LOCAL AND MISCELLANEOUS.

Oil market closed yesterday 65 1/2.

Much complaint is heard about the potato-rot.

Jas. Butler is moving into the new Kepler dwelling next to Barnett's store.

The oats harvest is almost over, and the crop is one of the best in years. Happy farmers.

Mrs. Julia Riston and son, Paul, of Reynoldsville, Pa., are visiting Mr. and Mrs. Chas. Kircharz this week.

The borough schools begin on the first Monday of September. As the time draws nigh the urchin looks blue.

Blackberries are just now at their best, and goodly quantities are finding their way to this market. Eight cents per quart is the ruling price.

The game of ball booked for last Wednesday between the West Hickory and TioneSta Jrs., at West Hickory, was postponed to some future date.

Among the marriage licenses taken out during the past week in Venango county, was one by Mr. Frank W. Ware, of Grant, Indiana county, and Miss Sadie E. Kean, of Dempsytown. Our congratulations are extended.

Some of our sidewalks are yet in bad condition. The other day we saw a lady step through a hole in the walk on Main street, and she came very near having a bad fall. Fix 'em up or there may be some damages to pay for broken limbs.

George Raab received a telegram Monday morning conveying the sad intelligence of the drowning of his brother, Adam Raab, which occurred at New York on Sunday. At the time the telegram was sent the body had not been recovered.

Will Wolcott was somewhat burned about the face last Friday, by the igniting of the gas from the well on the Vockroth farm which was brought in that day. Some of the interested spectators made narrow escapes at the same time.

Dr. and Mrs. Towler and daughter, Miss Maud, were down from Marienville from Friday till Sunday, the guests of Hon. E. L. Davis' family. The doctor had the misfortune to be laid up all day Saturday with an attack of sick headache.

Mr. Keniston of the north ward, has the boss rata bagas of the season so far as heard from. He showed us one on Monday evening that weighed 7 pounds, and says that every one in the quarter of an acre that he has planted will average 6 pounds in weight.

The colored camp meeting, which has been in progress since Thursday, was quite well attended on Sunday last. One of the interesting features of the meetings was the singing by a choir of a dozen or more voices. The meetings will continue over another Sabbath.

The Chautauque excursion last Friday was quite well patronized, about 140 persons taking the train at this place. Tidoute and Hickory did not turn out as well. Barring the rain in the afternoon, all report a pleasant time, and all arrived home at a seasonable hour.

The best pike and salmon fishing of the season is yet to come. After the leaves have fallen and sunk to the bottom of the streams, furnishing hiding places for the minnows, the big fish become most greedy and are quickest to sight and strike a bait.—Meadville Tribune.

The annual reunion of the 83d Reg. Pa. Vols. will take place at Corry, Pa., on Tuesday, Sept. 8th, 1891. The surviving members of the regiment are earnestly requested to be in attendance, and a cordial invitation is also extended to all old soldiers to join in the festivities.

TioneSta is a most delightful place, so summer visitors say. Why not utilize our natural resources and give those who have no special friends with whom they can spend a few weeks, an opportunity to visit our town and admire the beautiful scenery hereabouts? A new hotel supplied with water from the sulphur and other mineral springs in the vicinity would fill the bill.

Special examinations for teachers will be held in TioneSta the last Saturday in September, October and November, at which applicants, bringing a request for a special examination signed by at least three directors, saying they wish to employ said applicant in their district, will be examined.

The Republican State Convention at Harrisburg this week attracted quite a number of our citizens to that place to see that the affairs of Uncle Sam are properly attended to. Representative Randall, Editor Wenk, William Smearbagh, and J. C. Scowden accompanied Delegate Dick Davis on his mission to that place.

The school board of Green township met at Nebraska last Saturday and elected teachers for the ensuing term as follows: Nebraska, Miss L. M. Cox; Bowmanville, Mr. Charles Johnston; Guitonville, Miss Bertha Weikal; Flynn, Miss Maud Kifer; Hinderer, Miss Blanche Pease; Young, Miss Della Mohakern; Tubbs Run, Miss Lizzie Copeland.

