LOCAL AND MISCELLANEOUS.

Oil market closed yesterday 6 1/2. P. S. Never count your trout till you have them in your basket.

F. E. Reed, one of Warren's artistic printers, is spending a few days in town this week.

J. J. Brooking was down from Bradford for a few days' recreation during the past week.

M. C. Carringer, Esq., of Marienville, dropped in long enough yesterday morning to say bow'd do.

Scowden & Clark turned out a dandy new dray wagon for George Kilmer last Monday morning.

Vincent L. Zants of Forest county and Alice E. Reynolds of Farmington township took out a license to wed in Clarion county last week.

Mr. John W. Snyder, Clarion's genial blacksmith, who is serving his country on the jury this week, gave the REPUBLICAN a pleasant call yesterday morning.

WANTED.—A man out of work to take charge of an installment business in Tionesta, Pa. Address, with references, The Champion Shelf Mfg. Co., Springfield, Ohio.

H. McSweeney, Esq., solicitor for the National Transit Co., was up from Oil City on legal business Monday, and took occasion to shake hands with old friends, of which he still has many living here.

The Wesleyan Methodists will hold quarterly meeting at the Stewart's Run Church commencing on next Friday evening, and continuing over Sabbath. Rev. R. W. Hawkins will be present. All are cordially invited.

Between the almost nightly frosts and the extreme drouth, vegetation and such are about on a dead dry and dusty stand still. Unless we soon get a soaking rain about all kinds of crops will be a failure in this section of country.

The well on the John Berlin farm, Whig Hill, was shot last week, and when it is tubed the owners think it will be a ten barrel producer. This is the second well on the Berlin farm and the fourth one put down in that vicinity by Richards & Co.

The Clarion Jacksonian says that "insurance agents have been ordered by the companies they represent to cancel all policies on lumber and mills in the counties of Forest, Elk and Clarion, the districts in which the forest fires are so numerous."

David Mintz, one of the prosperous and enterprising merchants of Marienville, is drafted on the jury this week, and while here gave us a pleasant call. Mr. Mintz is a firm believer in printer's ink, and his success in business is proof that it pays to advertise.

Leon Watson's numerous friends are congratulating him on his marriage, which, as will be observed by a glance at our marriage notices, occurred last Saturday. Leon is popular with the boys, and they all join in wishing him a pleasant and prosperous wedded life.

Hereafter, by act of assembly, the legal holidays in this State will be New Year's Day, Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas, and every Saturday afternoon from June 15th to September 15th, inclusive.

The new style of postal cards have been struck off at the factory. One style is pearl gray, slightly smaller than present size; the cut and vignette are in blue ink, and the likeness of General Grant is brought out admirably. The other style is much larger than the present card and the same color. The vignette is the same as on the pearl gray, but the ink is black.

Mr. J. D. W. Reek is down from the McKean oil field for a few days' visit with his mother. Jairs had a severe tussle with a gas explosion a short time ago, and was so badly burned that it was necessary to shave his whiskers off, and his oldest and best friends almost refused to recognize him as the same fellow they used to know. Otherwise he is looking well and reports his family all in good health.

A scarcity of dimes is noticed, and is attributed to the toy cartridge-shaped bank which is now having a run all over the country. The little pocket bank is so shaped that only dimes can be inserted. So tenacious, also, is it of storehouse that it cannot be opened or its contents removed until fifty dimes, or \$5, have been stored therein. Thousands of these little banks are now doing duty.

Dr. Chas. H. Davis is fitting up a dental room in the addition to the Barnett block, and is prepared to do all classes of work in his line. Dr. Davis is elegantly equipped with latest and finest instruments, and having graduated from the best institution in the land, is ready to guarantee to customers entire satisfaction. As he does not expect to remain here but two or three months, those needing his services should call early.

Farmers and lumbermen should be very cautious in building fires in the woods and clearings these days, and when built they should be closely guarded. We understand the law to be in such case that notice to burn fallow must be given to adjoining owners or else the fallow-burner becomes liable for damage done. And decidedly any person who carelessly sets fires is liable both to fine and imprisonment.—Tidoute News.

The two large shingle mills belonging to Baker & Hammond, and located near Sheffield Junction, this county, were totally consumed by fire on Sunday of last week. Several dwelling houses were also licked up by the intense flames of the forest fire which raged furiously in that section, and in most cases the contents were also totally burned. People were obliged to run for their lives, not having time to snatch a particle of their household effects, and there is in consequence some suffering among families for want of material to begin housekeeping again. The firm of Baker & Hammond is erecting two new shingle mills at Brookston, one of which is already completed.

