

THE FARM AND GARDEN.

TO PREVENT FLYING OVER.

The hen always alights on the top of the fence before going over.

PRUNING EVERGREENS.

Evergreen hedges should be pruned only once a year in our hot, dry climate.

IN FAVOR OF MOOLEYS.

It is reported that at the last annual Convention of Ohio Farmers, Dr. W. W. Crane, in speaking on the subject of hornless cattle, declared that "in all the world there is not a man, the owner of polled herds, who would, if he could by a wish, crown his mooleys with horns."

WATCH YOUR POTATOES.

If you find they are rotting, says a New Jersey correspondent of The Country Gentleman, take a large two-horse plow, straddle the row, plow well to the left and about two inches under the potatoes, whoop them up, down, and let them be there until you want to market or put them away for winter.

POPCORN FOR PROFIT.

The fact is suggested, to those looking about to "dodge" competition in crops, that popcorn is always in demand; many times the quantity now grown would be used if raised. Children are fond of it, and it is better for them than nuts and candy, and apparently just as satisfactory.

WIRE NETTING IN THE GARDEN.

The suggestion is made in Garden and Forest to substitute wire-netting for bean-poles and pea brash in village gardens. The galvanized wire-netting sufficient for a row of peas, beans, or tomatoes 150 feet long, is affixed, will cost twenty cents a year only.

STERILIZATION OF MILK.

A newly-introduced process—a very simple one—promises to be useful and effective for the increased consumption of milk. This is the sterilization of the milk by heating it and destroying all germs of decomposition which it has been included in perfectly air-proof bottles.

A Tree That is a Sylvan Palace.

One of the most extraordinary of African trees is that known as the baobab. It is almost a forest in itself, and serves as a complete sylvan palace on the largest scale.

Thought It Might Have Been Heard.

City Editor:—"Did you get a report of that explosion on the next block?" Green Reporter:—"No, sir, I thought you would have heard the report."

SCIENTIFIC AND INDUSTRIAL.

A new crematory is to be built in Paris, which will do its work in less than an hour.

Kerosene as a therapeutic agent is highly spoken of by Dr. H. A. Gross in the Medical World.

In a new Swedish glass phosphorus and boron are the most important of fourteen constituents.

A commission of the German railway companies estimates the duration of steel rails at thirty-five years.

Quatrefages reckons up at least 172 races of men, all however reducible to the three fundamental black, yellow and white stems.

Boxite, or silicene, as some call it, has been discovered near Adairsville, Ga. It is said to be worth \$40 a ton, and is being mined.

A recent patent applies to a machine for dusting poisonous powders on growing plants, such as cotton or potatoes, to rid them of insects.

The use of saccharine in France has been restricted, as its antiseptic nature when used in large quantities, retards digestion, neutralizing the gastric juice.

The American Cotton Seed Oil Trust is now running a mill for making paper from the hulls remaining after all the oil has been squeezed out of the cotton seed.

Steel seamless boats are made by hydraulic power in England. They are said to be superior to those of wood, and can be produced at about the same cost.

The vapor of glycerine has recently been used by French physicians whenever a distressing or frequent cough has had to be alleviated.

NEWS AND NOTES FOR WOMEN.

Gauze ribbons are again to the front. Velvet roses are used to trim black lace hats.

Deep silk fringe is suitable for sash ends. More gingham and fewer chawls are noticed.

Black velvet belts having leather straps are popular. Fans are somewhat smaller than they were last season.

A fan made of human hair is displayed at a London store. Plain purses finished with frosted effects are much worn.

It is said that there are eighteen women physicians in active practice in Detroit. Damasks are now characterized by large floral and other patterns upon a dull background.

A Chicago shoe dealer tells the Herald of that city that the average size for his customers is 34. Louise Abbema, the French painter, arrays herself in male attire and is very much of a dandy.

A daughter of the Rev. Sam Small, the evangelist, has much musical talent, and is studying in Boston. Christina Nilsson is to emerge from her retirement to sing at the farewell concert of Sims Reeves in London.

Female lobbyists are recognized factors of legislation in England, and are said to be very successful. Mrs. Clara Foltz, of California, has just been admitted to practice before the United States Supreme Court.

Queen Victoria is giving personal attention to the making of her uniform of Colonel of a Prussian regiment. It is claimed that Lotta, the actress, is the richest single woman in the world who has earned her own money.

Mme. Patti, the operatic star, has an insatiable appetite for stewed prunes, which she eats for her complexion.

First Presbyterian Church in America.

After years of toil on the part of the Presbyterian congregation at Snow Hill, Md., they have succeeded in erecting a handsome church edifice as a memorial to the Rev. Francis Mackenzie, an Irishman sent to America by the presbytery of Laggon, and who is believed to have been the first regularly ordained Presbyterian minister in this country.
