Gardens and farm work are almost a month in arrears, but will catch up if the rains let up for a little while.

The Rev. Hicks' weather guessing for May has hit it almost to a dot, and the Rev. gentleman is voted a success.

Chas. H. Noyes of Warren, has been nominated by the Democrats of that county for President Judge of this district.

The 4th of July will be here in five weeks from next Friday. As yet there is no move on foot for a celebration of the day here.

Next Monday the festive census enumerator will begin his invasion of the privacy of the household with his hundred and one questions. Answer him as promptly and accurately as you can, and get rid of him the quicker, is perhaps the best advice we can give.

The Pittsburg Dispatch tries its hand at fish story telling by the statement that "a Kittanning man caught 262 trout in Forest county in two days." We think either the Dispatch or the Kittanning man have got things mixed. The man caught two trout in 262 days.

Attention is directed to the dental card of Dr. A. Fisher, in this issue. The Doctor needs no introduction to the people of Forest county, having been among them for many years and done thousands of dollars worth of work for our citizens. He was here a part of last week and will make it a point to be here at every regular term of court for the next year.

Preparations have been completed for a proper observance of Decoration Day, next Friday. The exercises will be held at 4 p. m. The Sabbath Schools, and all orders and societies are earnestly requested to assist the Post in making the exercises a success.

Mr. C. F. Gillespie, candidate for the Republican nomination for Associate Judge, publishes his withdrawal this week, finding that business matters pertaining to his interests in Crawford county will take him out of the county for some time, making it impossible for him to give proper attention to the canvass.

One of our exchanges says that farmers have found plowing very hard work this spring. Three and four horses are required to do the work ordinarily done by two. The reason undoubtedly is, that the ground has not been frozen as deeply as in other winters, and thawing failed to disintegrate the soil to the whole depth of the furrow. Instead of being pulverized, the soil has been packed.

The Oil City Blizzard, already the best daily paper in this end of the State, is now the handsomest, having last week put on new toggery all round. A fly never was yet known to light on the Blizzard, but the one that should now attempt to gain a foothold on its sleek anatomy would get a tremendous fall. Many decades of prosperity to you, gentlemen, and may you continue to grow financially pussy while you publish so good a paper.

Our Prohibition brethren are early in the field this season with their ticket, having placed the following gentlemen in nomination: Assembly, F. E. Allison, of Green; Associate Judge, E. T. Loudon, Green; Prothonotary, Jacob Zahniser, Tionesta borough; Sheriff, Robert Stockton, Barnett; County Commissioner, Guy Hilliard, Hickory; Jury Commissioner, James Henderson, Hickory; Delegate to the State Convention, Josiah Work, Barnett.

The body of Lizzie Wagner, the little girl who was drowned in the Clarion River, at the railroad bridge, near Clarion, on the 15th inst., was found at the mouth of the Clarion River, Friday evening, the 23d inst., and was buried at Shippensburg. The mother of the child was almost crazed with grief over the failure to find the body, so much so that it was feared she would wholly lose her reason. Since the body has been found and interred she has become more reconciled to her loss.

Our correspondent at Titusville writes that when Bob Hunting's circus was leaving that place Tuesday night, one of the little ponies was found to be missing. Search was made but it could not be found and up to last night no clue had been discovered as to its whereabouts. It is thought, however, that the pony was stolen, and that it will require time to find it if ever such discovery is made. —Blizzard.

The little wanderer came down the Hunter Run road on Tuesday morning of last week, and found his way to the barn yard of Mr. Fitzgerald near Hunter Station, where the boys took him in and cared for him till his keepers came and got him on Saturday last. He is a sleek little fellow and was greatly admired by all who saw him.

Here we are again! The highest water, natural rise, we have had for a number of years was on Friday last. The river was considerably more than bank full and running over. About everything on the low lands was overflowed, and many washouts of roads, bridges, etc., are reported through this section. Trains on all the railroads were delayed more or less, and although the actual damages are not large, business and traffic has been more or less interfered with for the past few days. At Pittsburg the lumbermen were caught to some extent, and although individual losses are not large, the aggregate will amount to considerable to Forest county people. Among the losers are Collins & Co., Eli Berlin, Lawrence & Smearbaugh, and the Salmon Creek Lumber Co.