Miss A. M. Starkweather, agent for the Children's Home at Randolph, New York, is in town for a few days soliciting aid for the above named institution. Miss Starkweather was here a year ago on the same errand and not without some success. The Home is not a State institution, but is supported by private contributions. The errand on which Mrs. Starkweather comes is rather a difficult one, but it should enlist sympathy, and more substantial aid when possible to give it. The lady is at the Rural House, where those whom she may fail to see in her canvass can find her. The Home is non-sectarian, and while located in New York State opens its doors alike to the homeless little ones of Pennsylvania. All who are interested in and love little children should give Miss Starkweather more than sympathy.

The Blizzard says, the unique oil farm of Dr. C. J. Reynolds and Peter Gruber, heretofore fully described, was given an experimental test to-day. The connections were made complete with the pumping wells, railroad and automatic workmen; the steam was turned on from the little boiler, temporarily secured for the test, and the oil farm was in complete operation. The wells connected by turn-table sucker rod attachments, pumped in good shape; the train made its circuits on time; the automatic workmen pounded, picked and sawed away as diligently as though they were being paid for it, and all the detailed equipments of the farm showed up according to the plans, demonstrating that it will be a success and worthy of a corner at the World's Fair. When the minor details are completed, as they will be in a couple of weeks, the motive power will be supplied by electricity, and in the meantime it will not be open to inspection. The motive power in the trial made to-day was supplied by a peanut roaster, but the through train made close connections just the same. The Doctor and Pete have already received several offers for it but have refused to sell.

A \$795 Forgery. H. J. Hopkins received a dispatch Wednesday from a New York bank asking if he had issued a check of a certain number, for \$795. To his reply in the negative the bank wired him to come to New York immediately as a suspected forgery had been committed and the forger captured. Mr. Hopkins took the 4 o'clock train from Titusville and yesterday morning was in New York. Later in the day he wired Mr. Holeman that it was a genuine case of forgery, and that the culprit would be given trial at 2 o'clock p. m. yesterday. No further particulars are given as yet, though it is safe to presume that if the case is as it now appears, the sharp young man from New York is now a boarder at Sing Sing. As the New York bank took the precaution to inquire into the genuineness of the check before paying it of course Mr. Hopkins could lose nothing. He is expected home to-day.—Pleasantville Record, 15th inst.

MINUTES OF THE COURT.

The Jury in the Shippen Case Secured, and the Trial now Progressing.

Court called at 2 o'clock Monday afternoon, with Hon. Charles H. Noyes, President, and Hons. John H. White and C. W. Clark, Associates on the bench. The constables' returns were heard, and the grand jury charged.

There being no Commonwealth cases ready for trial, the case of George E. Hare, in trust for Joseph Behrens, Robert Smith, W. D. Smith, J. M. Hare, C. P. France and A. R. Thomas vs. The Anchor Oil Co., was taken up. This case occupied the afternoon and was given to the jury yesterday morning, which brought in a verdict in favor of the plaintiff for seven-tenths of 1000 acres in Hows twp. All the other civil suits were continued to next term, and all jurors, except those on the Shippen trial, were discharged Tuesday evening.

All license applications have been put over till the latter part of the week.

The grand jury returned the following bills: Commonwealth vs. Dr. Harding, abortion, true bill. S. J. Setley, prosecutor.

Com. vs. O. F. Landers, misdemeanor, not a true bill.

Com. vs. Frank Maher, F. & B., true bill.

Com. vs. Wm. McDonald, larceny and felony, true bill.

TRIAL OF EDWARD S. SHIPPEN.

The trial of Edward S. Shippen, charged with the murder of Joseph W. Say, in Barnett township, on the 29th of last December, was begun at ten o'clock yesterday morning, and at about 5 p. m., the twelfth juror was secured without going outside the regular panel. No evidence was taken yesterday. The jury, which is one of the best and most intelligent that could have been selected in the county, is as follows:

- John Shunk, farmer, Kingsley. H. O. Hamilton, clerk, Jenks. J. W. Shields, laborer, Jenks. Eli Berlin, merchant, Kingsley. J. H. Berlin, farmer, Kingsley. Wm. Ault, laborer, Green. M. E. Abbott, clerk, Hickory. T. J. Bowman, merchant, Hickory. Wm. Cropp, Sr., farmer, Green. Andrew Emert, farmer, Hickory. John Sayler, laborer, Borough. D. L. Frampton, clerk, Jenks.

