Church and Sabbath School.

Presbyterian Sabbath School at 9:45 a. m.; M. E. Sabbath School at 10:30 a. m. Preaching in M. E. Church every Sabbath evening by Rev. Rankin.

LOCAL AND MISCELLANEOUS.

Oil market closed yesterday 60 1/2. This is George Washington's birthday.

G. W. Robinson had a serious sick spell during the past week, but is again able to be up.

The Democrat says that Ridgway is promised a new Free Methodist church the coming summer.

The Franklin News was fifteen years old last Saturday. Hale and beauty; handsome and sprightly; clean and spicy, is the News.

During the warm spell of last week the boys got their work in on the sucker industry, and a number of good strings were lifted.

Albert Keniston is gradually growing weaker, and there seems to be little or no hope left for his recovery, although he is making a brave fight.

Never be without it. Mr. Chas. Vischer, 44 Lincoln Ave., Springfield, O., writes: "Five doses of Dr. Bull's Cough Syrup cured me of a severe cough. I shall always keep it."

The blizzard of Sunday played havoc with a large number of rigs in the Lineville, Clarion county, field. Seven rigs were blown down in the vicinity of Anger Corners, says the Derrick.

Among the severely ill of the town during the past ten days were Mrs. A. M. Douth and Mrs. Dr. Nelson, both of whom are again much better, and hope to be around again in a few days.

The Marienville Express has changed hands, M. H. Shick, a practical printer, becoming the new editor, and J. A. Smith stepping down. Success to both the new and the retiring gentleman.

Attention is directed to the ad. of John A. Magee, in this issue. Mr. Magee is to well known too many of our Forest county readers to need introduction, and wherever known his name is a synonym for honesty and square dealing.

At the Presbyterian congregational meeting last Thursday evening the almost unanimous decision was reached to build the proposed annex to the church. The size of the edifice will be nearly doubled when this improvement is added.

The Postmaster General has given notice that the color of the special delivery stamp will be light orange hereafter, instead of dark blue, the design being the same. The change is made necessary to distinguish it from the one cent Columbian stamp.

Henry C. Bloss, editor of the Titusville Herald, died on the 15th inst. from a complication of stomach troubles and nervous affections, the result of overwork in his calling. He was in his 60th year. His death is a loss to journalism and to the community in which he lived.

Mercantile Appraiser, A. F. Lebeur has finished his round of the county and the result of his labors is found in this issue of the REPUBLICAN. Several new business establishments are to be found in the list as compared with that of last year.

The well on the Payne tract would have been in last Saturday had the drillers not met with a breakdown, which caused some delay. It was expected in last night, but we go to press too early this morning to report results and may have a gusher to announce next week. So mote it be.

According to the almanac, "spring begins" to-morrow, Feb. 21. It is the vernal equinox, when the days and nights are equal. Possibly the chirping of robins may not be generally heard, but don't forget that spring has sprung.—Franklin News.

To soon again, neighbor; just one month ahead of time. Still, the enterprise displayed in the endeavor to "scoop" the rest of us in making the announcement is characteristic as well as commendable.

Court convenes next Monday, and although the calendar of civil cases to be tried is shorter than for many years past, some of them are of a nature to claim the courts attention a good share of the week if brought to trial. The usual invitation to "call and see us" is extended to all our friends and patrons who happen in town at that time.

The Crawford county grand jury ignored the bill charging Samuel Ridgway, the proprietor of the sanitarium at Hydetown, with manslaughter. This is the case growing out of the death of Miss Austa Bidwell in the unfortunate fire in Mr. Ridgway's laboratory a few months ago. The result gives general satisfaction to the people acquainted with the facts.

Yesterday morning was another hummer for cold, mercury dropping from 10 to 15 degrees below zero. But this is not what it may be yet. On the 17th of March, 1885, the thermometer indicated 14 below zero, and three days later, March 20th, or first day of spring, it was 22 below, and in one or two favored localities in this county it went down to 26 degrees below zero. The ice on the river was from one to two feet thick, and still a-making. And that was a full month later than this date.

The Pennsylvania World's Fair Executive Committee has decided to dedicate the State building at Chicago on Saturday, April 29. Executive Commissioner Farquhar will present the building, and it will be formally received by Gov. Pattison. The Governor will hold a reception in the edifice after the ceremonies. Up to present writing no invitation to attend these interesting ceremonies has reached the office, and whether or not the affair will come off anyway we really can't tell.

Here is another chance for those Tidouaters who are always biting at any scheme from making counterfeit money to buying twenty-five cent town lots in Florida, to secure another chapter on "experience." An exchange says that "a fellow is now traveling through the country trying to swindle parties with a contract for wire fences. He offers a few enough wire to fence a 10-acre field if the party will sign a contract to take the agency for the wire. The contract is where the swindle comes in, for if read closely it turns out to be a promissory note for \$450 after a few words are erased with oxalic acid."

