Killed by the Cars.

Vincent Proctor, a former resident of Tionesta, son-in-law of James Burkett, was instantly killed on Sunday night last a short distance below Thompson station, by being struck by train 96, which passes here going north at 7:00 Daniel Butterfield, President Brigade p. m. The train men did not see him until nearly the entire train had passed over him, when he was found in a greatly mangled condition. Just how he happened to be in the way of the engine is not definitely known, but it is supposed he was lying or sitting on vors of the Brigade in the city at that the track. His remains were taken to Warren for burial.

Kellettville.

Mr. Orion Siggins of West Hickory was in town on Tuesday looking after his lumber interests here and at Pauther Rock. Win. Tobey has taken the contract of making and delivering about 60 thousand square ft. of hemlock timber to Pittsburg. He has let the making of the timber to Thomas Holliday, a competent jobber.

Frank Gillespie moved down out of the woods Friday. Frank has several hundred cords of bark to haul from Six-Mile to the tannery, and he is hustling it in in fine style, too.

School began here on Tuesday with a arge attendance. Miss Ella Ardery, who taught the upper room here last term, has charge of the

school at Newtown Mills. Chas. S. Andrews, the genial clerk at the Pioneer Store, has gone to attend college at Grove City.

Quite a considerable amount of cash ex changed hands here on the result of late fistic combat in the Crescent City. We were told considerable betting was done after the battle was fought.

W. A. Kribbs has his dwelling house about completed and will occupy the same shortly. Wm. Tobey has about 150,000 feet of

hemlock lumber rafted and ready for a rise in the creek. Mr. T. purchased the same from the Tionesta Lumber Co. Chas. Bauer of Newtown has a dwelling about completed on one of his lots lately purchased of Wm. Tobey. The house

will be occupied by Geo. Whitten as soon

as finished. The gas line has been removed from the head of the island to a place opposite Androws' store, where it will cross the creek. At the former crossing the ice did considerable damage to the line. While the Gas Co. is doing some all 'round repairing we would suggest that a little more gas in cold weather would strike the average con-

sumer as being more to his liking. Rev. Father McCabe of Crown, Clarion county, has been in Kellettville several days with a view to creeting a church edi-WILL WALKS.

The Keeley Reunion.

The reunion of Keeley graduates in Tionesta on Saturday was about as complete and pleasureable a success as could well be wished. When a child is born in the world the physician is present and gets about ten dollars for officiating at the important event. The editor heralds the advent of the stranger and gets a cursing for making a mistake as to sex or date of arrival. After awhile the same child becomes a man; the minister is called to perform the marriage ceremony, and the parson walks off with ten dollar bill in his pocket for his trouble. The editor is again called upon and chronicles this event and drawing on his imagination to make the bride and groom the best and most respectable people in the county. His only pay is to be asked for a few free sample copies of his paper to send to some absent friend. In time the once baby, once happy groom, but now a well advanced man, is brought down by death. Again the physician is called in and makes his bill; the undertaker is present and officiates at the funeral, and in time wants one hundred dollars for the last sad rites, where the editor is expected to complete the drama by holding up the deceased as a model gentleman, and who at the present is singing the song of the Redeemer around the throne of God in the New Jerusalem. The probabilities are at the same time that the baby, the groom, and the dead man, has been so infernally stingy that he stinted his wife and children, and had never contributed one cent to the support of his local paper.