The legal talent engaged in the trial is very strong on both sides, and it may be depended on that the case will be fought inch by inch as it progresses. The Commonwealth is represented by District Attorney P. M. Clark, John W. Reed of Clarion, C. Z. Gordon of Brookville, Eugene Mullen of Bradford. The defense has J. B. Agnew, T. F. Ritchey, F. E. Bible of Tionesta, Geo. A. Jenks of Brookville, A. B. Richmond of Meadville, and Wm. M. Fairman of Punxsatawney. At this hour, 11 a. m., Wednesday, the Commonwealth is being heard, and will likely consume the entire day hearing witnesses. We shall endeavor to give the most important part of the testimony in our next issue.

GRAND JURY'S REPORT. We, the grand jury, in and for said county, having examined into and inspected the public buildings, vaults, grounds, etc., do report the following: That in our opinion the vaults are too small and insecure, and should be made larger and fire-proof.

We further recommend that the jail yard be replaced by a new and strong structure, the present one being insecure. We also recommend that the wall and fence around the public buildings be repaired and the fence painted. In conclusion we find the officers in charge of their public duties, gentlemanly and courteous.

W. R. HARDENBURGH, Foreman. Tionesta, Pa., May 17, 1891.

STEWARTS RUN.

Our school opened Monday with Miss Redfield as teacher. She comes among us highly recommended as a teacher.

Mrs. Beatty, sister of J. A. Dawson, is visiting his family at present. Our merchant, Mr. Metcalf, has gone to Titusville to-day for a load of goods. Frank sells at reasonable prices and does quite a business.

Mrs. Reeser, Mrs. A. J. Handy's mother, of Franklin, visited her daughter last week. Stewart & Son finished No. 6, on the Gordon, last Saturday. She did about 30 barrels the first 24 hours, from the Quin sand.

Wood & Co. went through what ought to have been sand, last night, and got neither oil or sand. Do not know whether they go on to the Black or not. This well, No. 15, is located on the northwest corner of the Jocelyn farm, and it is considered that it decides that this Quin sand does not run on a 45 degree line northeast and southwest. This makes the second dry hole for Wood & Co. this spring, as 14 was dry, 600 feet south of 15.

We understand J. I. Range & Co. intend drilling a well soon, on Mr. Range's old homestead. May you get

a good one. Mrs. J. E. Allender of Hickory, visited her father, Mr. Range, last week one day.

Quite a number of our citizens are attending court this week.

Quarterly meeting at the White Church next Sabbath by the Wesleyans.

U. S. Zahniser was home from Butler county over Sabbath. Reports times dull there. CITIZEN.

CLARINGTON.

Forest fires are raging in the neighborhood of Redelyffe and Shippen's, destroying considerable timber.

J. B. Campbell is home from working on a well up above Katz's.

G. W. Kuhns and family are up visiting amongst his friends and relatives.

Jacob Maze has had a serious time with the fever, but is now a little better.

The late frosts have done considerable damage to the fruit, but think some is yet spared.

There is a great deal of sickness throughout the neighborhood.

Miss Mattie Maze has come home from her school at Clarion on account of her father's illness.

Rain is needed very badly, as the ground is all drying up.

Mr. R. W. Brennsaman returned home from the western country some time ago. May 16. MCGINTY.

Home Entertainment.