Scarcely any one, not even the oldest inhabitant, will lay claim to ever having witnessed so terrific a storm in this section as that which swooped down upon us shortly after five o'clock last Sabbath evening. Snow had been falling a greater portion of the day, but at the hour indicated, there came a regular whirlwind, and the blinding, swirling, drifting snow darkened the air, making it impossible to distinguish any object ten feet away. This lasted perhaps twenty minutes, when the "clouds rolled by," and at seven o'clock the sky was clear and stars were shining with unusual brilliancy. Mark it down as the worst we've ever had in this county.

The bill introduced in the Legislature by Senator Logan, of Crawford county, changing the manner of distributing the \$5,000,000 school fund, which makes the basis of the fund's distribution the number of schools in the State instead of the number of taxables in a district, will, it is believed, be fought fiercely by the city members. The measure would knock off about \$65,000 of Allegheny county's share and cut down Philadelphia's portion over \$470,000. The counties outside will be largely benefited by the bill. What Forest county's additional share would be we have not ascertained, but on the principle that it would be something we are thoroughly in favor of the new plan.

There is quite an interesting case before the Warren court, and one that will attract considerable attention from the fact that on the final decision rests a law point of pretty general importance to people living within limits of natural gas belts. It is in the case of W. W. Hague et al. vs. L. R. Freeman et al. The plaintiffs seek to restrain the defendants from allowing gas to escape from a well on the defendants property. The defendants some time ago drilled a well close to property of the plaintiffs, in Limestone township, and struck gas in large quantities. For some reason, the defendants allowed the gas to escape. The well was closed by the plaintiffs, but at once reopened by defendants. An injunction was then served to compel the closing of the well, and the argument upon the bill in equity is attracting considerable attention in legal circles.

The attention of baseball players who receive wounds of one kind or another every day, from bat or ball, is directed to the fact that Salvation Oil is the best application in use for cure of cuts, bruises, and sprains. 25 cents.

Death of Henry Kiser.

Henry Kiser was born in Hanover, Germany, Feb. 23, 1835, and died at his residence, German Hill, Forest county, Pa., Feb. 21, 1893, and therefore would have been 58 years of age had he lived till to-morrow.

In 1846 he came to America with his mother and step-father, when but ten years of age. For a number of years his parents resided in Pittsburgh, afterward joining the settlers who had already established themselves in this neighborhood. In 1857 he was joined in marriage with Martha, daughter of Nicholas and Anna Mathe, and to them ten children were born, nine of whom, three sons and six daughters, with the wife, survive him. The children are Edward, Mrs. Kate Puffenberger, Mrs. Mary Young, Mrs. Anna Smith, Eva, Emma, Harvey, Florence, and Ray.

Upward of a year ago Mr. Kiser suffered a severe attack of grip, which left him with heart trouble, and while he endeavored to place himself under the treatment of some of the best medical skill, he was told that his case was hopeless. During the past four or five months he was confined to his room, and though at times his sufferings were very great, he bore them without murmuring, and when the end came he was perfectly resigned to go, and died with all the hope and fortitude of a true Christian. He was from boyhood a consistent member of the Lutheran church.

In the death of Henry Kiser the community has sustained the loss of one of its very best citizens in all respects. By nature he was the kindest and best hearted of men. None knew him but to respect and admire him as a man of integrity, honesty and industry, while his genial and whole-souled manner made him especially popular with all his acquaintances, who, next to his family and immediate relatives, will miss and mourn him as they would none other. To the bereaved wife and children the sympathy of a whole community goes out in heartfelt tenderness in the loss of an affectionate husband and kind and indulgent father.

Funeral services will be conducted at the late residence of the deceased at 1:00 o'clock to-morrow, Thursday, and at the German Hill church at 2:00 o'clock p. m.

Borough and Township Elections.

The election in the borough passed off without any particular excitement, and the vote was about the usual size at a borough election—109. The Republican ticket was elected with the exception of Messrs. J. T. Brennan for Council, and J. R. Clark for Collector, who were tied by S. H. Haslet and J. W. Landers, respectively. The balance of the ticket elected is as follows: Burgess, C. R. Davis; Council, Joseph Clark; High Constable, W. L. Hunter; Judge of Elections, R. B. Crawford; Inspectors, H. O. Davis, J. W. Stroup; Overseer of the Poor, L. J. Hopkins; School Directors, J. E. Wenk, George Holeman; Auditors, Wm. G. Morrow, Charles Thompson; Constable, S. S. Canfield.

