Services in the Presbyterian Church every Sabbath morning and evening, Rev. J. V. McAninch officiating.

LOCAL AND MISCELLANEOUS.

—Oil market closed yesterday 70 1/2.
—Monday morning, to Mr. and Mrs. Wm. Steen, a son was born.

—Will Klinefister has returned to Tionesta for a season, occupying a part of Mrs. Reek's house.

—Mr. and Mrs. Geo. Nurs, of West Hickory, visited friends in this vicinity over last Sabbath.

—Deputy Revenue Collector Galbraith and wife, of Franklin, spent a day or two of this week in town with friends.

—Dr. Cook of Buffalo, has been in town since Saturday, summoned by the serious illness of his brother-in-law, J. D. Davis.

—Jack Frost was "in it" again in this section last night and the night before. The fruit crop stands a poor chance of weathering these snaps.

—The Free Methodist society of this place organized a Sabbath School last Sabbath. The election of officers and teachers was deferred till next Sabbath.

—District Attorney Clark has had the building next his residence nicely fitted up and now occupies the same as a law office. It makes a very cozy law joint.

—Frank Hodges, Mr. Henry's obliging assistant in the meat market, has moved here from Tidouete and will occupy part of Mrs. Joseph Grove's house.

—The Harrison well at the depot was again abandoned on Saturday last, having reached a depth of 650 feet. She readily refuses to respond with the lamp.

—The Lampblack Factory at Gilfoyle, and a shingle mill and two or three dwelling houses, located on Spring Creek, this County, were burned by forest fires on Sunday last.

—Henry Shoemaker let a railroad tie fall on his left thumb a day or two ago, mashing it (the thumb) badly back to the first joint, and making a very painful wound. The tie escaped injury.

—David Barnett unveiled his show windows yesterday morning, and opened his large new store to the public. David issues a very general and cordial invitation to all to come in and examine goods and prices.

—Sheriff Osgood moved his family and household effects to town last week, and now occupies the county "hotel." Ex Sheriff Sawyer breathes the air of a private citizen once more with his family in the F. F. Whitteck house, on Helen St.

—The Pittsburgh Dispatch, which is gobbled up when it arrives here like flannel cakes and maple syrup on a frosty morning, came out yesterday in a new dress of type, which now makes it not only the best newspaper but the handsomest that's agoing.

—Preparations are making by Stow Post, and its faithful auxiliary the W. R. C., of this place for a fitting observance of Memorial Day. This will be the first participation of the Corps in these exercises, and will lend additional interest to the occasion here this year.

—Jas. D. Davis has been very seriously ill since last Friday, when he was attacked with violent hemorrhage of the bowels. For a time his physicians had little hope of his recovery, but are much pleased with the progress he has made in the past 45 hours, and hope to have their patient out in a few days, in which hope Jim's many anxious friends join.

—Forest fires have been raging in the surrounding country during the past week. Over on Hemlock creek the fires have been quite destructive, burning down five or six of the gas well derricks owned by the Standard in that vicinity. The Tionesta company had one derrick burned down, but as connections had been made with their other wells the flow of gas was not much interfered with.

—The members of the Women's Relief Corps No. 137, are all requested to be present at Corps meeting, Wednesday evening, May 20. Business of special importance to be transacted. By order of President, Mrs. C. C. RUMBERGER. Mrs. E. L. DAVIS, Secretary.

—Our townsman, Hon. J. B. Agnew was, on the 11th inst., admitted to practice as an attorney before the United States Supreme Court, on motion of ex-Attorney General Garland. Mr. Agnew, we believe, is the first native of Forest county to be admitted to the highest court of our land. The firm of Pettis & Agnew has already a large list of suits entered for claims aggregating nearly half a million of dollars.

—Fish stories be fish stories the world over, but occasionally there comes along one which the editor must swallow without a grimace, not even asking for a smell of the pan after the crisp little cusses have been lifted out and devoured. Rev. Rumberger and Druggist Douth counted and weighed their string, caught on Fork Run Monday, with this result: One hundred and twenty; weight, eight pounds and two ounces.

—Bogus coffee is in the market in large quantities, it is reported. It is made of some kind of gritty paste, moulded in exact imitation of the natural berry, and so like it in color, either green or browned, as to be indistinguishable even to many experts. Its profit to unscrupulous dealers is that it is heavier than the natural berry and cheaper, and can be profitably mixed with the genuine.