Moses Hepler and wife gave friends of Strobelen a call one day last week, May 26. GRAB.

The following applicants for Census Enumerators in Forest county have received notice that their applications have been approved, and as they are expected to begin work next Monday will undoubtedly receive their commissions within a day or two: Tionesta Borough and Township—J. No further steps will be necessary on the part of the supervisors or enumerators, and all legal proceedings will be instituted by the Washington office, through the Department of Justice."

Miss Mary Baker and sister Mrs. Roy Cole, of Alken, McKean Co., are visiting their parents. They intend staying about a week. Rig No. 9 on the Jocelyn, is up. No. 2 on the Fair is down and shot, and is doing about 10 barrels. The drillers on No. 2 on the Bronley have been delayed and just finished their water well Monday morning. Bert Thomson cut his foot quite badly one day last week while cutting wood on the Jocelyn. Mr. Dunham, who has been working for the International Oil Co., at Grand Valley, has left their employ and is roustabout for Stewart & Son, on the Fair, Baker and Howards leases. Any one interested in the sick-benefit, funeral-aid, and death-benefit associations of the United States can help make the statistics of their organizations for the forthcoming census more complete and disseminate the knowledge of the good work they are doing by sending the names of such societies as they may know of, and the addresses of their principal officers, to Mr. Charles A. Jenney, Special Agent of the Eleventh Census, 58 William street, New York City.

Judge Wilson, of Clarion county, decided lately that Constables elected in that county in February last hold for three years—in other words, that those elected in 1889 were elected for but one year. Judge Henderson, of Crawford county, decides that Constables elected in 1889 were chosen for three years—just the opposite of Judge Wilson. The probability is that the matter will be carried to the Supreme Court of the State, as the Common Pleas judges have disagreed. —Warren Mail.

It cost the cigarette man \$500,000 last year to supply the packages with pictures, and all have now combined to do away with them. This is a combination to be commended. A more reprehensible method for increasing sales was never resorted to than that of placing fancy pictures of high kicking girls in cigarette packages. Thousands of boys, of just the right age to be susceptible to such influences, were purchasers for the sake of the pictures alone. The injuries to the boys were twofold—both the pictures and the cigarettes exercising an injurious influence. —Blizzard.

A Bradford special to the Blizzard, under date of 24th inst., says: Three boys, aged fourteen, thirteen and twelve, were playing about a heap of rubbish near the road between this city and Kendall, when a torpedo squib, which with criminal carelessness had been cast into the rubbish, exploded, terribly mangled all three of the boys. A tinsmith, attracted by their groans, found them in an hour after the accident. The boys are Joseph Trantor, aged fourteen, William Trantor, aged twelve, and Anster Peterson, aged thirteen. William Trantor is so badly injured he will die. He was unconscious when found. The other two boys are terribly injured, but will survive. Each loses one eye and will be otherwise disfigured for life.

Pennsylvania means "Penn's Woods," and William Penn himself tells how it came to be so named in a letter dated January 5, 1681: "This day, after many waitings, watching, solicitings and disputes in council, my country was confirmed to me under the great seal of England, with large powers and privileges, by the name of Pennsylvania, a name the King would give it in favor of my father. I chose New Wales, being a hilly country, and when the Secretary, a Welshman, refused to call it New Wales, I proposed Sylvania, and they added Penn to it, though I was much opposed to it and want to the King to have it stricken out. He said it was passed, and he would take it upon him; nor could twenty guineas move the under Secretary to move the name, for I feared it might be looked on as vanity in me, and not as a respect in the King to my father, as it really was."

PIANOS-ORGANS The improved method of fastening strings of Pianos, invented by us, is one of the most important improvements ever made, making the instrument more richly toned, in tone more durable, and less liable to get out of tune. Both the Mason & Hamlin Organs and Pianos excel chiefly in that which is the chief excellence in any musical instrument, purity of tone. Other things, though important, are much less so than this. An instrument with unmusical tones cannot be good. Illustrated catalogue of new styles, introduced this season, sent free. MASON & HAMLIN Organ and Piano Co., BOSTON, NEW YORK, CHICAGO.
