At a recent meeting of the Tidi-
oute school board Prof. E. J. Robin-
son was elected Principal, succeeding
Prof. Crawford, who has been elected
to the position of Superintendent of the
Titusville city schools.

Rev. Dr. Elder, of Clarion, who

restaurant and ice cream parlor to
Mrs. J. B. Creat of Tylersburg, who
expects to continue the business.
Under the care of Dr. Nason Mrs.
Walters is fast improving, and her
friends hope ere long to see her health
fully restored.

Link Harrington is confined in
jail to await trial for cutting James
Hulings, of Clarion county, at Wat-
son Farm, this county, a few days
since. The trouble occurred in an
altercation in which the two men be-
came engaged, Hulings, who is a
driller, receiving a bad slash near the
back of the neck, from which he
came near bleeding to death.

There is but one authorized edi-
tion, or will be, of the life of James
G. Blaine, and that is written by Gail
Hamilton, Blaine's literary executor,
and it is being published by that well
known publishing house, the Henry
Bill Co., of Norwich, Conn. They
want live and real responsible agents
in every locality to canvass for the
work. See ad. in this issue.

A school case which attracted a
large part of the East Hickory popu-
lation to town, was tried in Squire
Setley's court on Saturday and Mon-
day of the past week. The defend-
ant was Anna Comstock, principal of
the East Hickory school, who was ar-
rested at the instance of Mrs. Samuel
Douglass, for flogging the latter's boy.
The jury evidently thought there
wasn't much in the case, for after a
short deliberation they brought in a
verdict of not guilty and divided the
costs.

An exchange very sensibly re-
marks that the payment of small
debts should be made promptly. As
a rule these debts are due small
tradesmen and laboring men, who im-
mediately upon the receipt of the
amount due them pay debts owed by
them. Thus \$10 passing from one
to another frequently pay half a
dozen or more debts in one day for
as many men. Realizing this fact
every effort should be made to pay the
small debts we owe. If everybody
owing small debts and who have the
money in their possession to pay
them would do so their world need
be so much complainant about hard
times.

Recent Deaths.

MISS ANNA PARRISH.

We are again reminded of the un-
certainty of life and the certainty of
death in the passing away of a loved
one. The grim monster has entered
the household of Mr. and Mrs. N. C.
Parrish, of Parrish, Forest county,
and taken away their only child, a
daughter about 17 years of age. Miss
Anna was highly esteemed
throughout the entire community.
She was baptised early in life and her
name entered upon the church book
several years ago, in which she was a
faithful Christian worker until death
claimed her. She was taken sick
with malarial fever while engaged in
her studies at Williamsport, and re-
turning home her fever assumed a
typhoid form, and although all was
done for her that loving hands could
accomplish, she gradually grew worse
until July 22d, when her spirit took
its flight to a better world. Short
services were held at the home of the
deceased by Rev. J. J. Giander, after
which the remains were conveyed to
Titusville, Pa., where the interment
took place. The stricken parents
have the sincere sympathy of all in
their great bereavement. J. E. S.

Thomas Howarth, one of the old-
est citizens of Allegheny twp., Ven-
ango county, having his residence
near Lovell's corners, died on Sunday
and was buried yesterday. Mr.
Howarth was a familiar figure in this
community where he had a quite ex-
tensive acquaintanceship. He was
upward of sixty years of age.

Monday evening of last week,
says the Clarion Jacksonian, Detmar
Host, of Washington township, lost
his barn and all its contents by fire.
Mr. Host had been to Lickingville,
and having returned after nightfall,
lighted a lantern to unbarn his
horse. The animal stepped backward
on the lantern, upsetting it and set-
ting fire to the barn, which was con-
sumed in a few minutes.

In accordance with a law passed
by the recent Legislature those here-
after elected to the office of Burgess
will serve three years and are not eli-
gible to the office for the next suc-
ceeding term. The office of Assist-
ant Burgess is done away with. It
also provides that the Burgess shall
not be a member of Town Council,
gives him veto power, and provides
for the election of a presiding officer
of Council.

Deputies Supreme Presidents
Brown and Russell were here during
the past week in the interest of the
Equitable Aid Union, with a view
to the reorganization of the Tiono-
esta Union. Upward of twenty
new applicants have already been
secured, and a meeting will be held
next Saturday evening in I. O. O. F.
hall for the purpose mentioned,
when it is expected over 30 new mem-
bers will be initiated.

