THERE is a call for help from the thousands of homeless flood sufferers io Missouri. Reports say that the distress is great. What shall be done?

THERE is a great deal of sloshing about to get somebody to run against President Harrison at Minneapolis. Statesmen are not butting against a stone wall this year.

AND here comes one of the Saulsburys, of Delaware, declaring that if Cleveland is nominated the electoral vote of Delaware will go to the Republican candidate. What has got into the Hard Shells?

THIS is the time of year when the meeting of two men on the streets, or a friendly meeting at dinner is heralded by the enterprising correspondents as a conference. "Conferences" for and against the renomination of President Harrison are particularly frequent-in the correspondent's mind. But it is important to remember that there are seven hundred odd delegates to the Minnespolis convention who have not attended these "conferences."

THE latest story from political headquarters, wherever that is, is to the effect that President Harrison's friends have purchased the Albany Evening Journal, anti-Harrison organ, and will place at its head Charles Emory Smith, of the Philadelphia

THERE are cranks the world over. Some of them live in Melbourne, and they are trying to have the death sentence of Deeming commuted to imprisonment for life. Fortunately the Governor of Victoria is made of pretty stern stuff, and he has refused to interfere, saying that Deeming must hang on the day fixed for his execution. The cranks are in despair, but they can at least pursue the old familiar programme of sending the murder-

er fruits and flowers and hand painted placques and home-made poetry, after the manner of the clanks in the United States.

THE question raised by the Democratic House is not whether men who served in the Indian wars and afterwards in the Confederate army shall be barred by the latter service from any pension for the former. The Democratic House insisted on pensioning the survivors of the southern Indian wars while leaving out those in arranged their bill to pension such

IT is estimated that the total appro-

pristions by the first session of the Fifty-second Congress will foot up \$532,804,679 81. The total appropriations of the first session of the Fifty first (or "billion dollar") Congress were \$463,398,510.79, and this included a pension deficiency of \$25, 321,907.35, left it by the previous Democratic Congress. The second session of the "Billion-Dollar" Con gress appropriated \$525,018,672.55. Therefore the first session of this Congress will exceed the first session of the last Congress by \$69,406,169.02, and the second session of the last Congress by \$7,786,007.26. These are the figures of Mr. Beltzhoover, a Democratic Congressman from Pennsylvania, and are verified by Mr.

Holman.

THE New York World says that Holman "has labored unceasingly among the Democratic members to persuade them of what would be the result of yielding too much to local importunities for appropriations." But the World does not tell how Holman labored personally before the Rivers and Harbors Committee to induce them to include in their bill an appropriation of \$13,000 for an embankment along the Miami River in Hol man's district. It is alleged that this is intended to prevent the obstruction of navigation in the Ohio by the formation of a bar opposite the mouth of the Miami. But Mr. Reed plainly showed that it was of no effect in this service, and was in reality designed to keep floods from the town of Lawrenceburg, in Holman's district, and do his duty chants louder than a dozen to keep the roadbeds of certain railroads "out of the wet." Your Uncle Holman can tell a hawk from a hand-saw.

UNCLE HOLMAN saved the United States Government \$600 on Monday. There was a resolution brought in to pay the funeral expenses of a man who had been in the employ of the the dailies were able to print in the folding-room of the House for twentyfive years, and to pay his widow six months' extra salary. This has been the custom of the House from time immemorial. Holman opposed the bill. It was touching to see the zeal and activity displayed by the good old man in snatching that \$600 from the dren by the first wife, and were regreedy hands of the grasping widow. markable from the fact that he ce-He succeeded, and the bill was killed.

IT will be a gratification to all good Republicans of the State to learn that Frank Willing Leach, whose splendid work heretofore has told in the rolling the scientific world. Those who have up of big majorities, has been again studied the case believe Deeming to placed at the head of the list of Secretaries of the State Central Committee, of which General Frank Reeder. of Northampton county, has been made Chairman. The choice of Mr. Leech was by unanimous wish of the State candidates, who, under the new

rules have the selection, and certainly they have made no mistake, but on the contrary have been very wise in the selection.

HERE is a frank admission. London exchange says: "One of the greatest arguments against the theory that the consumer pays the import duty is to be found in the fact that when a foreign nation increases the Tariff on a British product, the establishment charges as well as the wages on this side of the water are lowered, in order to give the manufacturer or merchant a chance to deal successfully grumbling from both."

THE hanging of Deeming Monday morning of this week in Australia, which owing to our westward position same morning's papers, is the last scene in the life of one of the most horrible monsters the civilized world has seen in these end of the century days. Deeming was a "Jack-the-Cementer." His known murders number six, two wives and four chilmented the bodies of his victims under the floor of the houses where they

were cut down. The hideous nature of his methods has caused Deeming to be an object of great interest to belong to the criminal type, but it is not all clear that he was morally irresponsible. The Australian authorities pronounced Deeming sans and the world is doubtless well rid of a wretch, who when arrested was waiting for his next victim.

THE great Republican National Convention will meet in Minneapolis one week from next Tuesday, June their selection. Leach is a terror to 7th. Who will be the Presidential the Democrats, who alone disapprove nominee is still a mooted question. The anti-Harrison people have for weeks and months been casting about for a candidate strong enough to defeat his re-nomination, but thus far have been unsuccessful, and it looks just now that the last resort will be Blaine, notwithstanding his refusal to run. The late reports say he has for the last time denied that he will allow his name to be used, and the opposition to Harrison has construed this as meaning that he will no longer resist the overwhelming desire to place him in nomination. The way it looks now with the change. If the consumer it will either be Blaine or Harrison, paid the duty there would be little and if the former does not again abcause for our exporter to gramble. solutely refuse his nomination will be But our manufacturers and work made with greatest enthusiasm. No people do make sacrifices to meet the re-nomination, and if Blaine will M'COLLUM BLOCK, - OIL CITY, PA extra duty, and we accordingly hear accept the Harrison people will not Office Hours—9 to 11 a, m.; 2 to 4 p. 7 to 9 p. m.
