SERVICE PENSIONS.

An Able Article on the Much Discussed Question. BY THEODORE P. RYNDER.

(Concluded from last week.)

### POINTS OF VIEW.

Looking at the subject from an equitable standpoint, it is unquestion- increasing population and business ably better that the whole increased The business of the country needs this wealth of the whole country should stimulus now, and if an ample volume share in the cost of this unavoidable of currency could thus be applied to our business the cry for a reduction of necessity.

Looking at it from a business stand- the tariff would not be heard. With point, it is an admitted fact that the the payment of the national bonded pension money now paid out, and debt forty millions per year of annual which more than any reaches clear interest tax would be lifted from the back to the hills and vales of the shoulders of production, and the country, does more than any other to trouble of surplus revenues could be steady business and affect cash settle- met by judicious additions to the free ments in the country districts.

Looking at it from the moral point the tariff on things we can produce of view, it is a statistical fact that but and thus securing more work at home, few men ever recover their manhood and the lower prices which have alwho are driven to the necessity of re- ways resulted from home competition ceiving public charity, and the families and the saving of freights, as in iron, of those who do receive it usually steel, silks, pottery, etc., and in fact swell in increasing ratio the tide of on every article on which this policy pauperism and crime.

If by reason of a service-pension the Here, then, is the way to do justice old soldiers who now labor in physical to the soldiers without additional taxand mental misery to keep the gaunt ation; to provide the country with an spectres of nakedness and starvation, ample volume of paper money, and to or the not less repulsive form of public distribute it; and to set and keep charity from their households, could going the wheels of industry. be allowed to lay down their laboring arms, the act would quicken every branch of business by the action of States in the case of Greenman vs. putting more money in circulation among the people, and by making whole legal ground on this subject. room for the employment of more of It affirmed the right of Congress to the young and strong laborers of the issue as much of any kind of money country.

Every farmer, manufacturer and means as it saw proper and to provide merchant would find his business in- such means as it saw proper to put it creased and made steady by the in circulation. Hence this great change; and in this act the Republic mensure of "justice to our soldiers," would rise to a height of justice and business beneficence and currency setglory wholly unparalleled in the his- tlement has no legal obstruction and tory of the world except by the pa- no plea for increased taxation to intriotism of the soldiers who maintained terfere with its adoption. for us the only Government in which