The management of the Warren
county fair is making extra efforts to
give the people a good show this sea-
son—better than any heretofore. The
fair opens Sept. 12 and lasts to the
15th inclusive, and there will be a
host of new attractions. Any one
can have a premium list by address-
ing Willis Cowan, Secretary. The
Warren fairs are always drawn heav-
ily from this end of the county, and
the people are generally well satis-
fied.

The Derrick's July report of oil
operations in the Pennsylvania, Ohio
and Indiana fields shows 418 com-
pleted wells, 69 of which are dry
holes, and the balance yielding new
production to the amount of 21,500
barrels. The number of drilling
wells and rigs up is 598. Compared
with the June operations this shows a
decrease of 18 in completed wells, a
decrease of 4,631 barrels new produc-
tion, the same number of dry holes,
and a decrease of 88 new rigs.

The use of disinfectants should
be constant at this time of year.
About a pound of coppers, costing a
few cents, scattered in a water closet,
will entirely deodorize it. Four
pounds of the same dissolved in a
bucket of hot water and thrown down
a cesspool will have the same effect.
If repeated two or three times a
month there will be no trouble from
sewer gas or other effluvia. There is
no unpleasant odor from it as there is
from chloride of lime or carbolic
acid.

There is a mistaken idea that the
new school text-book law requires a
complete change of books. The law
makes no such requirement, but
contemplates the purchase, at the begin-
ning, of books for pupils who are not
supplied. Pupils who have text-
books are expected to use them just
the same as before the new law was
passed. In districts where books
have heretofore been purchased by
the school boards under the old law
no change whatever is required. In
the exercise of proper care on the
part of directors great expense will
be saved taxpayers.

The barn of Solomon Byers,
whose farm is located in the southern
portion of Tionesta township, burned
to the ground on Sunday night last.
All the crops he had harvested this
season were stowed in the building,
and about all his farming machinery,
including a mowing machine and
sulky rake, were consumed. We
understand Mr. Byers had an insur-
ance of \$800 on the property, which
would only partially cover his loss.
No information as to the cause of the
fire, except that some children had
been playing in the barn during the
afternoon, and may have dropped
some matches amongst the hay.

CHRISTIAN ENDEAVOR.

An Entertaining Report by Interna-
tional Delegate Curtis.

As was announced last week, the
Oil City delegate, Mr. C. E. Curtis,
was present Monday night at the
Presbyterian church to report of the
12th annual Convention of Y. P. S.
C. E. There was a very appreciative
audience present, consisting of the
younger as well as of the older mem-
bers of the congregation.

After short devotional exercises,
Mr. Curtis was introduced, who at
once captivated the audience by tak-
ing them aboard the train at Oil City
and accompanying them all along the
shores of Lake Ontario and down the
St. Lawrence past Thousand Islands,
to the beautiful city of Montreal, and
seated us in Drill Hall among 12,000
young Christian Endeavorers. The
Convention was composed of 16,000
delegates who held simultaneous
meeting in Drill Hall and a large tent.

It will be impossible to give the
whole report as space will not permit.
We were told of the beautiful scenery
and of many points of interest, but
the best of all was the report that
showed that there are now 26,284 soci-
eties with a membership of 1,577,040.
At the end of 1882, the year of its
organization, there was a gain of six
societies; the year just past shows a
gain of 5,276 societies over the year
1892. The Christian Endeavor soci-
ety is not a denominational society,
as there are thirty denominations re-
ported, the Presbyterians in the lead.
This "Child of the Church" has
been doing effective personal work
for the Master this year as is shown
in the report that 158,000 of their
number have confessed Christ and
have given over \$100,000 in addition
to what would have been given by
the various missionary societies of the
church.

Mr. Curtis dwelt largely on the
progress made in Junior work and of
its importance to the United Society.
The report as rendered made a deep
impression on the members, and the
consecration services which followed
were unusually interesting. An in-
formal meeting was held at the close
of the regular exercise and a moti-
on was made to accept the invita-
tion to join the Oil City and Vicinity
Local Union.

A Delightful Day's Outing At Chan-
tauga Lake.

