The heaviest snow storm of the season occurred on Friday last extending into the night. It is estimated that eighteen to twenty inches of snow fell in about fifteen hours, much of which melted as fast as it came down. Colonel Samuel Young, editor of the Valley News, Zanesville, Pa., died on the 27th ult., after a long and severe illness and great suffering. He was born in Pittsburg in 1821, and at an early age he went into the newspaper business, and had been in it ever since with varying success until his death. He had many acquaintances throughout this section of country, his chief editorial work being confined to the county of Clarion while in this part of the country.

Messrs. Landers & Bovard have the machinery for their handle factory on the way, and will soon be at work setting it up in the riuk building. They purpose, making everything in the line of handles that are usually made from wood, and will add machinery for other work as the demand opens. Our best wishes are with these enterprising young men in their efforts to make something for themselves and at the same time add an industry to the town which is bound to benefit it. They should and will receive the encouragement of all our best citizens.

In its oil report for the month of March, just ended, the Derrick has this to say: A well drilled to the third sand, on the Fox tract, in Forest county, surprised its owners by starting off at a 300 bbl. gait. It will prove the incentive to further investigation of the region lying south of the Cooper tract. The report further shows 275 wells completed, 218 rigs up and 401 wells drilling, with a new production of 7,751 barrels. As compared with the previous month this is an increase of 34 in completed wells; decrease in drilling wells 9; increase in rigs 23; increase in new production 1,133, for the Pennsylvania field.

Attention is directed to the new ad. of Scowden & Clark, in this issue. This enterprising firm was never in better trim for turning out new work, and never had a finer display of new work on hand than now. They aim to give customers the very best for their money, never slighting a job nor using any but the best material to be had, and can warrant every part of a vehicle that comes out of their factory. They have lately taken the agency for some of the most approved agricultural machinery and sell it down low. In fact their prices are all down, when the superior quality of their work is considered. Don't go away from home for anything in their line. They'll do better by you than you can do elsewhere.

The ladies of the Presbyterian Church were taken by a happy thought not many days ago, and immediately set to work to carry it into execution. It concerned their esteemed pastor, Rev. J. V. McAninch, although he was kept in profound ignorance of what was going on until the proper time arrived. Last Friday evening he was invited to take tea with the family of Mr. A. B. Kelly, and at about 7:30 o'clock a large number of his congregation rang for admission to the cheerful mansion. At a given signal S. D. Irwin, Esq., arose, and addressing the rather astonished minister, in a neat speech, on behalf of the ladies, presented him with a beautiful gold watch, as a slight token of the high esteem in which he is held by his congregation. Mr. McAninch attempted a reply, but it was evident he was too much overcome by surprise to do himself justice in expressing his gratitude to the kind donors. The inside case of the watch bears in handsomely engraved letters this inscription: "Presented to Rev. J. V. McAninch, by his congregation, Tionesta, Pa., 1891."

Down on your knees, and thank Heaven fasting," not for a good man's love this time, but because you have cured your cold so easily with Dr. Bull's Cough Syrup.

SOMETHING NOVEL.

We noticed last week the entertainment to be given at the Presbyterian Church, Friday evening, April 3rd, in which an award of a Silver Medal will be made by three disinterested judges. The growing favor in which these contests are held, the many cities, towns, villages and country places taking advantage of the munificent offer, the advantage to our young people, and the money donated to this purpose by one man, make it necessary for us to briefly outline the conditions upon which contests are entered into: W. Jennings Demorest, of the popular ladies' fashion monthly, donates the medals. Any 8 persons between the ages of 12 and 21 years can contest for a silver medal of handsome design, and failing the first time may compete the second time for this silver medal.

Eight persons having been awarded a silver medal may together compete for a gold medal but once. Eight having won gold medals can compete together for a grand gold medal but once, and eight persons having been awarded grand gold medals may together compete but once for a gold medal studded with diamonds. Books are furnished by the Demorest Bureau, full of compositions for recitation from which those entering for a prize must make a selection. Three judges are chosen who make the award.

