FREE wool embodies an extension of free trade which passes the limits of a tariff for revenue only, and involves an almost inevitable resort to direct taxation for the support of the national government.

HAVING very effectually shut out the competition of foreign cheap labor in foreign countries the Republican party proposes to add to the protection of our labor the exclusion of foreign cheap labor from competition with our labor at home.

TARIFF PICTURES. - In England under free trade the woolen industry has increased since 1860 57 per cent. In the United States under protection it has increased in the same time 375 per cent., and good woolen clothing is as cheap in this country to-day as in England .- New York Press.

As a result of the vote at the Re-county on Saturday last on the question of popular choice of United States Senator, Quay had a majority of over one thousand votes over Dalzell. Senator Quay also carried Union and Snyder counties by large majorities, where the question was also submitted to popular vote.

SLAVERY abolished, free homesteads provided, industries vastly developed, and new employments opened, the dollar of the workingman and bondholder exactly equalized, high wages maintained, and protection almost perfectly adjusted are some of the salient points in the labor record of the Republican party that no laborer can afford to forget or ignore.

THE entire argument of the majori and Means of the House of Congress on the wool tariff question is based upon the worn out fallacy that "the tariff is a tax." What will the "tax" be on British and other foreign wool products and South American and Australian wool when they have taken possession of our home markets and can grind our citizens under trust monopolies?

PRESIDENT HARRISON, says the Tionesta Lumber Co ... Phila. Press, has drawn general and Iniversal praise by the control of the Bering Sea issues, and, judging from the change in the position of the London Star and the utterances of J. T. Brennan, real estate and insurance broker that the lemark.

SECRETARY HARRITY may believe that Cleveland stands the best chance for a Presidential nomination nowin March-but just wait until he gets the Pennsylvania contingent to Chicago next June, and it will be found that his belief has undergone a radical change. He will be for the man who will help Harrity. The Secretary always carries four aces up his sleeve when the game of politics is being played. - Harrisburg Telegraph.

EVERYTHING has increased in value in this country except the Democratic party. An event which took place in April, 1865, sent up the value of American property, American charace be held at the Treasurer's Office, in Tigday to this that character has never gone down in the scale, and while the

WE see no reason why the present Congress should remain in session any longer. Let it pass the appropriation bills and go home. The cheap money schemes and tariff tinkering are condemned by the people, and it is demned by the people, and it is of Pennsylvania relating to the sale of precious little sympathy that old Cheese Parer Holman is getting in his conomical schemes. As that is about the Democratic stock in trade this and adjourn. The people would sppland a proceeding of that kind as their best effort.

In the theory of free trade the fundamental principle is that it is wisdom "to buy in the cheapest and sell in the the doctrine of seggregated selfishness, expressed in the saying "every fellow for himself and the devil take the hindmost." Protection takes a saying and resold.