TIONESTA TOWNSHIP.

In the Township the following ticket was elected, there being no opposition: Judge of Elections, Ase Lovejoy; inspectors, A. W. Stroup, John Wiles; road commissioner, John Wolf; collector, Henry Rhodes; overseer of the poor, Ernest Sibbe; school directors, George Swab, Henry Wolf; clerk, J. W. Mong; treasurer, Wm. Lawrence; auditors, J. B. Eden, Chas. Warden; constable, J. B. Eden; assessor, J. H. Wentworth.

NOTICE TO GRAND JURORS.

All persons summoned to attend as Grand Jurors for February Term of Court (Monday, February 27, 1893.) are hereby notified not to attend, as their services will not be required.

East Hickory.

Derrick correspondence.] Siggins & Collins hauled in a very large stick of timber on Thursday. It is 100 feet long and contains 250 cubic feet. Jud Weller, of Duncansport, was visiting with Dr. Weber a few days last week. He will locate in Denver in the near future. Mrs. Metzger was visiting friends on German Hill for a few days. A. B. Hoyt departed for Detroit, Mich., last week. His family will follow in a month. A sled load of young folks went to school on Saturday evening to attend a school entertainment. John Young after finishing a large timber job on Minister, returned to West Hickory. The log railroad of Wheeler & Dusenbury has been repaired and they are making regular trips with the train. Tech Burnett passed through here on his way to Tidouate from Ross Run, where he was inspecting oak timber for the Tidouate chair factory.

Drunkness, or the Liquor Habit, positively cured by administering Dr. Haines' Golden Specific. It is manufactured as a powder, which can be given in a glass of beer, a cup of coffee or tea, or in food, without the knowledge of the patient. It is absolutely harmless, and will effect a permanent and speedy cure, without the patient's being made drunk or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect cure has followed. It is much superior to any placebo on account of its pain-relieving qualities. It used in time it will prevent pneumonia. 50 cent bottles at Siggins & Nason's.

NEWS NOTES.

The Pennsylvania legislature will go to Chicago on May 17th to help dedicate the state buildings. It would be well to be on the lookout for a counterfeit dollar. It is of the 1890 issue and is of about the same weight and has a good ring, but is somewhat larger than a good one.

Gov. McKinley has honored the requisition papers of Gov. Pattison calling for the delivery of George Scott, of Warren, Pa., to the Sheriff of that county. Geo. Scott is the legless horse-thief who escaped through the "grub-hole" in the Warren county jail, but was finally captured in Cleveland.

The latest game being played on the farmers is the telegram racket. A man drives up to a farmer in great haste and gives him a telegram announcing the serious illness of some relative. On the face of the envelope the charges are marked \$3 and \$5. The charges are paid and the farmer takes the first train for the home of the relative and finds on his arrival there that he has been duped.

The jury in the case against Hugh O'Donnell for murder in connection with the Homestead riots, after being out all last Friday night, brought in a verdict of not guilty on Saturday morning. O'Donnell's prominence in the Homestead strike gave to his trial unusual interest, and it is scarcely likely that any further efforts will be made to convict others; at least this will be the last trial until the March term of court.

The "white city," as the World's Fair grounds and buildings are termed, has the equipment of a modern city. It has 25 miles of water mains, 291 hydrants, 3 ladder trucks, 4 chemical engines, a steam fire engine, a water tower, 40 horse carts, 29,750 feet of hose, 1,050 hand fire extinguishers, 2,500 fire pails, a steam fire boat, 65 firemen, 150 alarm boxes, 150 patrol telephones, 500 gongs, complete electric light and sewerage systems, etc.

Pennsylvania generally will be surprised at the magnitude of the silk industry of the State, as shown by the census report just distributed. There are in the State 65 silk manufacturing establishments, employing 9,522 people, and paying wages \$3,000,000. The silk annually produced is valued at nearly \$20,000,000. This industry, although small in comparison with our magnificent coal and iron industries, is no mean thing, and is constantly growing.

That New Year's greeting of the San Francisco Examiner is good any time of the year. "Let us," it said "make this the happiest year in our National history. In society more simplicity, less show in use of money; more extravagance in benevolence. In politics more independence, less partisanship; in church more practical religion, less controversial theology; in home more love, less fashion; in our personal lives more hope, faith, charity, less cynicism, shams and selfishness."

There is a demand in some quarters in this State for the repeal of the oleomargarine law. It is argued that there is no reason why it should not be sold, if sold by its right name, just the same as lard, cheese or any other article of merchandise. It was thought a year or two since that the manufacture of oleo kept down the price of butter, but as demonstrated this winter it evidently does not effect the price of the latter article. Good butter will always find a place in the market, at such prices as the supply regulates. On the other hand, oleo is preferable to some of the poorer grades of butter that are worked off in times of scarcity.—Franklin News.

