Cul. Walter W. Greenland, of Clarion, will likely be appointed to fill the vacancy caused by the death of Adjutant General McClelland.

W. W. Ball, of Olean, N. Y., died in that city recently. The deceased was a son of Clinton M. and Cynthia T. Ball, well known to the older inhabitants of this section.

Dr. and Mrs. Morrow, who attended the G. A. R. and W. R. C. State Encampment at Pittsburg last week, as delegates, respectively of Stow Post 274, and Relief Corps 137, visited old friends in Armstrong and Indiana counties this week.

The oil report for the month of February, Pennsylvania field, shows 180 completed wells, 9974 barrels new production, 32 dry holes, and 400 rigs up and wells drilling.

All of the old Forest county friends of Mr. Thomas Porter, for many years a resident of Jenks township, will deeply sympathize with him in the loss of his estimable wife, who died on the first of February of this year, at her home in North Bend, Nebraska, where the family has resided for several years past.

She died of paralysis, aged 70 years. Mr. Porter has disposed of his property at North Bend, and is yet undetermined as to his future location.

This certifies that I have used Dr. Bull's Cough Syrup and found it to be what it is represented. I can safely say that it has helped my cough (which I might say was chronic) and I cheerfully recommend it to all those afflicted. H. W. Donnelly, 64 East 131st Street, New York.

The following item from the Flint, Michigan, Daily News, Feb. 2d, will interest the many Tionesta friends of the bride, who will join in congratulations and best wishes for a long and happy life: "The fact has just leaked out that Herbert Alexander and Theodora Adams, both of this city, were recently united in the holy bonds of matrimony. The young couple are quite popular in the circle in which they move, and start out on life's journey together with the best wishes of their many friends and acquaintances."

The American Protective Tariff League has just issued a new campaign Text Book for 1892. It is entitled "American Tariffs from Plymouth Rock to McKinley." This little book of one hundred pages is perhaps the most complete brief presentation of the benefits of Protection and Reciprocity yet printed and will be sent to any address for ten cents. In order please say, "Send me No. 52." This is the catalogue number of the document. Address Wilbur F. Wake-man, Gen'l Sec'y, No. 135 West 23rd St., New York.

As will be observed by an Ordinance in this issue, cattle are no longer "free commovers" in the Borough of Tionesta, the Council having passed the same at its meeting on Saturday evening last. The ordinance takes effect April first, thus giving owners of horned and unhorned stock time to prepare for the change.

The enforcement of this ordinance may seem like a hardship at first, but after once thoroughly in vogue we dare say there will be none who will want to go back to the old order of things, when cattle occupied the sidewalks about as much as pedestrians.

We are in receipt of a beautifully designed lithographed invitation to attend the 48th annual commencement of the Western Reserve University, Cleveland, Ohio, which takes place to-day. The many friends of Clinton D. Baker, in this section, will be interested to learn that he will graduate with the class of '92, from the medical department, as a full fledged M. D. This well known institution has turned out some of the most eminent physicians in our land, and it will surprise us if Mr. Baker does not rank with this class in a few years.

The notice by our Pittsburg exchanges that a charter was recently granted at Harrisburg to the "Forest Central Railroad," the proposed line of which is from Tionesta to Kellestville, on Tionesta Creek. A charter, be it understood, is not a railroad, but all well regulated railroads have charters, and since we have heretofore on several occasions boomed up the creek railroads that have as often "gone a glimmering," we don't propose to grow ecstatic over the prospects just now, yet we hope, whoever this newly chartered institution is, it has sufficient of the "stuff" to entitle it to respectful consideration, and enlist the aid of our capitalists in the furtherance of its project.

In other words, we hope the road will be built, and will guarantee the active and substantial support of the community through which it is likely to pass.

Fair and Just.

The Marienville Express, in a spirit of fairness and justice, makes the following mention: "By the request of a large number of tax payers, we publish, this week, an article in regard to the petition against the county buying the toll bridge across the Allegheny River, at Tionesta. Several remonstrances were sent here for the people to sign, representing the bridge as old and almost worn out. It was afterwards learned that some of the very men who got out the petition against it, were viewers on the bridge and pronounced it a good one and cheap at the price asked for it. It was believed by many that the bridge was a wooden structure, and it was afterwards learned that it was an iron bridge and not as much worn as represented by the paper to which they attached their signatures. Some of the leading men of this place have withdrawn their names and a great many more would do so if they had an opportunity."

COURT MINUTES.

The Bridge of the Tionesta Bridge Co. Taken as a County Bridge.

At the hour of going to press last week our report of court proceedings closed with case of S. Kaster vs. J. C. Welsh on trial. The case was decided by the jury finding a verdict for the plaintiff in the sum of \$1,399.89.

