NOW FOR THE FOURTH.

Don't forget that Tionesta will celebrate on the Fourth with lots of burrah and much fun. The morning salute will wake the nat'ves, and the Hoodlum parade will make 'em laugh fit to kill. The civic parade will take in the principal streets, and

the demonstrations at the court house grounds will be well worth listening The afternoon events will be crowded with fun and amusement for old and young, while the balloon ascensions and dance in the evening will come off according to program, in which good music will figure as one of the main stays. The silver cornet band, and the Beaver Vallley drum corps will keep things lively throughout the day and evening, and everything is expected to go off in

> real old fashioned jolly style. Come and enjoy yourself.

Hicks on July Weather.

Prophet Hicks predicts pleasant summer days for the most part at the openining of July. By the 4th, a warm wave will be well defined on the western side of the country, and storms will start toward the east. From the 4th to the 7th, all the phenomena of a regular storm period may be expected from all points, as

they march in regular order from West to East. The 10th and 11th are reactionary days, at which time it will grow very warm, and if active storms do not appear, the warmth will increase past the new moon on the 13th, and culminate in heavy storms on and about the 16th which is the central day of the next storm period. About the 22d and 23d, growing warmth, with all the changes that precede and attend a return to

storminess will appear. Bluster, with threatening clouds and local rains, may be expected at this and all meeting services of this Coference July periods, but we think there will be a general lack of rain. The last period for July runs from the 26th to the 30th, the crisis falling conincident with the full moon on the 28th. About this time much violent disturbance may be looked for. We may reasonably expect a respite from summer heat at the close of the last July storms.

B., was run into off Tripoli by the British battleship Camper-dowu, also belonging to the Mediterrane-an squadron, and under the command of Captain Charles Johnstone. The Victoria had an enormous hole made in her side, through which the water poured in tor-rents. The immense hull of the Victoria at once began to settle, and before those on board of her could cast loose their small boats she went to the boltom carry-ing down with her nearly all on board. Some of the officers and crew managed to get out of the suction caused by the sinking vessel and were rascued rying passengers) No. 60 Way Freight (car) passengers to Tionesta).