Reports from Forest county in the vicinity of Lacytown, say that the big berry grounds in that vicinity are filling up with pickers. It is a favorite spot for pleasure seekers of this vicinity. Four two horse wagon loads of berry pickers and camping outfit left Salem, Sunday and yesterday. Several parties are organizing from Oil City.—Derick.

The school board of TioneSta township met on Saturday last and elected teachers as follows for the ensuing term: Hunter Station, Mattie Redfield; Hunter Run, Kattie Joyce; Jamieson, Myrtle Mulholland; Tubbs Run, Nannie Morrow; Oldtown, Nettie Hill; Smokey Hill, Ella Blocher; Huddleson, May Sloan; Blocher, Lorena Pease; Shriver, Minnie Hogue.

Mr. G. W. Robinson met with an accident last Saturday which resulted in a broken rib. While riding along near Kellestville in a road cart he was thrown out by the cart wheel dropping into a hole. He paid but little attention to the slight injury he supposed he had received till Sunday night when he was taken sick, and the extent of the injury was learned. He is now rapidly convalescing.

A heavily loaded excursion train of eight coaches to the G. A. R. reunion at Franklin, to-day, went down the road this morning. Stow Post with the Post Band, made a large delegation, while the Women's Relief Corps turned out about thirty strong. Altogether about 120 persons went from here. Great preparations have been made at Franklin for the reception and entertainment of the veterans and a grand good time will be had by all.

The TioneSta base ball club goes to Warren on the 26th to play two games with Warren. There will be a firemen's parade on that day which will offer additional attraction to visit Warren on that day. There will be a special car run from here at reduced rates. It might be well enough to notice that the base ball field was not intended as a cow pasture. However a few dollars picked up through the poundmaster from cattle owners will help to replenish the depleted treasury of the club.

Dr. F. A. Shugart, of Tidoute, died at his home Monday morning, at the age of 78 years. He had been ill for the past two years and his death was not unexpected. The funeral services will be held in the Universalist church, Tidoute, this afternoon. Dr. Shugart was one of the pioneers of Warren county and was widely known for his good qualities of mind and heart. He had been a practitioner for the past 50 years, and has many warm personal friends throughout the county as well as at his late home. He leaves a wife, two daughters and a son.

The special issue of the Oil City Derick of last Saturday was a handsome one and one over which it may well feel proud. It consisted of twelve pages of reading matter with illustrations, describing the paper's growth, and giving a complete review of the city and its business interests. The Derick has further reason for rejoicing in the fact that it was the first paper in the State to utilize the typesetting machine, the Mergenthaler Linotype, having recently placed five of these machines in their composing room, each of which, operated by one man, will do the work of three or four compositors, and the press is done well, as the daily appearance of the paper will testify. Here's more success to you.

The Warren Ledger springs the idea of the newspapers of this section forming an association for mutual protection and advancement. We're agreeable. For years the News has fought the fight against advertising agents who get all the profits and let the printer do the work; discounted the truck and barter system of paying for advertisements; demanded and received advances payment of subscriptions from all parties with whom it had no running accounts, and tried

to bring up the business to the standing of legitimate up-and-up business as a business investment. And it has succeeded so far as one office is concerned. But in union and unity much more can be accomplished. So Mr. Ledger outline your plan, ask the boys to come in and we'll be there.—Tidoute News. You may count us in, also.

OIL NOTES.

The Hardison well, on the Winker farm, was finished last Thursday morning, and we are sorry to say, was a complete duster. It was down about 975 feet, and failed, absolutely, to find any third sand. A small flow of gas was struck in the second sand, but no oil. It depends now on what the Bovee & Duck well on the Ledebur farm, some distance to the east of the Hardison, will bring forth, to show what the territory in that direction is going to amount to. The general opinion seems to be that, if the belt extends any great distance, these wells are too far to the east. The Bovee & Duck well is expected in not later than to day.

The Wolcott well, on the Vockroth farm, was brought in last Friday, and made a fine showing for a good producer. The sand, of which there was 24 feet, was struck at 910 feet, and while drilling through it, the hole filled with oil. The well was shot yesterday with a 30 quart shot, and was rigged up for pumping last night. We have not learned what it started off at, but a conservative estimate makes it 50 barrels, and that it would make from 25 to 30 barrels steady.