—Court convenes next Monday, and promises quite a lively week of it. The first puzzle with which the Judges will be asked to wrestle is the license question, which comes up on Monday. After that the Shippin trial will likely be the first called, and in all probability will occupy the greater portion of the week in its disposal. The attendance of jurors, witnesses and suitors is apt to swell the crowd in town very materially.

—The second contest for a Demorest Silver Medal will be held in the Presbyterian Church, beginning at 8 p. m. this evening. Doots will be opened at half past seven, and as we advised you at the former contest, if you wish a seat, secure it early, bringing with you ten cents or more to deposit in the basket for the purpose of advancing this method of educating our young folks. Good music will interline the program.

—Messrs. Dingman & Dale are getting their large tie job at the mouth of little Tionesta pretty well whipped. Messrs. Carr and Shoemaker having their contract of delivering them to Oil City by water well on toward completion. This was the largest single purchase of ties that has been summated in this section since the industry has been carried on, the number being upward of twenty thousand, and these wide-awake gentlemen must have realized handsomely on the deal.

—Though the Delaware peach crop is reported to be considerably damaged, the crop in the South Mountain peach belt is said to have weathered the recent cold snap very well, one big grower saying that if no greater damage is sustained than has thus far been developed, he will have to thin out fully one half of the crop upon those of his peach trees that are in bearing. Now let consumers settle back contentedly with visions of peaches as big as bowls, in their heads.

—St. Commissioner Hood gives notice to taxables that he will commence his street work at once, and wishes it understood that all who have taxes to work out must come out promptly or send substitutes. Heretofore the work on our streets has lagged pretty much all through the summer and sometimes away into the fall, simply because taxables seemed to think they could take their own time to such matters and do their work when it suited their convenience. Mr. Hood has given a bond to faithfully and expeditiously attend to this work and the Council propose to hold him strictly accountable; therefore, in justice to himself and to the borough he will deal as strictly with those whose duty it is to work out their road taxes, and there will be no favoritism shown whatever.

Attention, Capt. George Stow Post.
The Annual Inspection of Capt. George Stow Post, No. 274, G. A. R., Dept. Pa., is ordered to take place on Wednesday evening, May 20th, 1891, and each member is requested to be present in full uniform. Comrade L. E. Hammond, of Tidouete, is the inspecting officer.

—Clothing for men, boys and youths in endless variety, and at prices that will astonish you, at David Barnett's new store, Tionesta, Pa. Call and make selections before the nicest are gone.

WANTED—100,000 LATH!
The undersigned wishes to buy 100,000 plaster lath, delivered at Emulento, Pa., by water. Correspondence with parties handling lath by river solicited. Address
31. URIAH SLOAN, Emulento, Pa.

—Rev. R. W. Hawkins, of Olean, N. Y., for several years Chairman of this Conference of the Free Methodist Church, has withdrawn from that denomination and has connected himself with the Wesleyan Methodist Church. On Sunday, 3d inst., he preached in the Wesleyan Church at Valley Furnace, Sugar Creek township, and also has appointments to preach for the same denomination in Oil City. Rev. R. W. Hawkins has recently published a work to which, it is said, the dignitaries of the Free Methodist Church take exception, and which they propose to make a subject of discipline in the General Conference. This, it is said, is Rev. Hawkins' prime reason for making the change. He is an able man, and one who would not hesitate to take a radical step to avoid trouble or dissension in the Christian fold.

—Governor Pattison's recommendation as to the disposition of the direct tax money is an eminently wise one, and Representative Taggart does well to bring in a bill to carry out the Governor's suggestions. This tax imposed by the Federal Government was taken out of the general funds of the State nearly a generation ago, and to meet the shortage thus entailed and pay other way expenses, a debt was incurred, part of which is still outstanding. The natural and proper disposition of the tax returned is to use it toward the extinguishment of the debt which it caused. In this way it goes to pay the expenses of the generation which raised the money now restored to the State. The steady diminution of the State debt is extremely gratifying, and the direct tax windfall will materially advance the deal, now not very far distant, of its final extinction.

—Governor Pattison's recommendation as to the disposition of the direct tax money is an eminently wise one, and Representative Taggart does well to bring in a bill to carry out the Governor's suggestions. This tax imposed by the Federal Government was taken out of the general funds of the State nearly a generation ago, and to meet the shortage thus entailed and pay other way expenses, a debt was incurred, part of which is still outstanding. The natural and proper disposition of the tax returned is to use it toward the extinguishment of the debt which it caused. In this way it goes to pay the expenses of the generation which raised the money now restored to the State. The steady diminution of the State debt is extremely gratifying, and the direct tax windfall will materially advance the deal, now not very far distant, of its final extinction.
