Some little sidewalk patching has been done in the past few days, but a wholesale slaughter of the old and decrepit walks should be inaugurated, and a replacement by new ones begun at once. There is too much patch-work allowed and the worst of it is that those best able to build new walks are permitted to impose on the public the most. Why is it?

Walter Hilands, who left this place when a boy of 5 years, and with others of the family, gave the town a visit last week, being accompanied by his wife and child. Walter is a brother of Mrs. D. W. Clark, and of W. A. Hilands, whom he had not seen for nearly 25 years. He is now located in Wyoming, where he is interested in a large sheep ranch.

An impression that is general, and was circulated derisively, no doubt, is that the country publisher has no money. This is a mistake. They have more money than some people have, but the great trouble is they are unable to collect it. It is generally scattered around the country in the pockets of from one to five thousand people.—Falls Creek Herald.

H. C. Gauss, who for the past four years has so ably presided over the editorial department of the Derriek, has severed his connection with that paper to build up a paper near his old home at Waltham, Mass. The Derriek reluctantly parts with Mr. Gauss, as do all who have become acquainted with him since his residence in Oil City. The best wishes of a host of friends go with him to his new field of labor.

Judge Archibald, of Scranton, paid our town a brief visit on Saturday last. Sandstrom, the Republican incumbent who has held the office for several years. There were no less than a dozen applicants for this plum, mostly from Warren borough.

Under the law a person refusing to pay school taxes due by him and having no property out of which the taxes can be collected may be committed to jail by the Collector. A certain individual in this city learned this to-day, and after satisfying himself that he must either pay or go down to the bastille forthwith, concluded to borrow the money and pay.—Franklin News.

It is now about the time of year for the alarmists, who may suffer more or less severe pains, in various parts of their anatomy, from the effects of too liberal a consumption of green truck, to set on foot rumors to the effect that they have been attacked with cholera. In other words, a good many people will imagine they have the cholera when they have the belly-ache.—Blizzard.

The new magistrates and constables' fee bill passed by the late Legislature meets objections in Blair county and probably in other localities. The County Commissioners of Blair have refused to pay the claims of Justice of the Peace and Constables on the ground that the Constitution prohibits any increase of the salary or emoluments of any public officer after his election or appointment.—Venango Spectator.

Mrs. Amsler, wife of C. W. Amsler, one of Marienville's prominent citizens, died in Cleveland, Ohio, July 3d, 1893, aged 45 years. The deceased had been in ill health for upward of two years, the result of a severe attack of grip, and at the time of her death was receiving treatment at one of the best hospitals in the city of Cleveland. She was an exemplary christian woman, a faithful loving wife, and very highly esteemed by all who knew her. The stricken husband has the sincere sympathy of all his acquaintance in his irremediable loss.

The Oil City district camp meeting of the Free Methodist church will be held at Youngville, Warren county, beginning August 9th and continuing one week. An excellent grove has been secured for the occasion which will have all the conveniences of natural gas, good water, etc., and the meeting bids fair to be largely attended. Quite a large number from this place and vicinity have already engaged tents for the entire week. Those wishing information as to the use of tents, etc., should address Chairman Walter A. Sellow, Oil City, Pa.

The sad intelligence of the death of Mr. Calvin, father of Mrs. T. F. Ritchey, reached the family on Sabbath evening last. The death was sudden and unexpected, caused by heart trouble. Mr. and Mrs. Calvin, had made their home with their daughters' family for the past seven or eight months, taking their departure only a few days ago, to visit other friends, in Reynoldsville, Jefferson county, where Mr. Calvin's death occurred on Sunday. The deceased was upward of 80 years of age, and during his stay in Tionesta had gained a large circle of friends who will regret to learn of his sudden demise.

Half the reported cases of "poisoning" from ice cream, cheese, etc., are the result of a mad mixture of stuff in the human stomach that would kill a horse and sicken a hog, says the "veterinary" editor of the Franklin News. People eat fruit and drink malt liquor at the same meal; or they pile in a mixture of fish, milk and watermelons, and then wonder at any interior disturbance. Recently a score or more of people at a picnic in Connecticut ate liberally of lobsters, clams and blue-fish, and topped off with unostentatious quantities of ice-cream, and soon afterward becoming ill, were quite sure they were poisoned.

On the 12th inst., death came to the relief of Mr. McAninch, father of Rev. J. V. McAninch, at the family homestead in Manhattan, Kansas, the funeral taking place on the 14th. The deceased had been troubled for some years with heart disease, and during his last illness was a great sufferer. He had just passed the 71st year of his age. May 16th, last, was the 50th anniversary of his marriage, the wife with several children surviving him. Rev. McAninch, who has been at the bedside of his father during the past six weeks, will remain with his mother till the 27th, when he will return and be with his congregation on the 30th inst.

Jacob Mercillotti, one of the pioneer citizens of Forest county, died at his home near Marienville, July 1st, 1893. He was born February 1st, 1803, and had therefore passed his 90th year. In 1850 he came with his family to this section from Philadelphia, and settled in the then wilderness of Jenks township, cleared up a good farm, and continued to reside there until his death. During all these years he bore a good record as an honest, upright citizen, holding many offices of trust in his township, and serving his county as Commissioner from January 1871 to January 1874, with credit to himself and honor to the people who elected him. His funeral was very largely attended, especially by the older citizens of his community, by whom he was held in high esteem.

A fellow who couldn't spare a dollar for a newspaper a year sent fifty 2-cent stamps to a down-east Yankee to know how to raise bees. He got an answer "to take hold of the tops and pull."