The first contest in Forest county, will occur, as stated, this coming Friday evening, and with a free admission there will hardly be standing room. Of course, we suppose, a collection will be taken. The silver medal will be on exhibition in May, Park & Co.'s window until Friday, 3 p. m.

NEWSY NOTES.

Johnsbury, Elk county, is now an extensive shipping point for oil, about 1,000 barrels daily being sent by the independents.

William Walker, of Greensburg, last week celebrated his ninety-third birthday. He has voted for every Republican President, and is still hale and hearty.

Nearly seven hundred members of the G. A. R. in this State, died during 1890. This is a larger death rate than any previous year, and shows plainly that the veterans are growing old.

William Sweet, of Siverlyville, a freight brakeman on the W. N. Y. & P. road, was killed by the cars at Warren, at 8:30 Sunday evening. While stepping from a box car to the tank of the engine, he fell beneath the wheels. Twenty cars passed over his body and mutilated him horribly before the train could be stopped. He was dead when picked up. He has a wife and seven children living at Siverly.

Geo. M. Winchester, who keeps a cigar

fruit and confectionery store in Titusville, was troubled for a good while by the theft of goods from his place. On the evening of the 20th inst., when closing the store, he set a loaded shotgun at the door where he suspected the man entered. He arranged it in such a way that he supposed it would wound the intruder on the legs in case he opened the door. A string was attached to the door knob and to the trigger, so that the opening of the door would discharge the gun. About 8 o'clock that night the report of the gun was heard. It was found that the load had entered the left breast of a boy named Johnny Barnes, killing him instantly. The lad was in his 13th year and was small for his age. The parents of the lad live in Titusville. The boy, it appears, was the one who had been committing the depredations. Instead of the tramps who were suspected. A coroner's jury returned a verdict according to the facts, without comment. No further action was taken until Friday last, when District Attorney Best instructed Justice Stouss that it was his duty to enter proceedings against the man who placed the gun. He says: "Whether a man has the right to deliberately plant a death trap, and with it take a human life, even under such circumstances as those surrounding the case in question, is a matter to be decided by a higher tribunal than mere street opinion." The case is a novel one and will excite general interest.

KANSAS.

McPHERSON, March 23, 1891. ED. REPUBLICAN:—

I received the REPUBLICAN of the 18th this morning which I read with a great deal of pleasure. I always consider it a treat to get it, for it gives me the news of my old home, that I have not forgotten. I presume that I never shall forget the good people of Tionesta circuit. The year that I spent in your town was in many respects a very pleasant one indeed, and I always desired greatly the prosperity of the town. Your last paper gives an account of the wonderful revival that you have had in the M. E. Church. I rejoice greatly with you, and would have been glad to have participated in that great and glorious work. Between Tionesta and Nebraska the Devil must have had a hard time of it. He don't like Methodist protracted meetings, they give him lots of trouble. I tell you, Mr. Editor, when these protracted occasions occur, and God's people are one, are a unit, as to faith and purpose, the Devil gets routed completely; the people triumph. I rejoice in your great religious prosperity. Please greet the pastor and people for your old friend. I do sincerely hope that it is only the beginning of the end, and that greater things are in reservation for old Tionesta charge. McPherson greets Tionesta. We are just now in the midst of one of the most wonderful revivals that has ever occurred here. All the churches are sharing largely in the harvest of souls; over seven hundred have been converted, and the work is still going on gloriously. It has swept into its fold almost all of the business men in our city. We have a business men's prayer meeting every day at 12 o'clock, and at every meeting some are converted or some take a stand for Christ. Our motto has been, "McPherson for Christ," and it does appear as if all was going that way. I have not attended the meeting but a few times, having been confined to my home for three months with "grippe" and pneumonia.

I am alone in my house, and have a very lonely time since I have been sick. My children are 1700 miles away from me. I have felt the loss of my dear wife more since I have been confined to my room, than ever I did before, but it is all right, when my work is done, my good Father in Heaven will take me home. I would like to see many of your friendly faces, but I presume this will be denied me.

God bless Tionesta and Nebraska. Your friend, J. F. HILL.
