PENSIONS.

Our care for the welfare of those who, upon the field of battle, carried triumphantly the principles of Republican faith will end only when the last loyal soldier of the Civil War shall have entered into his honored rest, and we ask Congress to grant a per diem service pension to every Union soldier and sailor who served in and was honorably discharged from the army or navy of the United States.

The claim which the citizens of the border counties of our Commonwealth make upon the General Government for reimbursement for the loss they sustained in their homes and property at the bands of the enemy during the late war is one which national patriotism should respect and honor, and we urge upon our Congressmen the ase of every proper effort to have it quickly satisfied.

We indorse the tariff bill called the "McKinley bill," in the form in which it was passed by the House of Representatives, and we denounce the criticism passed upon that bill in the English Parliament as an unwarranted interference by a foreign nation with the right of the American people to protect American industries. Subject to decision of District Conference. Assembly, S. S. TOWLER, Jenks. Prothonotary, CALVIN M. ARNER, ican people to protect American industries.

PROTECTION DEMANDED. We reaffirm one of the earliest princi We reaffirm one of the earliest principles of our party when we declare that American workers should, like American manufacturers, receive national protection, and we request of the general Government the strictest enforcement of the laws forbidding entrance into and the employment in this country of pauper and contract laborers of foreign nations.

We urge upon Congress the immediate necessity of passing such legislation as will prevent the Importation and sale of oleomargarine and of intoxicating liquors in this Commonwealth, contrary to our

in this Commonwealth, contrary to our acts of assembly regulating and restricting the same, and empower every State to en-force its local laws relating thereto in the manner and in accordance with the intent

nd purpose with which they were enacted. Ballot reform is and will remain the sanot reform is and will remain the watchword of our party in every State, and we especially congratulate our political brethren in New York upon the fact that although their Democratic Governor could deform, he could not wholly defeat their efforts to secure a free ballot for every American voter throughout their State. The Republican State Convention t Harrisburg on Wednesday of last eck was the largest, most enthusias-

We charge the members of the next General Assembly with the duty to pass such laws, and, if necessity should arise, to provide for such changes in the Consti-tution of our State as will insure to every voter perfect secrecy and freedom in exer-cising his right of suffrage.

For almost 30 years the finances of this State have been under the control of our party. During the time we devised a sys-tem of taxing corporations, which serves as a pattern for, and has been taken as a guide, by many sister States in their efforts to collect revenue for public purposes. We

to collect revenue for public purposes. We have paid off the debt which the Demonave paid of the dect which the Demo-eratic party of this State created during a time of peace; we have almost extin-guished the debt which the Democratic party of the Southern States inflicted upon us during the Civil War, and years ago we lifted from the lands and homes of all our fellow citizens the burdens of State we fitted from the lands and homes of all our fellow citizens the burdens of State taxation. But the depression under which our agricultural interests now suffer has made the present system of taxation bear too heavily on them, and we therefore pledge ourselves to lighten that burden and as far as possible to equalize taxation. To that end, we recommend that the surppointed, after which a recess of one our was had. On re-assembling, the latform was read amid great applause, and adopted without a dissenting oice. Then the different candidates or Governor were placed in nomination. The nominating speeches were ll good, and some of them exception-

ly so. There was no end to the course of applause that interrupted the speaker as he extolled the virtues it is forced to the course of a positive of a part and equitable increase in the taxais lavorite candidate. As soon as I had finished the Chair announced at the secretary would call the roll.

ommend that the local system of taxation be so reformed as to permit the taxation of money capital for local purposes to such an extent as to enable the local authorities to reduce the rate of taxation upon real estate to an equitable basis.

We require of the General Assembly vigilance in making appropriations of the public money, and of our charitable institutions receiving State aid the strictest economy in expenditures.

The phenomenal lucrease in our population and of our commerce, foreign and domestic, with the decrease in the circulation of our National banks, renders it imperatively essential to the general good, in our judgment, that there shall be a speedy and substantial increase in the currency of the country. Uncompromisingly hostille to monometalism, whether of gold or silver, and carnestly favoring the use of The second ballot resulted in the clamater, and as finally announced silver, and carnestly favoring the use of both as coin metals, the Republican party of Pennsylvania demands the enactment by the Congress now in session of such legislation as will, while securing the fullest use of silver as money, most certainly secure and maintain a parity between the se vast audience, which filled the pera house from pit to dome, nearly

> INDORSING THE ADMINISTRATION. We heartily indorse the administration of President Harrison and declare that its wise conservatism, its undoubted integrity and its manifest efficiency, deserve the ty and its manifest emciency, deserve the unqualified approval of the whole nation. We gratefully record the continued confidence of the Republicans of Pennsylvania in the wisdom, integrity and statesmanship of the Hon. J. Donald Cameron, our senior Senator at Washington, so emphatically manifested in his past services, and we accept them as positive assurance of his

semior Senator at Washington, so emphatically manifested in his past services, and we accept them as positive assurance of his faithfulness and efficiency in the future.

For the chairman of our National Committee, Mr. Quay, we feel a lasting sense of gratitude for his matchless services in the last Presidential campaign and commend his bearing under the slanders which his successful leadership of our party has purchased for him. As a citizen, a member of the General Assembly, as Secretary of the Commonwealth under the two successive administrations, as State Treasurer by the overwhelming suffrages of his fellow citizens and as Senator of the United States, he has won and retains our respect and confidence.

We commend the course of the Hon. Thomas B. Reed, Speaker of the National House of Representatives, in manfully preventing the obstructions of legislation and the waste of public time and money, and we tender him the congratulations and thanks of the Republican party of Pennsylvania.

We express our gratification with the ere placed in nomination. The lator's name was subsequently with-rawo, and the ballot resulted, Watrt, the present incumbest, for Secreary of Internal Affairs, was then Hon, W. H. Andrews was re-elected hairman of the State Committee,

In keeping with the sympathy and the duty of our party we make the following declaration of principles for the betterment of political government and the benefit of our fellow citizens: We believe that every lawful voter has the right to cast a free ballot at every public election, and have it properly counted and certified, and we call upon Congress to adopt such legislation as will prevent a suppression or falsification of the votes of our fellow citizens at elections tor officers of National Government, and will end political slavery throughout the Nation.