The large crowd attracted to the Presbyterian Church last Wednesday evening to attend the second in the series of Demorest Medal contests were well repaid as was proven by the financial part of the program which amounted by collection to \$11.85. Eight persons strove for the prize, each wishing the other seven the greatest success next to the winner. Their names are Willie Hunter, Anna Anderson, Willie Bible, Kithy Joyce, Mary Rumberger, Rilla Braze, Minnie Landers and Benjamin F. Davis; and of the Judges Prof. R. D. Crawford of Tidoute, and Messrs. Geary and McSweeney of Oil City. The battle was earnestly and pleasantly contested from the time the candidates selected their declamations, and the exhibition referred to would shame most of our older heads who are well satisfied with their own appearance on the rostrum. With one or two exceptions (and these showed great improvement) the exhibition of oratory was almost faultless and the aggregate score of 109 made up from five points,—voice, memory, articulation, gesture and general effect,—was well high reached. The selections are taken from the pens and mouths of many of our greatest temperance writers and speakers, and we are sure, had the originators of these articles been present, they would have concluded their productions had fallen into good hands. To say that the contestants did well, and the influence one for good, is a very mild statement of the overwhelming verdict of those who were so fortunate as to secure a seat. The relative merit was found not an easy matter to arrive at, but the honors finally rested upon No. 3—Willie Bible—and the presentation of a Silver Medal made in a few appropriate words from Prof. Crawford. Following this the ladies of the W. C. T. U., who have charge of these contests, presented, through Prof. Crawford, to Miss Minnie Landers the book by our American Pansy, "Four Girls at Chautauque," and to Ben. F. Davis that by the English Pansy, "Briar and Palm." These two have twice contested for a medal and by the rules governing them are barred from further participation. Music interspersed the program and received considerable applause particularly two comic male quartettes, "Excepting when I vote," and "Come off the fence." The evening closed with thanks to the judges and others contributing to its success, and congratulations to the owner of the medal. Give us more of them.

NEWSY NOTES.

On July 4th next, and thereafter, the flag of the United States will contain forty-four stars. Wyoming was not admitted until after July 4th of last year, and the United States law prescribes that the star for a new state shall be added to the flag the next Fourth of July following its admission.

Many years practice have given C. A. Snow & Co., Solicitors of Patents at Washington, D. C., unsurpassed success in obtaining patents for all classes of invention. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column, will be of interest to inventors, patentees, manufacturers, and all who have to do with patents.

Axel Anderson was fishing for bullheads at the "Forks" recently when he captured a monstrosity. It was an "alligator" of the genus that inhabits the waters herabouts, and weighed quite ten pounds. He says the reptile made a sound resembling the barking of a dog when he was pulled out of the water. These "alligators" are getting very numerous in the Conowingo but a ten-pounder is seldom seen.—Baltimore Courier.

The June Peterson is as bright as the month which it waters in. This general favorite of half a century deservedly gains each year a deeper hold on the reading public. This number opens with two beautiful engravings, a double colored fashion plate and attractive needle work designs. It contains matter to appeal to the most varied tastes, and as it closes the volume, ought to be examined by all persons on the look out for a thoroughly reliable and superior family magazine. Terms \$2.00 a year. Address, Peterson's Magazine, 396 Chestnut St., Philadelphia.

The Indiana (Pa.) Gazette sent a circular of inquiry to the commissioners of all counties in the State except Allegheny and Philadelphia, asking for information concerning methods of maintaining the indigent poor. The purpose of the letter was to ascertain the least expensive system

of pauper maintenance. The replies show that there are two systems in general use in the State, the "reverser" and the "county home" plans. The majority of the commissioners favor the county home or almshouse system, as it seems to be the cheapest and most convenient way of taking care of the poor.

It is a mistake to believe that cold drinks are necessary to relieve thirst. Very cold drinks, as a rule, increase the feverish condition of the mouth and stomach, and so create thirst. Experience shows it to be a fact that hot drinks relieve thirst and "cool off" the body when it is in an abnormally heated condition better than ice-cold drinks. It is far better and safer to avoid the free use of drinks below sixty degrees, in fact, a higher temperature is to be preferred; and those who are much troubled with thirst will do well to try the advantage to be derived from hot drinks, instead of cold fluids to which they have been accustomed. Hot drinks also have the advantage of aiding digestion, instead of causing debility of the stomach and bowels.—Ex.

The bark season is now fairly opened throughout the Pennsylvania hemlock belt, and there is great activity in the forests tributary to the city. A well-informed lumberman says that this year promises the largest peel of bark that has been known in many a year. The stock at the tanneries, owing to a small product last season, is about exhausted. In fact bark men say they have never known the reserve at the tanneries to run so low before. Last year the peel was small, owing to the stock of logs left in the woods from the open winter that had preceded. But now the logs are used up, the bark is gone, the tannery and lumber business is good, and to supply both the saw mills and the tanneries will take lots of hemlock. Prices for bark are running close to \$1 above two years ago, although the tanneries are not buying as freely as might be anticipated. Prices for peeling are better, and where men were paid \$1.25 and \$1.40 two years ago, contracts are made at \$1.60 and \$1.75 a cord now. A gilt edged peeler can take off two cords of bark a day, making him at \$1.75 the sum of \$3.50 for his day's work. Men are in demand and will be scarce.—Ex.
