NEWSY NOTES.

"He can't lie down on the pavement without holding on" is the latest description of the maddingly intoxicated man.

Dr. Wm. Altman, ex-member of the legislature from Jefferson county, died at his home in Punxsutawney on the 21st ultimo, after a long illness.

The comet visible in the Northwestern sky has proven a great attraction to sky gazers the past week. It made its appearance recently and may be seen any clear night.

A bill has been introduced in the Maryland Legislature to make voting compulsory. It provides a fine of \$5 to be inflicted on every qualified voter who cannot give a good excuse for not voting.

A lady addressing a letter to Kittanning wrote the name of the place Cattanning. We suppose she reasoned thus: If the town was called Kittanning when it was young, it is old. -Clarion Democrat. Rats!

"How does it happen that there are so many old maids among the school teachers?" a teacher was asked, according to a contemporary. "Because school teachers are as a rule women of sense, and none of them will give up a \$50 position for a \$10 man, was the reply.

Man is a harvester. He begins life at the cradle; learns to handle the fork, often has his back to the world, and when he arrives at the sere and yellow leaf, time mows him down and his remains are planted on the hillside.

Bradford confectioners have formed a combine and advanced the price of ice cream 50 per cent. on small lots - "dish" - or what you usually get in a "dish" when you pay for a "dish" of the compound. Unwisely they publish the whole business thus far along in advance. It is a warning for young men to stand firm under.

One of our exchanges tells this story, which would apply in more towns than one: "Lock Haven has a boy who is considered a musical prodigy by his papa. His favorite instrument is a cornet, and his father has agreed to pay him ten cents an hour for every hour he practices while his male ancestor is absent. His mother gives him fifteen cents for being quiet, and the neighbors threaten to give him poison unless he obeys his mother."

An exchange says there is a new counterfeit 10-cent piece in circulation, which so closely resembles the genuine coin that it can be easily passed off upon the unsuspecting. It differs from the usual counterfeit in that a genuine silver plating covers the German silver which forms the body of the coin. This gives it a "ring" very nearly like that of good money, and also does away with the greasy feeling by which most counterfeiters can be detected. The coin bears the date of 1887.

One of our leading doctors says spring fever is a fact, not a figure of speech. Well, we should say so. Get a good robust case of spring fever once and like our esteemed contemporary, Grover Cleveland, who was once managing editor of this great and glorious Union, you will be ready to say that spring fever is "a condition and not a theory." Spring fever is not a bold, open foe. It insinuates itself through one's anatomy and steals over one so sneakingly that it has hold with both hands before one is aware of it. The best cure for spring fever is a fishing-rod and bait. Lots of bait.

When you are troubled with dizziness, your appetite all gone, and you feel bad generally, take a few doses of Dr. Henry Baxter's Mandrake Bitters, and you will be surprised at the improvement in your feelings. Every bottle warranted to give satisfaction. For sale by G. W. Boyard.

ELI HOLEMAN.

"He jests at scars, who never felt a wound" and he can afford to laugh at the horrors of rheumatism, who never had a touch of its quality. But it seems the time has come for a universal laugh - since it is known that Salvation Oil cures pains of all possible kinds.