Even the sand banks are beginning to fail. The Speer White Sand company, of Pittsburg, operating sand works in Huntington, Westmorland and Fayette counties, has made an assignment.

Robert Bonner has decided to send Maud S. for the record late in the fall. He believes "the queen" can lower Nanny Hank's colors hitched to a bicycle sulky. The famous trotter will be put into Marvin's hands for training.

It is stated on good authority that for twenty-five years there has not been a single failure of the grape crop at North East. This is certainly a remarkable record of prosperity. This year promises to be no exception to the rule.

Hall and family, Levi Smith and family, Captain N. Moore, of Ohio, Ed. Bell, of Olean, Frank Mers, of Jamestown, N. Y., W. P. Weston, of

Beware of a man who wants you to strike an enemy for him. He will run away when you get in trouble. He's the man who is always wanting the local newspapers to roast somebody for his benefit, but don't want his name mentioned or be known in the matter. The editor is good enough for that. In fact he thinks that is just what he is here for.—Ex.

The attention of property owners and purchasers of property is called to the act of assembly approved by Governor Pattison May 10, 1893, relating to the recording of deeds. By this measure it is made obligatory upon purchasers to record the deed within ninety days from the date of acknowledgment of the same. A failure to record the deed makes the omission fraudulent and invalidates all subsequent sales.

An exchange says a swindle is being worked in the neighboring towns, and strange to say, it has found many victims. The swindler is a man gotten up like a tramp, who calls at the door for something to eat. Whether accommodated or refused, just as he leaves he pretends to pick up a good ring, from the ground. He makes inquiry for its ownership and says it must be a valuable ring as it is marked 15k and is handsomely engraved. No one about the house knows anything about it, and then he offers to sell it. In two or three instances he has succeeded in getting as high as three dollars, but he has disposed of several for one dollar each.

A very peculiar accident happened near Fryburg last Saturday afternoon. During the heavy rain and electrical storm lightning struck a tree on Patrick Sheridan's farm, and with a serpent like movement, ran along the ground until it reached the pipe line of the Clarion and Tylersburg gas company. For a few moments there was a brilliant stationary electrical display. The lightning then ran along the pipe until it reached what is known as the "saddle," which exploded with a loud report. The fire poured from the open like a meteoric shower, and shot about eagerly seeking other victims. A prompt alarm was sent out, and the direction of Superintendent George Banner, who, fortunately, was in the neighborhood at the time, the damage was soon repaired and a big loss averted.—Clarion Democrat.

A contemporary wants to know if you have seen the comet yet, and says if you have not already done so, you may find it according to the following plans and specifications: "It hangs in the northwest just above the horizon and can be seen between 8 and 9 o'clock each evening. It may be found by tracing a line through the star forming the corner of the bowl of the great dipper nearest the hands then down through the star at the lower opposite corner. continue this line downward nearly double the distance already covered, and two stars of the Ursa Major will be met. Just below there about three degrees and a little to the west may be found the comet. It has a bright nucleus and a beautiful tail that grows out like a fan to three degrees in width. You can see it with the naked eye if you are not near-sighted."

In the early morning of the Fourth a pleasant faced man of medium height, browned by the summer's sun, jumped off his pony in front of the post office, having just arrived from the East. It was R. J. Tanner, who is going around the world on horseback. He was dressed in a corduroy suit with a cowboy's hat, had a dark mustache and weighed about one hundred and forty pounds. He had no baggage except his "gun," which was of the western make, 44-caliber Colt's revolver. Last spring he conceived the idea of taking a trip on horseback and left Lincoln, Nebraska, March 15th. He then rode east and south until he arrived in New York city June 16, the route he came over covering 2000 miles. Then it occurred to him that it would be a good thing to ride around the world, a feat never accomplished before by man, and when he returned to write a book of travel. So on June 18th he left New York City, traveling thirty miles a day directly west. Some of the points on his route will be Canton, Ohio; Pekin, Illinois; Keokuk, Iowa; Lincoln, Nebraska; the Black Hills, and then on to Yellowstone Park and on to San Francisco. From that point he will take the steamer to Japan; travel through Asia, Africa, Europe and back to New York, where he expects to arrive in front of the "World" building June 18th, 1895, two years to the day he started, with his same horse. The trip is an expensive one; he says the fare alone from San Francisco to Japan being \$200, without the fare for his horse. He is taking extensive notes, and if he is successful in making this trip in safety his book will be one of interest.—Clarion Republican.

State Forestry Commission.

The Harrisburg Telegraph says that Prof. J. T. Rothrock, the State Forestry Commissioner, was at the Capitol completing arrangements for the active operation of his department. The commission completed its organization to-day by the appointment of Percy W. McClellan, of this city, as statistician at a salary of \$1,000 a year. It is the purpose of Prof. Rothrock, who has made the forestry question a study for years, to make a survey of the entire wooded region of the State, so as to be able to submit a comprehensive report to the next Legislature. He will travel in a book-board and has already about half completed Millin county, where he started. It is the purpose of the commission to inspect the eastern half of the State this year and the western portion next year. The report contemplates the character of soil, kind of timber it produces, its abundance and rate of production, the proportion of cleared to timbered land, the local industries in wood and their yearly value, the chief crops, value of wood land per acre, frequency, duration, damage and causes of forest fires, best methods of extinguishing them, the season of and damage by floods, average volume of water as compared with earlier years and its relation to the health of community, and other facts interesting and valuable.

Dull times or lively, Hopkins & Lanson deal out the goods just the same. Prices cut no figure with them when times get dull; they simply put a keener edge on the axe and slash the figures right and left. It.
