FREE TEXT BOOKS NOW.

The Governor has signed the Farr free text book bill, and the mere announcement of the fact will give joy to the people of this State who believe in a liberal education—using the word liberal in its broadest sense. That the people may know what this bill provides for the Telegraph prints its provisions entire, as follows:

"School directors or controllers shall purchase text books and other necessary school supplies for use in public schools of their respective school districts as such new text books and supplies are required in addition to those at present in use in the hands of pupils or owned by the school districts, out of the school fund of the district, and when so procured the necessary books and school supplies shall be furnished free of cost for use in the schools of said district subject to the orders of the directors or controllers thereof, whose duty it shall be to provide for the return of and for the safe keeping and care of the books, which shall be returned at the close of the annual school term in each year or as the board may direct."

It is a good bill. It was befriended by everybody except the Book trust, which body of lobbyists against it the Telegraph is proud to say it drove from the halls of the Legislature, aided by such good men as Smith, of Bedford; Farr of Lackawanna, and others who believed that the bill ought to become a law in the interest of the education of the masses.

The children of the poor can now go to school assured that all the necessary books and school supplies will be furnished them free, and they will be on the same footing as the scholars whose parents could well afford to purchase them books and supplies. It is a fact that thousands of children in Pennsylvania have been kept out of school because their parents could not afford to buy them books. That sort of thing ended yesterday when Governor Pattison signed the bill. We are glad to note it. It opens up a new era in the education of Pennsylvania youth, and it imposes a condition of affairs that will be of vast benefit to the Commonwealth.—Harrisburg Telegraph.

The Louisville Courier Journal, which accurately reflects the sentiments of the Democratic masses in the South and Southwest, is serving notice that its party is a smasher, and proposes to make a record as a Destroying Angel during the next four years. It says:

"It really appears that the Republican journals have forgotten that there was an election last November, which gave to the Democratic party control of the Government. This party is antagonistic to the late administration on every great issue. It will as speedily as possible not 'conserve' but destroy the fabric, foreign and domestic, constructed with so much labor by the Harrison administration."

Well, that's about all the Democratic party can do—destroy. It never built up anything for the good of the country. Since its birth it has been the party of destruction, and it is never so happy as when tearing down the good work of others. The "fabric foreign and domestic," which, made by Republicans, has been of so

much honor and profit to the country, will be destroyed by the rebel brigadier and his Northern allies, and the people will have to stand it.

THE talk of extending the Legislative session another week from June 1st is again revived. There is no necessity for the extra week, if the the House will stop talking and get down to hard work, but if there is to be the interminable flow of gab that characterized the session up to the present it will be necessary to have more than a week's extension if all the appropriation bills are to be considered. There are many really meritorious bills on the calendar that deserve to pass, and the House will be inexcusably negligent if it shall permit these bills to die. It is not fair to the people to kill their time with talk. Action is what is wanted—demanded, in fact—and not so much posing and talking for effect.—Harrisburg Telegraph.

THE condition of things in Germany is such that the old man of iron and blood, Bismarck, may have to be called to the rescue. William and the Count again pulling together, but politics and grave conditions in statecraft often throw bitter enemies together.

SECRETARY LAMONT is to halt the vandals at Gettysburg by appointing a commission to take charge of marking the lines of battle and otherwise improving the glorious old spot. This will be followed by a condemnation of the ground by the Government and a purchase, and that will settle matters for all time to come.

MR. CLEVELAND is reported as being mad clean through at the Democrats who questioned his Democracy when he was before the Chicago convention for a third nomination. Recently the editor of a Georgia paper applied for the position of Consul General to Berlin, and his claims have been presented with great vigor by Speaker Crisp. Hoke Smith, who opposed him, informed the President that the applicant had questioned his Democracy at Chicago, and that settled the Georgia editor. Cleveland in a rage is reported to have said, "I will not appoint to office any man who calls me a mugwump or in any way doubts my Democracy." This will be warning to the Pennsylvania Democrats who opposed the out-and-out Cleveland delegates, and serves notice on them that Mr. Cleveland will carefully scan his list and refuse pie to all who did not boom him through thick and thin. It is also notice to David Hill who, with fine irony aimed at Cleveland, said "I'm a Democrat."

It will cost \$10,000,000 to deport the Chinese who refuse to register, and \$25,000 has been appropriated for that purpose. A bigger fool law was never passed. As a sequel to it we shall see the missionaries and other Americans in China abused and ill-treated by the natives, their mission homes burned, and finally the entire American colony in that country expelled. It is sad to contemplate the trouble that must certainly come, and to think that one silly act of Congress, passed by unthinking and selfish political demagogues, brought it upon the two countries. A greater danger lies behind all of this, and that is the possibility of a war with China. In that event the Pacific slope would be ravaged and the United States suffer great loss. We should be the victors in the end, but at what a cost!—Harrisburg Telegraph.

THE World's Fair directors have decided to abrogate their contract with Congress, return the \$2,500,000 to the Government, and open the gates on Sunday. They took the only course left open to them, but before the gates close for good they will be sorry for it.

THE individual exhibitors at the World's Fair who believe in a Christian Sabbath are beginning to withdraw their exhibits since the announcement that the gates will be open on Sunday. This is a species of retaliation that was not expected, and consequently it will be exceedingly unwelcome to the management. The Christian people of this land should boycott the fair in every way. When its managers deliberately insult the people who think Sunday ought to be respected they deserve to suffer. The fair will be a failure, there will be a big deficit in the finances, and they will have nobody to blame but themselves. It is humiliating to every true American.

While Mr. T. J. Richey, of Altona, Mo., was traveling in Kansas he was taken violently ill with cholera morbus. He called at a drug to get some medicine and the druggist recommended Chamberlain's Colic, Cholera, and Diarrhoea Remedy so highly he concluded to try it. The result was immediate relief, and a few doses cured him completely. It is made for bowel complaint and nothing else. It never fails. For sale by Siggins & Nason.

THRASHERMEN,

SAWMILL MEN,

AND USERS OF

Boilers and Engines

Special attention is called to the Low Down Champion Threshing Machine, which is only 5 feet 4 inches from the floor to the top of deck. It is the lightest machine made, weighing 1,000 to 1,500 pounds less than any of the same size separators in the market. Size 24 to 33 inch cylinder; capacity, 75 to 200 bushels of oats per hour; 6 to 12 horse power.

ALSO THE

New Huber Thresher

Six to twelve horse power. One belt runs the entire machine; the tension on every pulley is just the same; one lighter is all that is required. Our claims are: The nearest perfect separator; the greatest capacity for saving the grain; the best cleaner for all kinds of grain.

THE

CYCLONE DUST COLLECTOR

Is a great invention, removing all dust and it can be attached to any separator.
