

JAS. T. BRENNAN, REAL ESTATE, RENTING AND COLLECTING AGENCY, TIONESTA, PA.

PARTICULAR ATTENTION GIVEN TO THE PROPER ASSESSMENT OF LANDS AND THE PAYMENT OF TAXES. ALSO TO THE PURCHASE AND SALE OF REAL ESTATE, AND TO THE RENTING AND MANAGEMENT OF THE SAME.

Church and Sabbath School. Presbyterian Sabbath School at 9:45 a. m. M. E. Sabbath School at 10:00 a. m. Preaching in M. E. Church every Sabbath evening by Rev. Rumberger. Preaching in the P. M. Church every Sabbath evening at the usual hour. Rev. F. F. Shoup, Pastor.

LOCAL AND MISCELLANEOUS.

Oil market closed yesterday 89.

The katy did is chirping once more.

W. W. Hulings is home from Butler county for a short visit.

Mrs. Wm. E. Morgan was up from Oil City, visiting Tionesta friends during the week.

Miss Anna George of Franklin, is the guest of Miss Lizzie Randall at the Rural House.

Mrs. Clara Hayden of Pittsburg, is paying Tionesta a visit as the guest of Mrs. J. H. Fones.

The noon passenger train killed a cow belonging to Pritner Agnew yesterday at this place.

R. G. Brownell left for Erie on Friday last, where he will attend the Erie School of Shorthand, and fit himself for a stenographer.

Mrs. Maggie Pfueger, of Columbus, Ohio, accompanied by her children, has been the guest of her sister, Mrs. W. F. Blum, during the past week.

The Sires photograph gallery is open this week, and those wanting pictures should call early, as it will remain open only about ten days longer.

Reports from Kansas say that the farmers will realize scarcely a half crop this season, owing to the continued drought of the past six or eight weeks.

Some twenty-five or thirty boarded the excursion train which left here for Niagara this morning. The weather gives promise of being pleasant for such an occasion.

Mrs. W. R. Dunn and daughter Louise, of Washington, D. C., arrived Monday and will be the guests for a few weeks of Mrs. D.'s parents, Mr. and Mrs. S. C. Sloan.

Glance over the new ad. of David Mintz, the Marienville merchant. He has some fine bargains to offer the public, and invites everybody to call and look over his stock.

The Judicial conference, which adjourned at Sulphur Springs last week to meet here to-day, has been postponed, on account of the death of Mr. Irwin's aunt, Mrs. Thomas.

Mrs. Lyman Abbott, wife of the successor to Henry Ward Beecher as pastor of Plymouth Church, is to become one of the editors of The Ladies' Home Journal, on September 1st next.

We noticed Geo. B. Montgomery in our city last Friday. George is doing a slashing mercantile business, they say, at Marienville, and it is only semi-occasionally that he comes down to see his Clarion friends.—Jacksonian.

Mrs. George White, for many years a resident of Kansas, is expected here in a few days on a visit to her old home and friends. Mr. White may come on later in the fall to accompany his family back to Kansas.

Warren County's fair takes place this year on Sept. 9, 10, 11 and 12. The premium list is out and embraces a large number of prizes, amounting in the aggregate to several thousand dollars. A copy can be had by addressing Willis Cowan, Secretary, Warren, Pa.

Mrs. John Cobb has purchased the lot just south of Mr. Brennan's place, and adjoining the property of her son, T. B. Cobb, on the north, and will erect a neat cottage thereon, the foundation for which will soon be completed. This will add another to the numerous pleasant homes in the North ward.

The Hill School, at Pottstown, Pa., and one of the famous institutions of learning of the State, was destroyed by fire on Tuesday of last week. The school had several patrons among the young men of this section, our young friend Harold Sharpe, now spending his vacation at home, being a student there for the past year.

Young people can take any of the following courses at the Clarion State Normal School. Teaching both Elementary and Scientific, Business, including Bookkeeping, Penmanship, Banking, Commercial, Law, Shorthand, Typewriting, etc., Music, Organ, Piano, Vocal, Fine Arts, and Academic or College Preparatory.

Mrs. Col. Thomas Dead.

It is our painful duty this morning to chronicle the death of Mrs. Helen S. Thomas, relict of the late Col. P. D. Thomas, which occurred last evening at 10:15 o'clock, after an illness of but five days, she having been taken with an attack of something in the nature of cholera morbus on Thursday last. It is needless to say this announcement will prove a severe shock to the large circle of acquaintances of this most excellent and greatly esteemed lady, whose life from childhood has been one of Christian piety.