Hardison has made a location on the Kaman farm, east of the Vockroth farm, and will put down a well immediately. A Titusville dispatch of Aug. 16th, says: Titus Ridgeway, one of the oldest residents of this section, who during the early days of oldtime made a fortune and retired living at Hydetsown, near here, was robbed last night of a \$250 gold watch. Some valuable papers and about \$20 in cash were also taken. The family, consisting of himself, wife and sister-in-law, were chloroformed in bed before the burglary. The robbers gained an entrance through the collar door. No clue.

Clarington.

The farmers are still busily engaged in their harvesting. There was one of the finest little dances at Mr. Clarence Pierce's that has been given in this country for some time.

The blackberries are a good fair crop this season. Our friend Barton Flick is home for a few days shaking hands with his many friends.

There was a grand ice cream supper at this little city on Saturday evening. Mr. Grant Braden and lady, of Pittsburg, are guests of A. R. Braden for a few weeks.

Mr. George Bowers has been very sick for some time, but is improving slowly. Mrs. Everhart Mays has been sick for some time, but at last reports was improving.

I believe Mr. J. E. Cosgrove has not been feeling well for some time, although he is improving. James is the champion berry picker of this country, or has the name this season of being the champion.

For bargains in Furniture go to S. H. Haslet & Son's cheap furniture store.

NEWSY NOTES.

The streets of Leadville are paved with silver. A shaft sunk under the main thoroughfare struck ore that assays from 200 to 300 ounces of pure ore to the ton. Why not take a section of that street to the world's fair?

When Charles Tunison and Ed Campbell were killed by a stroke of lightning at the ball game at Warren, O., they were sitting beneath a tree. On the chest of Tunison, the white man, the undertaker found photographed, apparently by the flash, upon the skin the image of a branch of a tree and its twigs.

The oil field is coming nearer to Fryburg. The last well brings it less than two miles. It was put down by Hoy Bros. and began a flow of 80 barrels, and is now doing 90. Considerable excitement exists. Several new wells will come in this week that will help determine the extent of the field. Dr. N. H. Hess, Dr. Summerville and others have put some money in these ventures.—Clarion Jacksonian.

Did you ever count up how much time you put in sleeping, eating, sitting in the barber shop, standing on the street corners, talking about your neighbors, sitting in the theatre, watching base ball games, waiting for railroad trains, etc., and then subtract it from the 24 hours and see how much you had left? If you never did not do it, for you waste time enough without any more foolishness.—Bradford Era.

Some people are entirely too inquisitive. Now, here comes along the Clarion Jacksonian, which wants somebody to "kindly explain why it is that the participants in every disgraceful affair that occurs anywhere in this big country are always referred to in the newspaper reports as members of the 'best families' of their respective localities. And why is it that members of the 'worst families' never get into scrapes?"

A Titusville dispatch of Aug. 16th, says: Titus Ridgeway, one of the oldest residents of this section, who during the early days of oldtime made a fortune and retired living at Hydetsown, near here, was robbed last night of a \$250 gold watch. Some valuable papers and about \$20 in cash were also taken. The family, consisting of himself, wife and sister-in-law, were chloroformed in bed before the burglary. The robbers gained an entrance through the collar door. No clue.

The census bulletin in regard to the Catholic Church in the United States shows Pennsylvania to be in the lead of all the States, except New York, in regard to number of churches, value of property, &c., having 654 organizations, 610 church edifices, a seating capacity of 305,000, church property valued at \$10,068,777, and a membership of 551,577. The value of church property in the counties hereabouts is: Butler, \$79,000; Clarion, \$104,000; Clearfield, \$86,200; Crawford, \$108,400; Erie, \$182,300; Lawrence, \$32,700; Mercer, \$48,700; Venango, \$41,100.

Mr. William Hallack, of the United States Geological Survey, who has been visiting his father-in-law, Mr. C. H. Ames of Titusville, for a week, has left for Washington, D. C. He is to read a paper before the Scientific Congress at the nation capital before long on the subject of the deep well drilling at Wheeling, W. Va., under his direction. It is now 4,500 feet in depth, and Prof. Hallack hopes to still further prosecute the work to the depth of 6,000 feet. It will thus surpass the one in Europe which is only the size of a finger in diameter, whereas this one is four and a half inches.

