Waller recommends longer school terms which he thinks the increased State appropriation warrants. The introduction of manual training, free text books and compulsory education are recommended. During the year the total expenditures, including that upon buildings, was \$13,514,708.98, an increase of \$690,386.88. The esti-

The rascally board were informed that their business was to count ballots and not to sit in judgment on their legali-ty.—Com. Gazette. On the subject of the Speakership contest the Pittsburg Dispatch says: That the defeat of Mills means a black eye for Cleveland no political student will dispute. The manner in which the forces for and against the ex-President fought openly and in secret during the caucus for their fa vorites plainly testified that the honor of wielding the gavel was secondary to the honce of testing the caucus for their fa of wielding the gavel was secondary to the honor of triumphing over the faction. In a speech the Speaker-to-be has declared that he will take no step backward in tariff reform. This is bad for his party. It means, if Mr. Crisp is in earnest, that the Democracy is still hugging a delosion and pre-paring once more for defeat. Some who have been watching closely the progress of the preliminary skirmish at Washington say Crisp will Foster a new element in his party—will rid it of Mugwumpery and permit the theories of Hill, Gorman, Brice and Tammany to have full swing. This, too, adds another element of wenkness cy is still hugging a delusion and pretoo, adds another element of weakness to the majority in the House and the minority in the nation.