Mrs. Thomas was past 73 years of age, and she was one of Tionesta's oldest residents. The funeral will take place on Friday afternoon, the hour not having been set as we go to press. A more extended notice of the deceased will be published next week.

The school board of Kingsley township, Forest county, will meet Saturday, Sept. 6th, 1890, at Newtown Mills for the purpose of electing teachers for the seven schools of said township. Applicants will please appear in person or send their certificates, &c., to John R. Osgood, Newtown Mills, Pa.

Mr. M. Levy, one of Marienville's wide awake and prosperous merchants, gave the REPUBLICAN a call one day last week. He reports business brisk in his section, and says the Boston Clothing House, of which he is the proprietor, is in a flourishing state, and daily adding to its already complete stock of general merchandise.

Scowden & Clark sold three wagons last Wednesday. How is that for business? This enterprise has been built up entirely on pluck, energy and honest work, three very essential elements to success, and their work has made for them a reputation that brings business for miles around. They put out only first class work, which always speaks for itself.

The committee in charge has decided on August 28 and 29, as the time for holding the annual Sunday School convention for this county. The meeting will take place in the Presbyterian Church, and it is hoped to make this the most interesting and profitable meeting yet held since the organization in this county. Fuller details will be published shortly.

The rig for the Duck & Sage well on Peters Run, on the farm of Geo. Wentz, is going up as fast as good rig-builders can hustle it along. The machinery will likely be in motion by Monday or Tuesday of next week. It is located about 500 feet northwest of the Wolcott well drilled several years ago, and in which a good sand and some oil and gas were found.

Two of Messrs. Collins & Co.'s barges, which left here for Pittsburgh about ten days ago, met with some bad luck on the way down. A team of horses was taken along to do duty on a tow line when the wind was unfavorable; one of these became entangled and was drowned, while Perce Shoemaker, who was with the crew, came home last evening nursing a broken wrist. The barges were going below under a special contract, hence the anxiety to get there and the adoption of this plan to hurry the big boats along.

The Lawrence & Smeatbaugh dam is undergoing a material change in construction. A new chute, sixty feet in width is being put in to the right of the present one, which it is thought will greatly facilitate the running of lumber, boats, &c. When this is done Messrs. Collins & Co. propose shutting the water off at the left of forge island, by running a wing dam from the head of the island to the left hand shore, thus confining the water, which is widest at that place than any other place on the creek, to the right of the island. This ought to make the running so easy at that point that a blind man could pilot a raft around without dipping an oar. They expect to have the job completed by the first or middle of next week.

We have advice from J. H. Beers & Co., Chicago, that the historical work of Forest county is so nearly completed that they expect to commence its delivery to subscribers early in August. It will be well for those who have subscribed to note this fact and be prepared to receive the book. We have good authority for stating that the work will be far beyond the expectations of those who have been looking forward to its completion. No labor has been spared in its compilation, and the aim has been to be accurate in every detail, thus making it a book of record, and one to be depended upon as time goes on. The compiler, Prof. M. A. Leason, has been indefatigable in his endeavors to give our people a history of which they could be proud, and the amount of labor he put into the cause justifies the prediction that none will be disappointed.

The annual excursion of the Sabbath Schools of this place to Chautauque Lake has been set for Wednesday, August 13, arrangements to that effect having been nearly perfected. The fare will be somewhat lower than on previous years, the committee having been able to secure a rate of \$1.25 for the round trip, which includes the ride on the lake from Mayville to Chautauque and return. Two children under 12 years ride on one ticket, same as last year. There will doubtless be a large turnout of old and young.

Major Brown and Prof. Babcock were up from Oil City last Saturday trying the fly-fishing, at which both are adepts. Major Brown is the President of the Fur, Fin and Feather club of Oil City, which association has done a good service in bringing violators of the game and fish laws to justice since its organization. The talk is that Tionesta will have a similar society in operation before long, and will join in the laudable effort to rid the community of such lawlessness. Public sentiment is just ripe for such a move, and now is the time to inaugurate it if we would have any game or game fish left. We hope the project will not end in talk.

A Good Letter from Barnett.

Your regular correspondent from this end of the county will please understand that we do not wish to intrude on his territory, rights, or privileges, neither to steal his material for a news letter; but having enjoyed the pleasure of a bit of a tramp through a part of "Old Forest" quite recently, and knowing that very often what is quite common-places to a resident and likely to go unmentioned on that account may be quite interesting to a stranger and to others, we concluded we wouldn't intrude much, if any, by way of a letter from a part of the county in which we have had always a local pride, along with a few stray items gleaned other where.

