promises to be the greatest in history. Every country of importance will make a special exhibit.

UNCLE SAM has paid \$22,000,000 of his debt during the past year, and on the first of July had over \$53,000,000 cash on hand, yet the Democratic press is trying to make the people believe we are a bankrupt nation. Shame on such baseness.

McKinley will win on American tin and Ohio will have a Governor who is American clean through Voters know that a dollar never bought more in manufactured articles, and relative to the level of price, wages were never higher.

IT Is said that Chas. S. Wolfe, of Union county, ex-Republican, ex-Prohib., and ex Reformer, but who now poses as a Pattison Democrat, is an applicant for Superintendent of State Banking, a new office made by the last Legislature. He surely ought to have something, as he is a fair sample of the present sham reform Pattison crowd .- Warren Mail.

THE Democratic state press is pretty industriously booming Chairman Kerr, of the Democratic State Committee, for State Treasurer notwithstanding the fact that he has authorized the statement that he would not accept the nomination. Mr. Kerr is more astute than his friends, and

Western Kansas last year, where the rainfall was only an inch and a half, enough seed was produced to sow 240 acres this year. The grass will grow on the moist arid land which now produces only sage brush and tumble weeds, and yields about a ton and a half per acre. This will prove of immense advantage to the West. If grass can be grown cattle can be raised, and it is not unlikely that the range of the county papers at least three weeks previous to the Primary Meetings stating the office, and subject to the action of the party at the said primary meetings.

Mr. Hamlin has been perceptibly failing for a year. He was born in Paris, Me. August 27th, 1809. He graduated from Bowdoin College, and was admitted to the bar in 1833. In 1836 he was elected to the Legislature as a Democrat and in 1842 to Concern and the person having the highest number and the person having the highest number. when he was sent as American Minis-ter to Spais. He held this office but one year.

Some newspapers are aunouncing with a great show of wisdom that this or that candidate for State Treasurer or Auditor General is forging to the front and is sure to be nominated. This is harmless amusement and keeps the editors employed; but from a news point of view it is a waste of space. Nobody knows anything about the probable make up of the Republican ticket at this time, and the candidates of the other side are still deeper in the woods. Several good men have been suggested for the offices to be filled, and it only remains for the convention on the 26th of August to make a wise selection. Then it will make little difference what the other conventions may do .- Harrisburg Tel-

HORIZONTAL MORRISON is said to be growing in favor as a Presidential candidate with the Democrats of the West. This is good news. With Morrison as a candidate it would be MAJOR McKinley seems to be very impossible for the Democrats of the country to make a pretense of incidental protection. Morrison is none of that sort. He is a practical free EVERYDAY in the year they turn trader. He is a bold representative out one hundred boxes of tin at of a pernicious doctrine, and has too Apollo, in Armstrong county, and at much manliness to be whipped into the same time turn down the tin plate silence by the campaign managers. He would speak out and refuse to apologize for his position as did the ALL the Old-World countries are unfortunate Hancock. Let Morrison taking an active interest in the grow in favor and in strength. His World's Fair and the Exposition is the candidacy that the Republicans would be most pleased with except, possibly, Cleveland, Mills or Carlisle.

A Word About Catarrh. It is the mucus membrane, that wonder-It is the mucus membrane, that wonderful semi-stude envelope surrounding the delicate issues of the air and food passages, that Catarrh makes its stronghold. Once established it eats into the very vitals and renders life a long-drawn breath of misery and diseases dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath and killing the refined pleasures of taste, Insidiously, by creeping on from a simple cold in the head, it assaults the membranious ining and envelopes the hones, eating the delicate coats, causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient and all alleviatives are simply procrastinated sufferings, leading to a fatal termination. The doctors have, by a treat-

ment local and constitutional, made the cure of this dread disease a certainty, and has never failed. Even when the disease has made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered and the disease thoroughly Caronic Diseases,
