Blaine Again Very Sick.

On Sunday morning last ex Secretary Blaine experienced another serious relapse, and again his life for a time hung trembling in the balance. At times the heart's action was al most imperceptable to even the emi nent physicisms in attendance. This condition lasted till Monday when the distinguished patient again rallied, and became so much better that hope once more possessed those nearest and

desrest to him. Mr. Blaine, in his present condition, is apparently oblivious to those around him but he frequently arouses from the comatosestate, and although too weak physically to manifest any interest in the family, gives evidence of consciousness. Although the officials and other friends of the striken statesman who passed the house on their way down town did not ring the door bell, they almost invariably in quired of the newspaper reporters for the latest report from the doctor, and appeared much relieved at the an swer given.

In case of Mr. Blanne's death it is understood that the Cabinet and the Diplomatic Corps will observe a per iod of mourning the same as if he were still in official life. While there his been no agreement to this effect. nor even consultation upon the subject, it is known that the British Minister and the Secretary of Statwould give up their social engage ments, and their example would in all probability be followed.

Make the Change.

In his annual report to the Govern or the Secretary of the Commonwealth suggests some changes in the new ballot law which will meet with com mendation. The majority of them are for the facilitating of business in the State Department, but there is one that is meant for the general good, and it will no doubt be adopted as an amendment to the bill when amendments are in order. It is as follows:

"The manner of marking the ballot by the voter should be simplified by providing that one cross mark op posite the party name or appellation at the head of the list of candidates shall be considered as a vote for al the candidates of that party.

The Telegraph has mantained that the suggestion of Secretary Harrity. albeit not original with him, but the original intention of the framers of the bill, is the only proper way to mark the ballot. In the count of the ballots cust at the last election the method agreed upon of marking a cross opposite each group on the ticket was seen to have worked injury stitute the 400 of that city. HERE it is mid winter and typhus epidemic in New York. That city will have to do a good deal of cleaning up to keep clear of the cholera in the spring. And that the dread di sease will come to our doors is just acertain as fate. The authorities thought they had it stamped out in Hamburg but fresh cases turn up every day, and when warm weather sets in the number is certain to in crease at an alarming rate. The on ly preventive is to stop immigration, and Congress seems to be very slow to pass a bill to that effect.

It is announced from Kentucky that Secator Carlisle will accept a place in Cleveland's Cabinet. Mr. Carlisle is reported to have said, pre vious to leaving Washington for Ken tucky, that his going into the Cahinet depended upon the wishes of his wife, who would have the bandling of the meagre pittance paid her hos band as a Cabinet officer. Judging from the news from Kentucky Mrs. Caritals thinks her husband can af ford to take the place

Important to Old Soldiers.

In April 1868 an act was passed by the legislature of Pennsylvania authorizing the recording of soldier's discharges. The law reads as follows: "That the recorders of deeds in the several counties of this common wealth are hereby authorized and required to record all final discharges of commissioned and non-commissioned officers and privates upon applica tion being made to them by the hold ers of the same, for which the recorders shall be allowed the usual fee for recording, and that the recording of the same shall not be subject to the payment of the state tax." We understand the recording of these discharges will not cost more than fifty cents each, and by placing them on record thus, all inconveience from their loss will be avoided. Every old soldier should have his discharge recorded.

THE Memphis Commercial is anxous to rear a monument to Jeff Davis. It says :

And such trash as this is written in what is termed the New South! Heaven save the mark. There can he liltle hope for a State that deliber stely calls arrant treason "heroism," and styles the arch traitor himself a 'patriot' When things are given on their true names south of Mason and Dixon's line, then indeed, and not before, will a new era dawn for that section. The North is tired of the vaunting of trators and the arrogance of defeated rebels.

THE New York Press says that the desirable immigrant is the one who is worthy, industrious and educated. Of course. Let him come in and give him a welcome. But keep out the riff raff and rag tag from the European slums and prisons who drag crime and diserase to this country with their worthles-ness, laziness, ignorance and poverty.

"ROMEO," the big dog which made almost a natioal reputation in connection with the Johnstown flood, is dead at the age of 13 years. The animal was noticed extensively by the newspapers for his work as a res oner in the disaster mentioned, par ticularly for saving the life of Mrs. Kress, the wife of his master. American Cholera.

From the Daily Reveille, Whatcom, Wash "T. C. Burnett, the democratic candi fate for Sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which revived him until a physican arrived. That is precisely what the manufacturers of that medicine recommend for cholera Send for a physican but give their medicine until the physican arrives. For sale by Siggins & Nason.

The Use and Abuse of Whiskey.

The Use and Abuse of Whiskey.

This subject could be dwelt up n to a considerable length, and yet much would remain untold, but all agree that the use, the proper use of pure rye whiskey is an absolute necessity, especially so now, when nature insists upon being stimulated. All regular physicians prescribe rye whiskey, and justly claim that Klein's Silver age and Duquesne Whiskies are most reliable. They do this not only because they have tried them but because the leading hospitals use them—fauthen. the leading hospitals use them—find them the best stimulants in the world. Silver Age sells for \$1.50 and Duquesne for \$1.25 per full quart. For sale by all dealers and druggists. Ask for them or send to Ludwig Mayer, Oil City, Pa.