Work out here has been plenty so far this Summer and everybody has been busy. Quite a number of boats are being built at Clarion, Maple Creek, and Coleman. The Maple Creek Lumber Company are having their boats built at Maple Creek. At present the scaffold averages about two boats each week. The Company has two mills, one at Redeflyte, and the other about 4 miles from Redeflyte, at the Maple Creek Siding on the P. & W. R. R. All the lumber saved at the last mentioned mill is shipped on the P. & W. R. R. During this summer a large part of that saved at Redeflyte is hauled to the Clarion river at Maple Creek and most of it loaded into boats there—the heavier stuff being rafted—and thus shipped to market by water. Six or eight teams are now engaged in hauling there, making two trips per day. To facilitate hauling the Company have built a plank road for two miles from the mill over what would be for the most part swampy ground and intersecting with the Marienville road near the middle of the big windfall. Both the Company's mills are stocked by means of tram-roads.

Shippers' mill has been in operation probably a year—maybe longer—we are not certain. The lumber cut there is rafted and run from Buttonwood, 2 miles above Clarion, to which place it is carried from the mill on cars on a tram-road. The loaded cars run to the creek by gravity.

Shields and Beeson have bought the timber on the Lowry tract, near Hominy Ridge, and are taking out and hauling the same to the creek. The good price for timber this Summer has stimulated considerable activity in the timber business, and an effort has been made to get quite a little to creek, where possible to do so, to run during the Summer freshets. More especially is this the case up above Clarion along the Clarion where the distance to haul is not so great.

We do not wish to slight anyone, and there are other persons lumbering besides those we have mentioned, but we do not know enough about the business to venture information. Wages are good for good hands.

An oil well is being drilled at Buttonwood on the Forest county side of the Clarion. About 25 years ago a good gas well was found on the Jefferson county side of the Clarion near the same place. Considerable wild-cattling is being done up above here, principally on the South side of the Clarion. Du Bois, Reynoldsville, and some other places, we believe, are now supplied with gas from the wells found some time ago near the mouth of Millstone.

We have had no rain over here for some time, and unless we soon get some wet weather hay will be about the only crop we will harvest, to any amount, this year. We have lots of hay—more than some folks have money. Oats are nearly a failure. Potatoes will be good if it rains. Corn may be first rate, if Summer lasts long enough. On Monday morning last, July 21, John Hulings of Redeflyte, wrote his name in the frost on a board at that place, so cold was it. Potatoes there were "nipped" just a little. The dry weather is drying up the blackberries, and without rain the crop will be short and the fruit small. There are some raspberries, and they bring from 10 to 15 cents per quart. The prospects are good for a large crop of beechnuts and acorns. Fish are reported very plenty on the lower Clarion, but here they are very scarce owing to the fifth poured into the Clarion above this from tanneries, and to some extent from the practice of "explosive fishing."

A strange animal has been seen and heard from for a year past in the woods bordering Maple Creek and the head waters of Cherry Creek. It is described as having a long body, short tail, large feet, short legs, of a dark brindled or striped color, with short ears—probably a Canada lynx, who, tired of waiting for annexation, has concluded to emigrate. Last Summer a gentleman fishing on Maple Creek about 4 miles from the mouth of the stream found a grown sheep lying in the bed of the stream, killed and partly eaten by some animal apparently within a day or two of the time of his discovery, and near the sheep a five-pronged buck (deer) lay, also with its throat cut, no doubt by the same animal; both probably

Victims of the aforesaid marauder. A friend suggests that if that is the kind of fellow (he) Canada has for us he is "fore-nint" annexation.

Clarion improves. A two-room school house is being built, on the site formerly occupied by the old school house, now too small to accommodate the pupils belonging to the school, and too much out of repair for school purposes if large enough. The new building will be neat and commodious, and will add much to the appearance of the place. Within the last two years a new parsonage has been built, belonging to the M. E. Church, and partly finished. The good people of the church have been giving a series of ice cream suppers at the parsonage toward raising funds to pay off the debt incurred. The last quarterly meeting of the M. E. Conference year for the charge was held at Redeflyte, Saturday and Sunday last. Quite a number from other parts of the charge were present, and a pleasant time was had. Rev. David Steele of the U. B. Church preached at Jacob Maza school house on Sunday night.