It would probably be difficult to tell why Clearfield county was named "Clearfield." When it was organized in 1844, out of parts of Lycoming and Northumberland counties, it was almost an unbroken forest, covered with one of the noblest stretches of pine woods to be found in the State. The cleared fields in it were few and far between. They were as scarce as the rooks at Mr. Copperfield's rookery. But in eighty-nine years the country has succeeded in adapting itself to its name. The magnificent pine trees have nearly all been cut down. Late Clearfield papers tell of four rafts of pine, some of the sticks 80 to 90 feet long, that are ready to be sent down the river as something extraordinary. The sturdy rafterman who used to find a spring job in piloting his spars down the river to serve as masts for Baltimore clippers will soon find their occupation gone.—Phila Record.

Despite all the talk about the exhaustion of the country's timber supply at the present prodigious rate of forest destruction, expert estimate of the quantity of lumber still in standing trees show that we are yet a great distance from a shortage. It appears that Washington alone has 410,000,000 feet of standing timber and neighboring States west of the Rockies 438,000,000 feet, making a total sufficient, a late writer expresses it, to girdle the earth with a belt of dense forest a mile wide three times round, with an additional lap from Puget Sound to the Atlantic. In addition there is the supply of the Southern and Eastern States, aggregating 353,000,000 feet. When these sources of supply give out we can draw on the 67,000,000,000 feet, the minimum quantity estimated to be available in Alaska. Nor need we stop here. Before our present home supply is exhausted Canada will be part of the Union, and we can begin on the 1,275,000,000 feet of standing untouched on the 85,000,000 acres of available timber area of British Columbia.

For pains in the chest there is nothing better than a flannel cloth saturated with Chamberlain's Pain Balm and bound on over the spot of pain. It will produce a counter irritation without blistering, and is not so disagreeable as mustard; in fact is much superior to any placebo on account of its pain-relieving qualities. It used in time it will prevent pneumonia. 50 cent bottles at Siggins & Nason's.

Some Elevations.

Mr. E. M. Payne, of New York, who was here last week to watch the finishing of his well on John's Run, was accompanied to the scene of operations by S. D. Irwin Esq., and together they took some observations of the elevations with a barometer, with the following results:

Tionesta creek bridge is 1050 feet above the level of the ocean. Heights above the creek bridge: Summit of creek hill on Tylersburg road 550 feet. At highest point on the road near D. Black's, 580 feet. The Payne well on old "Keoway tract," 370 feet. At forks of run below derrick, 130 feet. At crossing of John's Run at bridge on the Dingman log road, 60 feet. At mouth of John's Run, 15 feet.

Take Notice.

I am going east about March 15th to purchase my Spring and Summer Stock. Parties indebted to me will kindly call or send me what they owe. Respectfully,

DAVID MINTZ.

The success of Chamberlain's Cough Remedy in effecting a speedy cure of coughs, croup and whooping cough has brought it into great demand. Messrs. Pontius & Son, of Cameron, Ohio, say that it has gained a reputation second to none in that vicinity. Jas. M. Queen, of Johnstown, Pa., says it is the best he ever used. "Chamberlain's Cough Remedy is perfectly reliable. I have always warranted it and it never failed to give the most perfect satisfaction." 50 cent bottles for sale by Siggins & Nason.

"In buying a cough medicine for children," says H. A. Walker, a prominent druggist of Ogden, Utah, "never be afraid to buy Chamberlain's Cough Remedy. There is no danger in using it and relief is always sure to follow. I particularly recommend Chamberlain's because I have found it to be safe and reliable. It is intended especially for colds, croup and whooping cough." 50 cent bottles for sale by Siggins & Nason.

The Use and Abuse of Whiskey.

This subject could be dwelt upon to a considerable length, and yet much would remain untold, but all agree that the use, the proper use of pure grain whiskey, is an absolute necessity, especially so now, when nature insists upon being stimulated. All regular physicians prescribe whiskey, and justly claim it as the Silver Age and Duquesne Whiskies are most reliable. They do this not only because they have tried them but because the leading hospitals use them—find them the best stimulants in the world. Silver Age sells for \$1.50 and Duquesne for \$1.25 per full quart. For sale by all dealers and druggists. Ask for them or send to Ludwig Mayer, Oil City, Pa.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition: If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle free and your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at Siggins and Nason's Drug Store. Large size 50c. and \$1.00. 2

A Lender.

Since it's first introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal remedies and preparations—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine of all ailments of Stomach, Liver or Kidneys. It will cure Biliousness, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Siggins and Nason.

BUCKLEN'S ARNICA SALVE.
