in a change of weather, and the hay mows are rapidly assuming that overflowing look so comforting to the beholder. The rye is being harvested and wheat is about ready to cut. It makes me sigh to see the farmer riding around on his reaper and hider which kicks off a bundle every rod or so, as I think of the many hard days work I have put in with a cradle. Don't mistake my meaning; we use a baby carriage.

One of our neighbors purchased a drill this spring to put in corn for fodder. It works complete. He put in 18 acres in two days for himself and nearly enough for the neighbors to pay for the drill. He is a hustler and makes farming pay.

One might think that a town lighted by electricity would not need any illuminating oil, but we boast of three refineries, besides one at North Warren. They like to locate near this Tiona or amber oil. It makes good chewing gum. The Muir Refining Co. have just completed their plant with a capacity of 6000 bbls. a month. They will employ about 15 men when they are running full capacity.

I'm a little like Oliver Ditson, when unexpectedly called upon by some ladies to return thanks at dinner. It was a little out of his line and rather than refuse he made the attempt, but when he was ready to close, he could not think of the proper form, so he finally said, "yours truly, O. Ditson."

50 Men Wanted, By the Tionesta Tanning Co., immediately. Good wages, and pay as often as desired. Report to C. A. Howe, Kellottville, Forest county, Pa.

OBITUARY.

DIED—In Tionesta, Pa., July 15, 1889, Laura G., wife of R. W. Merriam, aged 86 years, 4 months, and 21 days.

Mrs. Merriam was the youngest daughter of Rowletter and Margaret Power, and a grand-daughter of George Power, who is said to have been the first permanent white settler in Venango county. She was reared in Franklin, where, in December, 1878, she was united in marriage with the husband who survives her.

This union has always been a most happy and congenial one, and was blessed with the birth of five children, all of whom are living.

The death of this most estimable woman is one of the saddest occurrences that has happened in our community for many years. About six years ago Mr. Merriam engaged himself with an extensive firm in Tennessee in the manufacture of staves, a business with which he was thoroughly conversant, and in which he commanded a good salary. By industry, frugality and close attention to business he had won the confidence of his employers, and was doing more than well, when sickness overtook him, and after a struggle of nearly two years he was obliged to give up his situation and seek a climate more adapted to his constitution. He accordingly came north again, and shortly after located here about two years ago. The change did not, as he had hoped, bring with it an improvement, and his physical constitution has ever since been broken down. During all this time his loving wife devoted herself so faithfully to his care and comfort that she did not realize the strain with which she was taxing her nerves, until about five months ago, she was suddenly overtaken by nervous prostration and had to take her bed, which she was never again able to leave. Her physician, nevertheless, had strong hopes of her ultimate recovery, though necessarily slow and tedious, until about ten days ago, when she experienced a severe back-ache, which her weakened constitution was unable to withstand, and after much suffering she passed peacefully away Monday evening about 5 o'clock.

The deceased was a most exemplary woman, a consistent member of the Presbyterian Church, a true and devoted wife and loving mother. She seemed anxious to live and get well because she was so much needed in the care of her afflicted husband and little children, whose great grief seems unbearable.

May He who doeth all things well, comfort the stricken husband and father, and assist him to bear up under his great trial.

Funeral services were held at 5 o'clock last evening at the residence, Rev. J. V. McAninch officiating, after which the interment took place in Riverside Cemetery.

Queen City, Hickory Twp.

The late rain did a great deal of damage here by tearing up the plank road between this and Stowtown, also taking the bridge that crosses the creek here.

It must have been a very cold bath to the young couple that fell off the foot log into the creek while trying to cross to go to Tidouete, the day after the fourth. Ha! ha!

Mr. Normile spent a few days in Franklin this week.

Mr. Jerry Adams has taken up his abode here; glad to welcome you among us, Jerry.

Miss Hattie Tobey, and Miss Becca Laderty, of Titusville, spent a few days here last week as the guests of Mrs. Nettie Normile.

Master Willie Normile, while playing on the bank of the creek the other day, fell in and came very near being drowned. The bank on which he was standing gave way, and had it not been for his Aunt Hattie, who was but a short distance from him, he would have been taken out into the stream, it being just below a dam and the water of course was very swift.

Mr. William Tobey and wife visited his daughter, Mrs. Normile, this week.

Miss Kate Anderson has just finished a very successful term of school here.

Ben Buck is on the sick list. Most of the farmers in this vicinity have commenced haying.

On the 6th inst., at 3 p. m., the Court House bell of Cameron county was tolled 90 times, out of respect for Hon. Simon Cameron, deceased.

The will of the late General Cameron has not yet been probated, but among its bequests are said to be the following: Harrisburg Hospital, \$10,000; Harrisburg Home for the Friendless, \$10,000; his library and \$5,000 to the Young Men's Christian Association. Mrs. Duffy, of Marietta, receives \$5,000 in grateful remembrance of her uniform kindness to his son, Simon; German Reformed Church, of Maytown, Lancaster county, \$5,000 and a personage, and his servant, John Campbell, \$2,000.

The Clarion Jacksonian gives this bit of warning: "A shrewd game was played on a few of our business men one day last week by a couple of sharpers. Their mode of procedure was this: One of the rogues would enter a store where they would notice a lady attendant, and buy from her a small amount of goods. In payment they would tender a five or ten dollar bill, receive their change, and immediately leave the store. In the evening when the money in the drawer was counted it was discovered that the bills received from these strangers had been raised from a one dollar bill to the amount for which they had been passed. The bills raised are of the Silver Certificate issue, and the raise was made by pasting a dark green figure 5 or 10, as the case might be, and which were presumably cut from a revenue stamp, over the face of the figure 1 on the right hand side of the bill. The left hand side was torn directly through the vignette, and was again put together by pasting a dark piece of manilla paper on the back of the bill, and just big enough to cover the large figure 1 on that corner. The figure 1 on the left hand corner of the back was erased with ink, and the entire bill had been rubbed and creased until it had a very aged appearance. An expert would have easily detected the fraud, but it was a good job, and calculated to do some person unaccustomed to handling much money. The rogues succeeded in getting about \$20 from their victims, and got out of town before the crime was discovered. Our neighboring towns should be on the lookout for the chaps."
