Republicans, Attend the Primaries.

Republicans should keep in mind the fact that next Saturday afternoon the Republican Primary election takes place in this county, and all should suit their business to the occasion and be on hand to assist in making the ticket for the fall campaign. It is not only the privilege but the duty of every Republican to attend the Primaries and cast his ballot for the candidate of his choice, and none should put themselves in the attitude of stay-at-homes, and then complain because certain persons were or were not nominated. We hope to see a good turnout in all the townships; it always gives better satisfaction, and indicates a healthy condition of the party. Let us have a full and fair expression of the Republican voters. No one can then complain.

A Frightful Calamity.

The old Ford's Theatre building at the National Capital, in which President Lincoln was assassinated, collapsed on Friday morning last. Over 400 Government clerks were in the building at the time. The building, which had been repeatedly condemned as unsafe, had been used for a number of years as part of the office of the Surgeon General of the Army. The building stood on Tenth street, Northwest, between E and F streets, and not far from Pennsylvania avenue. An excavation for an electric light plant was being made in the cellar of the structure, a three-story affair, and according to the best information obtainable the workmen that morning had dug beneath the foundation supports in the front of the building, weakening them to such an extent that the walls gave way before they could be jacked.

Upward of twenty-five dead bodies have thus far been taken from the ruins, and many scores of wounded, many more or less seriously. There were few Pennsylvanians in this department of the government service, hence the records show but few names among the dead and injured. A thorough investigation will be made as to the cause of and responsibility for the terrible calamity.

The Democratic tariff tinkers are demanding a tax on tea and coffee. This is one of the "benefits" the party promised to give the American workingman. Another will be lower wages.

HURRAH for William McKinley! The Buckeye Republicans renominated him for Governor last week, and they are going to re-elect him. The name of McKinley is one to conjure by, and the Republicans of Ohio are to be congratulated on securing his consent to again be a candidate. By-the-way, the gallant Major stands in great danger of Presidential lightning in '96.

We don't hear so much crowing on the Democratic back seats about the Republican party being dead since that Ohio convention that nominated William McKinley for Governor. The Republican party is the liveliest old corpse outside of a grave.

OUR own Senator Hall has won the prize after a hard and well fought fight. The news of his appointment as U. S. District Attorney for the western district of Pennsylvania, was made public yesterday. This will leave a vacancy in the Senatorial office, but as the legislature does not meet again for two years there will be no need of a special election.

THE Republican Legislature placed a good many appointments in the Governor's hands, and the Governor is filling the new offices as fast as he can. It will please the good Democrats of the State to know that the new Dairy and Food Commissioner, Eastburn Reeder, is a blooming moggwump, who belongs to any and all parties just as it suits him. Since his appointment, however, he may become permanently attached to the Democratic party—at least so long as his commission lasts. You never can tell when a moggwump is going to fall off the fence or climb up again on the top rail.

SIXTY deaths from cholera have occurred at Mecca, where the disease is epidemic. It is only a question of time when the disease will spread all over Europe unless something is done. The summer is just beginning and we are confronted with a very serious situation. There can be no question of the fact that the disease is bound to spread to this country. With all of our precaution last year there were several deaths from cholera in New York city, and with all our precaution we cannot prevent it from getting into this country this year unless immigration is not only restricted but prevented entirely. But in the meantime the people can adopt means that will find them prepared to fight the disease when it comes. Cleanliness and a liberal use of disinfectants will do much to ward off the disease.

THE accident at Washington last Friday by which many were killed and wounded by the collapse of the building used as the Government Medical Institute was one of those horrible affairs that could have been averted. Long ago the building was condemned as unsafe and weak, but those who should have made it their business to at once remove the department from the rickety old building did nothing whatever. A terrible responsibility rests on somebody for this accident. That it could have been prevented all the records show. That somebody neglected a plain duty is undoubtedly true. There should be a most rigid investigation. It is a singular coincidence that this old building in which President Lincoln met death at the hands of Wilkes Booth should collapse on the day that Booth's famous brother Edwin was buried.