The next case was that of Wilbur J. White vs. David Mitz. This was a case in which the plaintiff sued the defendant on a claim for damages for false imprisonment and malicious prosecution, placing his claim at \$5,000 damages. The jury awarded him damages to the amount of \$20, and placed the costs on the defendant.

On Friday afternoon the bridge question came up for final action. After hearing objections by counsel for remonstrants, Mr. Ritchey, and arguments by counsel for petitioners, Mr. Davis, the court made the following DECREE.

In re Petition of Citizens to take the Bridge of the Tionesta Bridge Co. as a County Bridge, No. 3, Dec. Sess., 1891.

And now, Feb. 25, 1892, the report of the viewers appointed by the Court having been filed, and the same having been unanimously approved by the County Commissioners, and the Court and Grand Jury having heard evidence in support of said report and against the same, and the Grand Jury having found that said bridge ought to be declared a county bridge, etc., as appears by their finding duly filed of record, and it appearing to the Court that such bridge ought to be declared a county bridge, and that the same is necessary for the public accommodation, and that payment of tolls thereon is an unjust burden on the travelling public and the people of the Borough of Tionesta and the townships near where said bridge is located, the Court order, adjudge and decree, That said report of viewers be approved, that the damages fixed by the viewers be payable to the said Tionesta Bridge Company, cut of the County Treasury, (saving all rights of appeal) and that said bridge shall be taken possession of by the County Commissioners, and that from and after such taking of possession all tolls thereon shall cease.

PER CURIAM.

CHARLES H. NOYES, P. J. J. H. WHITE, Associate C. W. CLARK, J. Judges.

In accordance with the foregoing decree the Board of County Commissioners proceeded to the bridge on Friday evening and formally took possession of the same, and declared the same free to the travelling public. The Bridge Co. immediately gave notice of appeal from the award of the viewers of \$14,000, and the matter of price will be adjudicated in a jury trial.

GRAND JURY REPORT.

The Grand Jury reported that they had acted upon one bill of indictment which was found a true bill, and further that everything in and about the court house and jail was found in good condition. They also reported a lack of fire proof space in the Prothonotary's office for the safekeeping of records, and recommended the enlargement of same. The highway at a point in Howe township known as Naahes Siding is reported as being obstructed by lumber piles belonging to Patterson & Gillfillan. And further that the road running from Balltown to Marienville, that part of it in Howe township, as being unpassable and unfit for travel.

Death of Thomas Pownall.

Thomas Pownall died at the home of Mr. Wortz on German Hill, on Sunday, February 28, 1892, and was buried at the Zuendel burying ground on Tuesday forenoon, Rev. H. Rhodes officiating. Mr. Pownall was a quiet, inoffensive but very industrious man, and was well respected by all who knew him. Of his life, the following penned at his request, we print with but few changes: Was born in Bucks county, Pa., on Dec. 16, 1813; moved with my parents to Millin county at the age of 17; went to Lewisport, Pa., soon after and learned the hatters trade, worked at my trade for several years, and then traveled for a year through several of the Southern States. In the fall of 1839 came to Tionesta and worked at building boats for D. Harrington at his yard on his farm. The following year in company with year, Crisp, made square timber. We cut the pine trees from wherever we could get the timber to the water the easiest; timber was free all along the creek at that time. It was beautiful and there was plenty of it. I married Mary Ann in company with year, Crisp, and her health and died 18 months later. I afterwards worked for H. Stowe at Newtown Mills, then for G. Messinger at Foxes and later for H. H. May at Buck Mills, and closed my career as a lumberman after having stocked the Balltown mill for three years. About 1850 he married Angelina Murdock, of Mercer county, whose death occurred some three years ago. Five children were born to them, two of whom are living. In 1859 he bought fifty acres of land on Little Hickory, on which he resided for three years. He realized a royalty from a number of producing oil wells. He was always a Democrat and cast his first vote for VanBuren. Was never a member of any church but thought well of all of them.

CRUSHED TO DEATH.

George Glassner is Instantly Killed by a Falling Tree.

This community was shocked to learn shortly after noon on Saturday last of the tragic death of George Glassner by being crushed beneath a falling tree. He was taking out railroad ties on a tract of Dingman & Dale's on Tubbs Run, about four miles from here, his companion in the woods at the time being Wm. Shell house. They had sawed a medium sized tree to the falling point and retreated to what seemed a perfectly safe distance. Instead of falling straight from the stump it split up a distance of several feet and then the butt shot back like an arrow in the direction of the unfortunate victim, who, it seems, saw his danger and had turned to run, but was hindered by a small clump of bushes, when the tree struck him between the shoulders, crushing him to the ground and killing him instantly. His companion ran for help which was near at hand, and the young man's lifeless body was soon extricated, and conveyed to his home.