The W. N. Y. & P. R. R., an-
nounce a grand low-rate excursion
to Chautauqua Lake, under the aus-
pices of the Sunday Schools of Tidi-
oute, Hickory and Tionesta, Satur-
day, August 5th. Special train will
leave Tionesta at 7:45 a. m. Fare
for the round trip \$1.25. Two chil-
dren between the ages of 8 and 12
years will be carried on one ticket.
Train will arrive at Mayville 11 a.
m., where one of the Palace Steamers
of the Chautauqua Steamboat Co.,
will be taken for the trip down the
lake, arriving Chautauqua Assembly
Grounds 11:20 a. m., Jamestown 1:20
p. m., returning leave Jamestown 2:50
p. m., Chautauqua Assembly Grounds
4:50 p. m., Mayville 5:10 p. m. Pass-
engers can ride the entire length of
the Lake if they so desire, 44 miles.
A grand concert has been arranged
to take place at the Assembly
Grounds 2:30 p. m.; tickets for ad-
mission to the grounds will be sold on
the train at rate of 25 cents. This
will be the only excursion of the
season, all should go.

Severe storms are predicted between
the 2d and night of the 4th. Exces-
sive heat is apt to end in lightning,
thunder, hail and wind, and a sudden
change to abnormally cool on the
very heels of great heat. The storm
period, 8th to 12th, promises the most
active and dangerous storms of the
month, and there is reason to appre-
hend violence in the elements between
those dates. The heat will become
intense before the storms appear, and
cloud formations will be black and
ominous. Heavy hail, thunder and
wind may be expected, and "cloud-
bursts" are sure to result here and
there. Such are the results ordinari-
ly following such a combination of
disturbing causes as Vulcan central
on the 8th, Venus central on the 9th,
New Moon on the 11th, and Mercury
central on the 12th. But there are
exceptional cases, when, instead of
heat breaking into storms of rain,
etc., the warmth is prolonged until
violent earthquake phenomena break
the spell and allow the elements to
return to their normal condition. In
either case there will be sudden revolu-
tions from great heat to very cool,
almost approaching the frost line
about the 14th. From the 18th to
the 22d falls another period of heat
and storms. Pleasant days and very
cool nights will follow this period ex-
tending to the 26th and 27th. Aug-
ust ends with the first stages of a
storm period coming into action.
Storms in most parts of the northern
hemisphere during this month, will
develop and move from the north-
west, the first marked indication of
their coming being generally a dark
or leaden bank across the northwest
at sunset.

Corry, Pa., Sept. 12-15.
Conneautville, Pa., Sept. 13-15.
Cambridge, Sept. 19-22.
Clarion, Sept. 19-22.
Randolph, N. Y., Sept. 26-29.

Until Aug. 12, 1893, inclusive, the
Sires Gallery, at Tionesta, will be
open six days in the week, after which
time it will be open Saturdays only,
with W. J. Bulger, the present oper-
ator, still in his place.

Mr. J. C. Boswell, one of the best
known and most respected citizens of
Brownwood, Texas, suffered with diarr-
hea for a long time and tried many dif-
ferent remedies without benefit, until
Chamberlain's Colic, Cholera and
Diarrhoea Remedy was used; that relieved
him at once. For sale by Siggins &

NEWSY NOTES.

Rooseville has a seven-year-old girl
who is an expert telegrapher.

Hay is selling at \$16 per ton. This is
higher than it ever sold before in this
market at this time of year. The crop is
almost a total failure, says the Kittan-
ging Free Press.

Corry claims the oldest lady bicyclist
in the state in the person of Mrs. Catlin,
who is nearly 70 years old and rides her
wheel as easily and gracefully as any of
the younger women.

The government has traded J. W.
Ormsby, of Hill, the position of post-
master of that place for his pension.
The swap was "sight unseen" as far as
Mr. O. was concerned, however.—Mercer
Dispatch.

An editor out west who sends his pa-
per out to "time subscribers" sends a bill
each year. When a second bill is sent
and there is no response he takes it for
granted that the subscriber is dead, and
publishes an "obituary notice" in his
columns.

The Pennsylvania railroad supported
the surviving people and animals of
Main's circus during ten days' idleness
after the wreck, built a train of thirteen
new cars, paid for all repairs, completed
the original number of wagons and also
paid to Mr. Main \$75,000 in cash.

Mrs. Dan'l Glass, of near Shippenville,
fell from her chair while resting on the
porch last Saturday, and broke her neck.
She was subject to fits, and it is presumed
that this was what caused her to fall.
When she was lifted up, life was gone.
She was about 40 years of age.—Clarion
Jacksonian.

