—Findley P. Wolf Esq., of Kittanning, and Dr. Wesley Wolf of Allegheny City, were called hither by the death of their aunt, Mrs. L. Arner.

—The well at Falling Springs, a mile above Jamieson Station, was completed last week and is a duster at a little over 200 feet. The well at Jamieson is good for a 2-barrel in the first sand, but it will be pushed down to the third in hopes of catching on in better shape. Mr. Hardison's well opposite town is a failure at a depth of 400 feet.

—Quite a number of veterans boarded the special train which left here yesterday morning for the reunion at Greenville, Pa. The number was not as large as it would have been had the Gettysburg trip not been so near at hand, many wishing to save their energies for that occasion. The boys will no doubt have a pleasant time at Greenville.

—In this issue we publish part of a very able article on the subject of "Service Pensions" from the ready pen of Hon. Theodore P. Rynder, our late candidate for Congress in this district. The writer, an old veteran himself, knows whereof he speaks, and his ideas will touch a sympathetic chord in the heart of every good soldier.

This Government is rich enough to give every ex-soldier who risked his life that it might live, a good pension, and it will never have fully done its duty until it has done that very thing. Mr. Rynder's free school book proposition is another laudable feature which we hope some day to see ingrafted into the laws of this State. The balance of the article will appear next week.

—Yesterday while Wm. McKee and John Charleson were hauling in oats from a field back of Treasurer Fitzgerald's house, and when they had the wagon pretty well loaded up, their team took fright and proceeded to get up and dust itself. They tore up through Mr. F.'s corn patch and garden, and out into the front yard, through the fence and into the street, where Mrs. Fitzgerald succeeded in stopping them. When Billy and John came up they wore a sort of "we killed the bear" air, and proceeded with their work as though nothing had happened. But the question is, who's going to pay Sol. for those roasting ears.

—Speaking on the subject of the Amanda Ikeburg affair the Derrick of yesterday morning contains the following concerning the case: "Dr. Harding was absent at the time the matter came out and when the verdict was found. Yesterday he returned, and a representative of the Derrick called upon him at his residence on Washington avenue last night. The doctor says relative to the charges that he is innocent, or in his own words as follows: I have been away in New York, New Haven and Lowell, Mass., and had no intimation of the accusations until letters and papers reached me last Saturday at Corning. The papers contained an account of the affair, and I arranged my affairs as speedily as possible and went to Tionesta. I arrived in Tionesta at noon yesterday, saw Justice Proper and requested him that I be given a hearing at once. To this the Justice acquiesced, appointing Thursday, the 22d inst., at 9 o'clock for the time. Before this trial takes place I would prefer to say nothing further than that I am confident it will show that I am not either directly or indirectly responsible for the very sad occurrence."

—The Sunday School excursion to Chautauqua Lake on Thursday last was a success in all respects, and was well attended from this place, upward of 150 persons, old and young, having boarded the train. The day opened threateningly and for a time it was feared that rain would interfere with the pleasures of the occasion, but before the train arrived at Mayville all was bright, the sky having cleared and all signs of rain disappeared, to the joy of all. The day at Chautauqua was very pleasantly spent in sight-seeing and rambling through the beautiful city among the trees. At the great Amphitheatre there was much to amuse and instruct, and the eight or ten thousand people who were gathered there in the afternoon were an interesting sight of itself. The Tionesta party were obliged to leave for their homeward journey before the grand concert then in progress was finished, and they departed very reluctantly. There is much to see and hear at Chautauqua, vastly too much, in fact, for one day, and certainly too much to describe in an ordinary article. There's no use attempting it. The trip homeward was not so pleasant as that going, at least not to many, for the early morning ride of nearly a hundred miles, the constant moving about while on the grounds, the fatigue of the return trip, proved too much of a strain for a number, and a good deal of sickness was the result. All arrived home alive, however, thanks to the skill of Dr. Young, Titusville's very popular physician, who accompanied the train from his place to Oil City, and soon had peace and quiet restored among the sick. The trip is too long for one day's fun, nevertheless the little folks seem to endure it better than the older ones.

The Tionesta party were obliged to leave for their homeward journey before the grand concert then in progress was finished, and they departed very reluctantly. There is much to see and hear at Chautauqua, vastly too much, in fact, for one day, and certainly too much to describe in an ordinary article. There's no use attempting it. The trip homeward was not so pleasant as that going, at least not to many, for the early morning ride of nearly a hundred miles, the constant moving about while on the grounds, the fatigue of the return trip, proved too much of a strain for a number, and a good deal of sickness was the result. All arrived home alive, however, thanks to the skill of Dr. Young, Titusville's very popular physician, who accompanied the train from his place to Oil City, and soon had peace and quiet restored among the sick. The trip is too long for one day's fun, nevertheless the little folks seem to endure it better than the older ones.

—The Sunday School excursion to Chautauqua Lake on Thursday last was a success in all respects, and was well attended from this place, upward of 150 persons, old and young, having boarded the train. The day opened threateningly and for a time it was feared that rain would interfere with the pleasures of the occasion, but before the train arrived at Mayville all was bright, the sky having cleared and all signs of rain disappeared, to the joy of all. The day at Chautauqua was very pleasantly spent in sight-seeing and rambling through the beautiful city among the trees. At the great Amphitheatre there was much to amuse and instruct, and the eight or ten thousand people who were gathered there in the afternoon were an interesting sight of itself.
