

REPUBLICAN TICKET.

STATE. For Treasurer, HENRY K. BOYER, Philadelphia. COUNTY. For Associate Judge, JOHN H. WHITE, Barnett Township. For Treasurer, A. M. DOUTT, Tionesta Borough. For Surveyor, J. F. PROPER, Tionesta Borough. For Coroner, Dr. A. E. STONECIPHER, Jenks Township.

BOYER, WHITE, DOUTT, PROPER, STONECIPHER, That's the ticket.

The time for argument has passed and in the few days yet remaining before election Republicans should put forth their energies toward getting out the vote. A full vote will win, and that's what we want. Vote the straight ticket.

About the Election.

It ought to be the business of every Republican voter to urge upon his Republican neighbor the duty of going to the polls. In every off-year the Republican vote falls off largely, for the reason that so many think that the 80,000 Republican majority will elect the candidates, and that that is all that is needed.

Such, however, is not the fact. Even 80,000 majority can be beaten if the stay-at-homes continue to increase their number. Don't forget this.

The State is prosperous. Labor is employed; the farmer has had good crops and fair prices; the man of business, while he has not made large profits, has been steadily prosperous; and the iron industry is in a healthy condition, with the promise of continued activity during the winter.

Under these circumstances our candidate, Mr. Boyer, ought to have 60,000 majority.

But this can only be secured by individual effort. Committees, it is true, are appointed. But committees cannot do everything, and they are not expected to do everything. They need help, and it is the duty of every Republican voter to see that they have it.

This can be done by urging your neighbor to vote. That is most needed—urge the Republicans to vote.

A considerable reduction of last fall's Republican majority will be regarded by Democrats as a victory. Deprive them of this satisfaction by doing your duty as a good party man, in getting out the vote.

Our candidates are all worthy. They are entitled to the vote of every Republican in the county, and will get it if the Republicans can be gotten to the polls.

The Republican State Committee offers handsome silk banners to the two counties showing the nearest relative approach to the Harrison vote of 1888. Every county has an equal chance for this prize—large and small—Republican and Democratic. Forest county has won two successive banners, and there is no reason why she can't win one of these. To get out the full vote is all that is necessary, and that must not be overlooked.

Next Tuesday is the day on which all the Republicans should lay off their coats and do a good day's work for the candidates. Vote the ticket straight.

This impression almost universally prevails that but little effort is necessary in a campaign like the present. There never was a graver mistake. Twice the work is required in a so-called "off-year" that a presidential campaign calls for. Then people come out to vote of their own accord. Now unusual efforts must be put forth to bring them to the polls. Keep the ball rolling until the polls close on November 5th!

Don't forget to be on hand early and often next Tuesday, Republicans! We must score another victory and the way to do it is to put in your best legs from this time on. Get out the vote.

VOTE for Boyer, White, Doutt, Proper, Stonecipher.

VOTE the Republican ticket straight next Tuesday.

The best ticket in the field—Boyer, White, Doutt, Proper, Stonecipher. Vote it straight.

Stewart's Run.

Not having seen anything in your paper from this locality for a long time I have concluded to send you a few items, thinking perhaps, the oil news, &c., from this vicinity, might be interesting to some of your readers.

Ferry Stewart's well, near the Asbury Chapel, is supposed to be good for 3 or 4 barrels. He is preparing to pump it.

The drillers have returned and are commencing to drill No. 5 for Mr. Wood, on the Jocelyn farm. Wood has a production of 18 barrels from his four wells now pumping.

The National Oil Co.'s No. 1, on J. G. Bromley's farm, remains a mystery. The rig builders are erecting rig No. 2, some distance northeast of No. 1.

We have been informed that Mr. Wood intends putting down four or five more wells on the Jocelyn farm just as fast as he can get them done.

Mr. Abbot of Philadelphia, is in the neighborhood, brought here on account of the oil excitement, he being interested in some real estate in this vicinity.

Mr. John Thomson and family received the sad news of the death of their nephew, James Spears, who was killed by an accident in the mines where he was employed. They are without particulars. Mr. Spears at one time worked at stone-masonry in Tionesta.

Our school commences next Monday with Mr. Reecer, of Franklin, at the helm; we wish you success, Shelly. Miss Nellie Barber of Pleasantville, teaches the Allender school this winter.

Rev. John Rhodes of Tionesta, preached an able sermon at the White Church last Sabbath.

Charlie and Frank Thomson of Tionesta, visited their parents last Sunday. H. M. Zahniser and wife, J. J. Zahniser and wife, Mrs. J. M. Vanderlin and Master Ralph Z., have returned from Mercer county, where they went to be present at the 55th anniversary of the marriage of Jacob Zahniser and wife, father of the first named, and grandfather of the others.

W. C. Bromley and family removed to Oil City.

John A. Dawson and M. L. Range, two of our thrifty farmers, have taken time by the forelock, and have commenced plowing for spring crops.

The Lake Erie-Ohio Canal.

At the meeting of the Canal Commission at Pittsburgh, G. Lyman Moody, an Erie engineer, stated that a conduit could be built to feed the canal, starting at Tidouote, on the Allegheny river, where the river elevation is 1,112 feet, running down the river almost to Oil City, but not making so great a fall in the conduit as there is in the river. At Oil City the conduit would be away up on the bluff, above the river level. There he would run the conduit across to Oil Creek, and receive the water from the Oil Creek basin. He would cross a short distance north of the town of Franklin, from the Allegheny Valley to the valley of French Creek, and build his conduit up the valley of French Creek, though all the time finding a slight descent in the conduit. French Creek has a very small fall, and the conduit could be built up its valley to Conneaut Lake, whose elevation is 90 feet below the elevation of the Allegheny River at Tidouote. This would make Conneaut Lake the summit of the proposed ship canal as it was of the old Erie and Beaver canal, and would draw the water from all three of the basins into which the region is divided.

Colonel Merrill, the Government Engineer, says the canal cannot be a success unless several movable dams are built between Pittsburgh and the mouth of the Beaver River.

School Report.

Report of Tionesta Borough Schools for the month ending Oct. 28, 1889:

Advanced Department.—Number enrolled, males 16, females 26. Average attendance, males 13, females 25. Per cent. of attendance, males 81, females 97.