Louis XIV was great as a feeder. The
Duchess of Orleans once saw him eat
four plates of soup, a whole pheasant,
two partridges, a plate of salad, another
of mutton hashed with garlic, two large
slices of ham, a dish of pastry, fruit,
sweats, and drink three bottles of
wine. All of which sounds like a lie.

A French scientist says that an unfail-
ing test of death may be made by produ-
cing a blister on the hand or foot of the
corps, using a candle for the purpose.
If the blister, upon being opened with a
pin or other instrument, is found to con-
tain a fluid of any kind there is still life
in the supposed corpse. On the other
hand, should it contain steam only, rest
assured that the vital spark has flown.

The big Ferris wheel at the Fair will
prove a good investment. The Average
daily patronage since the big cycle was
put in motion has been 8,900. At 50
cents a head this puts \$4,450 per diem
in the cash box. The patronage is likely
to be much larger for the remaining days
of the fair. Putting it at only \$4,000 a day
will make a grand total of \$480,000, not
counting the receipts for June. The
actual cost of the wheel was \$330,000.

A test of mowing machines was made
at the World's Fair Tuesday. The Mc-
Cormick and Whitley Mower companies
were the only competitors. One acre was
stacked off for each machine. The length
of the bar used was five feet and the time
consumed in mowing was just 32 1/2
minutes each. About all the difference
which could be seen in the machines was
that the McCormick made the least noise.

A cursory glance at the New Peterson
for August is enough to show that it is
one of the best of the month's magazines.
"The Rise of the Dancing-Girl," by
Charles Belmont Davis, gives a delight-
ful account of American stage-dancing,
illustrated by photographs of our most
famous dancers. "Days in England,"
by Mary Gray Umsted, describes all sorts
of charming out-of-the-way nooks, and
the accompanying illustrations are worth-

will convince our readers that the New
Peterson keeps thoroughly up to its high
standard. Terms, two dollars a year,

When the great settlement day comes
a good many applicants will doubtless
be stood aside because of their inability
to satisfactorily explain why they did
not pay their doctor's bills. The Bradford
Era, commenting on the subject says:
"Why don't people pay the doctor?
When a man wants the services of a
doctor there is nothing he is more eager to
have. And when the doctor pulls his
forgetful soul back from the fires of in-
ferno the doctor is forgotten along with
the weekly newspaper. Good sense
would dictate prompt settlements with the
man who can save a nonpaying pa-
tient to die, but good sense doesn't seem to
serve a man in matters of health whom he
loves. Then the doctor's good nature is
banked on a good deal, for we know he
will come when we need him real bad if
he can, whether his bill is paid up or
not. The doctor doesn't have a soft snap
while he lives. He is everybody's ser-
vant, everybody's creditor, and his hours
cover the day and night. If he doesn't
get a favored place and a few marks of
distinction in the world to come it will
be funny. However, that's no excuse to
slight the doctor now, and one of the
strongest arguments against Bob Inger-
soll's creed is that if Bob is right there is
no place in the world to come to put men
who don't pay the doctor."

One Way to Take Comfort.

Mr. Thomas Battey, editor of the
Graphic Texarkana, Arkansas, has found
what he believes to be the best remedy
in existence for the disease. His experience
is well worth remembering. He says:
"Last summer I had a very severe at-
tack of cholera. I tried almost every known
remedy, none giving relief. Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy was recommended to me. I purchas-
ed a bottle and received almost immedi-
ate relief. I continued to use the medi-
cine and in a few days I was cured. I
take pleasure in recommending this remedy
to any person suffering from such a dis-
ease, as in my opinion it is the best medi-
cine in existence. 25 and 50 cent bot-
tles for sale by Siggins & Nason.

Are ahead of them all, chiefly among
them is the display of pure liquors man-
ufactured in this State. It is conceded
that no rye whiskeys made in the world
can equal those made in Pennsylvania,
more especially Silver Age, Duquesne or
Royal Creek. These three are the best
of the list of pure ryes, and are well known
that every reputable dealer sells them.
North, East, South and West they lead
all other brands of rye whiskeys. They
are pure and reliable, and become their
stimulants that strengthen and invigorate.
They are sold at prices within the
reach of all, and are sold upon their merit