A mail runs daily from Clarion to Vowinkel and return by way of Cooksburg, leaving Clarion in the morning. A daily mail runs from Redeflyte to Marienville and return, leaving Redeflyte in the morning some time. The old route from Clarion to Marienville and return has been abandoned. There is a daily mail from here to Brookville and return. And a mail, daily, we think, but it is not on alternate days, beginning on Monday, from here to Beach Bottom (Arroyo P. O.) and return. Arroyo postoffice was formerly at Irwin's Mill, two miles below Beach Bottom, and at the place where the Ridgeway road leaves, or did leave the Clarion river. But the P. O. and name have both been "lifted" and carried on up to Beach Bottom saw mill and tannery. Landlord Henderson of the Reid House, here, is contractor on the Arroyo route. He sold out his contract to a Mr. George, a man upwards of 60 years of age, not long ago. On his second trip Mr. George's team ran off and threw him out breaking a limb and otherwise injuring him. Mr. Henderson again has charge of the route. A mail runs from Arroyo to Ridgeway and return, leaving Arroyo in the morning and returning in the afternoon, and failing to connect with the Clarion mail either way. We have no Sunday mails.

Rev. Jenkins, colored, who is familiar to many in your end of the county, assisted by other talent held a camp meeting here this Summer not long ago. From here he went up the river to Spring Creek, and is now in Ridgeway.

A number of our young people have taken it into their heads and hearts to wed this Summer. Here's our hand and our voice wishing them a good voyage over the matrimonial sea. May no squalls they shall encounter find them unprepared, nor be of such magnitude as to bring disaster. May the sun (?) of their happiness be always a star of the first magnitude, and their da—(y)s be many and full of beauty.

Judge Coon is interesting himself a little in the culture of German Carp. He "set out" nearly 40 young carp this Summer; and had previously, about 2 years ago, "planted" about 20. The first ones he was somewhat unfortunate with. But all are doing nicely at present. He has just a very few fully 2 feet in length.

The public road from Redeflyte to Marion is better than we ever saw it before. Barrin's few chuck holes it is good. And these could be now with little outlay, and should be repaired.

Marienville has improved wonderfully in the past 3 years. A gentleman in business there informed us that there were now there in active operation 16 stores of various kinds. All the hotels (we think there are 6) have all the custom they can take care of. The extract works near the town is being pushed rapidly. The company, we are told, agreed that they would not put in a company store, nor build houses for their employes. This agreement is a decided advantage to the town in general. Building lots that sold for \$13 in Spring have more than trebled in value. Ordinary houses rent for \$6 per month. Marienville has a good school house, built 2 years ago, and located almost, or quite, in the limits of the town, with plenty of room outside as well as inside. Jenks now pays cash for teachers but the wages are not quite so good as formerly all around. By the way, Barnett pays \$30 per month to teachers—better than she has paid for a long time.

Business is brisk all along the P. & W. R. R. through the county.

Take Notice, Everybody, That Watson & Root have a steam saw mill for sale at the mouth of Queen, on Hickory Creek, about two miles above Wheeler & Dusenbury's. Capacity, from 25,000 to 40,000 feet per day. Two large two-horse boilers, 44 inches; two smokestacks, 12 inches diameter, 12 feet high; 4 head-boilers, Stearns' make; steel rake and plow, and carriage long enough to saw 68-foot stuff; three large saws, together with other smaller ones; one endless chain log-jackers; slab board cars, and iron track to slab pit; four board cars and one bill cart. In fact, enough for a complete mill. Will sell very cheap, on good security. Inquire of or address, G. F. WATSON, Tionesta, or Nebraska, Pa.

A misstep will often make a cripple for life. A bottle of Henry & Johnson's Arnica and Oil Liniment at hand, will not prevent the misstep, but used immediately it will save being a cripple. For sale by G. W. Bovard.

If you are troubled with a "hacking cough," "Downs" Elixir will give you relief at once. Warranted as recommended or money refunded. For sale at Bovard's.

Remarkable Rescue. Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption, she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself cured. She has since been a housewife and is as well as she ever was. Free trial bottles of this Great Discovery at Herman & Siggins' Drugstore, large bottles 50c. and \$1.00.

English Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses. Blood Spavins, Curbs, Colics, Scurvy, Bone, Stiffles, Strains, all Swollen Throats, Coughs Etc. Baxter's Mandrake Bitters cure indigestion, Heart Burn, Costiveness and all malarial diseases. Twenty-five cents per bottle. For sale by G. W. Bovard.

For sale, either for cash or on time, house and large lot in Tionesta Borough. For terms apply to P. M. Clark.

When Baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children, she gave them Castoria.

Happy Hooesters. Wm. Timmons, Postmaster of Idaville, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine, made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life." Only 50c. a bottle, at Herman & Siggins' Drugstore.

Itch cured in 30 minutes, by Woolford's Sanitary Lotion. This never fails. Sold by Herman & Siggins Drugstore, Tionesta. Jan 22-1m.