George was a son of Henry Glassner, of German Hill. He was an energetic, industrious young man, of a quiet, gentlemanly disposition, and well liked by all who knew him. He was aged about 23 years, and leaves a wife and one child besides a large circle of friends to mourn his terribly sudden death.

The funeral took place on Monday forenoon, the remains being laid to rest in Mt. Zion cemetery.

"Green Goods" Again.

The following account of how many suckers are caught by an old bait, is from the Bazaar. Few men in the country there are, who can read, but will recognize the sleek "way in which it is done," yet a re-telling will not be amiss to those who may possibly not be onto the modus operandi of the thing:

A gentleman who came down from up the river Friday afternoon, brought with him a "green goods" letter which he had received. The gentleman was too shrewd, aside from his honesty, to be tempted into such a game, as the newspapers have from time to time published similar letters and exposed the trick in every detail. These letters are sent to men supposed to be susceptible to the temptations held out. An alleged clipping is enclosed with the letter, taken from a paper which does not exist. The newspaper article describes silver certificates made by New York counterfeiters so perfect as to pass by experts undetected.

The writer of the letter is dealing in these perfect and desirable green goods. As usual he desires a personal meeting with his customer, the letter to go to the city. The golden opportunity to make a quick fortune is blazoned to the reader. "There is no wrong in it," says the letter, "Uncle Sam has millions of our money locked up in the Treasury, uselessly and unjustly so." The terms are then stated to be twenty five cents on the dollar. The customer is warned not to answer by mail but to telegraph to Stephen R. Beckwith, Buchannon, Upshur County, W. Va., and instructions will be forwarded by letter.

It cannot be said to a certainty that this invitation would have led the victim into the meshes of the "panel game," but the preliminaries are identical to the famous trick. The victim is taken to a room where the money he wants to buy is counted out to him and put in a box. The dealer manages to distract his attention while an accomplice in an adjoining room deftly removes the box from the table through a panel in the partition and supplies its place with a box of sawdust or blank paper. Aside from the criminality of intentionally going into a deal of this kind to defraud the Government, such men as send out these letters are always to be suspected of crookedness, and the customer is more likely to receive a box of sawdust or be made the victim of some other trick, than to get the cheap "quicker" money on which he hopes to gain a dishonest fortune.

NEWSY NOTES.

At noon Sunday the block system of train service went into effect on the Nypano. The management of the line have been at work several months getting matters into shape for this important change, and now have everything completed.

An appeal to the Grand Army of the Republic for contributions to aid in the erection of a statue in Washington to the memory of Gen. W. T. Sherman has been made by a committee appointed at a meeting of the Society of the Army of the Tennessee.

The Allegheny Valley Railway company has issued a notice to the effect that it has assumed control of the road under the conditions of the sale, and that all officers and employes will continue in the service in the same relations as they sustained to the road under the receiver.

Says the Derrick: A petition to the Senate and House of Representatives in receiving many signatures in this city. The petition urges the passage of House bill No. 401, entitled, "An act in amend-

ment to the various acts relative to immigration and the importation of aliens under contract or agreement to perform labor" introduced by Hon. Wm. A. Stone, of Pennsylvania.

The Philadelphia Record says: All efforts to form a gigantic lumber trust have failed and it is quite likely that even existing rates will be seriously cut before long. W. M. McCormick, the Penn Lumber Company, Bayard & Co., and others of this city were represented at a meeting of lumbermen recently held in Williamsport, when the proposed trust was discussed. At this meeting 20 individuals and firms controlling two-thirds of the entire output of hemlock, agreed to advance the schedule all around from 50 cents to one dollar, but before the meeting closed a further fight ensued and the entire project fell through.

On Wednesday afternoon, while walking about his flouring mill at Coopers-town, George Wagner got his coat caught on the set screw of an upright shaft that was making sixty revolutions a minute. Instantly he was wound up on the shaft, and hurled around with great velocity, his feet striking the floor with such force as to tear the soles from his boots and break the bones of his feet and legs up to the knees. The muscles were lacerated, a mass, two ribs broken and internal injuries inflicted. Drs. Crawford and Bille were promptly on hand and did all in their power for the sufferer. Mr. Wagner is about sixty years old. The chances of recovery are reported to be against him.—Bazaar.

La Grippe Successfully Treated.

"I have just recovered from a second attack of the grip this year," says Mr. Jas. O. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" 50 cent bottles for sale by Proper & Douth, druggists, mar.