General Butler's forthcoming book will be one of the largest historical autobiographies ever published. It will contain one thousand large pages, printed upon high grade paper and illustrated with several hundred wood engravings. It will be published in English, German and French. The best artists are now employed on the work. The Dickinson Type Foundry is casting type especially for it. The typography and press-work will be by the Barta Press of Boston, the first edition to be not less than one hundred thousand, probably double that number. The publishers are A. M. Thayer & Co., of Boston. The general and exclusive agents for Pennsylvania and Delaware are J. W. Keeler & Co., Philadelphia, Pa.

The new law regarding the election of Tax Collectors and their duties is to be tested by the Commissioners of Erie county, who have refused to issue a duplicate to the Tax Collector of Girard township. It is alleged the law discriminates against farmers who do not realize the profits on their crops until late in the year, while by paying early there is a rebate of five per cent. Those who pay later must settle the full amount, and those who are unable to meet the claim before the eleventh hour have a penalty imposed upon them. It is represented that this unnecessarily increases the clerical work in the Commissioners' office besides operating to the disadvantage of those who cannot always pay before the time announced for closing the Treasurer's books. This case will be watched with interest all over the state, as the law operates the same in every county.

Much of late has been written about the measuring worms that are here and there cutting the foliage from the hemlock trees. The many-a-line reporters for city dailies have got up a big scare, but there is probably no cause for alarm. The old lumbermen here tell us that this worm has always been at work in the hemlocks in greater or fewer numbers, but never hurt anything. "The worms have been at work on Spring Creek for years," says J. B. Elliott, an extensive lumberman, "but never did any harm." Mr. Elliott says the trees fed upon put out their foliage the coming spring, as if they had not been attacked by the worm. Mr. Haley, an old time jobber at Glen Hazel, tells us that the worms have not yet done any permanent damage, and he fully believes that they are not destructive. W. H. Crocker, of this city, an extensive bark dealer, says that in Canada these worms attack the leaves in mid-summer, but that the trees are not injured in the least. H. S. Thayer, a lumberman on Mill creek, claims the worm is an old acquaintance, and he likes to see it once in a while. The pest is not a new thing by any means, but on the contrary the lumbermen, tanners and woodsmen are well acquainted with it and smile at the cry of alarm that has been raised. The worm is a periodical visitor also, and may not come again for years.—Ridgway Democrat.

Ice Cream Festival.

A festival for the benefit of the Women's Relief Corps will be held in the Central House dining room on Friday evening, Aug. 21st, commencing at 7 o'clock p. m. Everybody cordially invited. By order of President. L. M. DAVIS, Sec'y.

Last of the Season.

The last excursion under the auspices of the W. N. Y. & P. R. R., to the Thousand Islands will take place on Friday, August 28. The train leaves TioneSta station at 8:40 a. m., and will reach its destination at 7:00 a. m. Saturday; rates for the round trip \$5.50, and tickets good for ten days. The train will be provided with sleeping cars for the night run, so that all can be provided with finest accommodations and perfect comfort. Remember the date.

Old, but True.

"When the cat is away the mice will play." Lanson has gone; Dick don't like to work, and to save putting away a few things such as summer dress goods, light wash goods, parasols, gloves, &c., he is going to sell them. The cost of the goods will not be taken into consideration—they are going to be sold. If you want to get onto the "plank" you must jump before it floats away. If you want a bargain come to Hopkins & Co.'s store.

Price is no object on clothing, dressgoods, light wash goods, parasols, &c., &c., at Hopkins & Co.'s store these days.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Proper & Douth's Drug store.

The Pulpit and the Stage.

Rev. F. M. Shront, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am now sound and well, gaining 25 lbs. in weight." Arthur Love, Manager Love's Funny Folks Comedians, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do to my many thousands of friends is to urge them to try it." Free trial bottles at Proper & Douth's Drugstore. Regular sizes 50c. and \$1.00.

BUCKLEN'S ARNICA SALVE.
