Uncle Selden Whitman will please accept our best thanks for that bucket of fine whortleberries left at the print shop Monday morning.

Court next week. The civil list is somewhat more extensive than usual, but the criminal list is about the usual dimensions, embracing only a few cases.

Lawrence & Smearbaugh ask an inspection of their new 2-dollar boot, just in. The like was never shown in this market, as a glance will convince any one.

The bottom of the river is still gradually pushing toward the surface, and there will be scarcely enough water left to float a crab if things don't change directly.

The physicians have given up as hopeless the case of Mr. Samuel Ridgway, of Hydetsown. The Titusville Herald of last Saturday says that at last reports he was breathing, and that was all.

Owing to the condition of the Presbyterian church on account of the alterations being made, all services connected with the church will be held in the school hall until the new edifice is ready for occupancy.

The borough schools will open Monday, Sept. 4. All pupils not examined at the close of last term must be examined before they can be admitted to the school. The Principal will be at the School building at 9 a. m. Saturday, Sept. 2, to examine all applicants.

The water company expects to turn the water into the mains direct from the supply pipe before the week is out. The reservoir is not yet in condition to receive the water, and it may be three weeks yet before it is ready. The Elm street main is finished to the reservoir.

Mr. Wm. Haslet started yesterday morning for the return trip to Washington State. Mr. Haslet lacks but a few months of 80 years of age, yet has the appearance and general activity of a man ten or fifteen years younger. He scarcely expects to return to this section again.

An exchange tells of a fellow who every time he gets on a spree, insists on paying a year's subscription to his town paper. He has already paid for his paper to January 1, 1927. An effort will be made at the next press convention to ascertain what brand of whiskey that fellow is drinking in order that it may be more generally placed on the market.

At a meeting of the school board last week the New Franklin Readers were adopted for use in the schools of the borough, as were also Sheldon's Arithmetics. No other changes were made in the text series, and the board hopes to get along with a minimum outlay for books and other necessary supplies at least for the present year.

The nights are cool and elegant for comfortable sleep, while the days are not so very hot. But what we want is rain; a good, all-night ground-soaker, and then some. Badly needed for the wilting crops, and to let the lumbermen out with their wares which are laying high and dry, and not drawing a cent of interest. It's rain we want, not cool nights.

The Warren fair opens on the 12th of Sept. and continues four days. The management promises the best fair of any yet held. Balloon ascensions every day. Bicycle races first day, open to the world. Wednesday, Thursday and Friday, horse races. Good music each day. Extensive exhibits of all kinds, and no trouble to find lots to amuse and interest during the entire week. Go any day; you can't miss it any.

A mistaken idea prevails that the Kellektiville mail pouch must not close at Tionesta until 1:30 p. m. This is wrong. The mail can leave here immediately after the arrival and distribution of the regular noon mail down the river, but must not start later than 1:30. Persons sending mail up the creek should not delay hereafter, as it is likely to leave here earlier in the future. This hint, if heeded may save needless vexation.

The drouth is affecting things all along the line. Reports from Pittsburg state that since 1866 there has not existed such a condition of affairs as now prevails among river coal men, and not since then has there been so long a time when coal could not be shipped by river. There is slight hope that there may be a boating stage about September 15, but the coal men fear it will be much later before the 28,000,000 bushels of coal now loaded can be sent out.

Persons visiting the big fair should remember that they can have mail sent direct to the ground, by having it directed to "World's Fair Station, Chicago, Illinois." Visitors not knowing before leaving home their precise location in Chicago, may find it convenient to have their mail addressed to that station until they have located for the season. This information has been given in these columns heretofore but a reminder will not be amiss at this time when many are contemplating a visit.

The old third brigade, (1st Div. 5th Army Corps) Association holds its third reunion at 10 a. m., Wednesday, Sept. 6, 1893, in State House Hall, Indianapolis on occasion of 27th national encampment of G. A. R. A paper by Maj. T. E. Morris, of 16th Mich. will be read on Butterfield's Brigade from Hanover to Malvern Hill. It is desired that every brigade comrade living should furnish his correct address to the secretary, Edward Hill, Irvine, Warren county, Pa., by postal card, as a roster of the brigade will be printed in next edition of proceedings.

A thousand invitations have been issued for the Keeley League reunion in Tionesta on the 6th of September, and from all appearances the gathering in this place will be one of the largest the town has ever had. The famous Northwestern band of Mendville has been engaged, and so has Coleman's celebrated orchestra, of Titusville. An invitation has been extended to Dr. Leslie E. Keeley, and others who have become famous in connection with the Keeley Cure, and the management hopes to have them among its distinguished guests. Nothing will be spared to make the affair a grand success.

A. B. Richmond, esq., the well known criminal lawyer of Meadville, was in the city Monday afternoon on his way to Clarion where he will defend James McKenna and Samuel Mock, charged with the murder of John Crawford at Foxburg on the morning of Saturday, May 20th, says the Derrick. The grand jury met on the case Monday and the case was opened Tuesday in the Clarion county court house in Clarion. Mr. Richmond has also been retained to defend Mrs. Emma Crecraft and her alleged accomplice, Marvin Newton, charged with the murder of Mrs. Crecraft's husband at Greytown, Crawford county, by poison in July 1892. With these two cases over Mr. Richmond will have a record of 96 homicide cases defended by him during his career as a lawyer. Out of the 94 that he has already been engaged in only one of his clients have been hung—Andy Tracy, of Smethport for the murder of his affianced wife, Mary Riley, in 1879. Tracy shot the girl from behind on the streets of Smethport as she was walking with a lady companion.

The ladies of Tionesta W. C. T. U. will entertain the ladies of Hickory Union next Tuesday at one o'clock, p. m.

As nice a line of shoes as you would care to select from can now be seen at Lawrence & Smearbaugh's. These goods have just been unpacked and are the latest fad and most comfortable shape. As to price, the times have regulated that, and the shoes will go accordingly. Call and see 'em.

A sad fatality occurred at Opolopolis, on the Allegheny river about 12 miles below here, last Sabbath afternoon. A. S. Smith of McClintockville, accompanied by his two sons were encamped there, fishing and hunting. About 5 o'clock in the evening, Paul, the younger of the two boys, was returning to the shanty with his gun loaded with buckshot. Not wishing to take the gun to the shanty loaded, he fired it into a clump of willows that fringed the river bank. His brother Albert, aged 17, who had gone there but a short time previously, received the charge fired from the gun, and was instantly killed.

A private letter from our old friend Mr. John Cromer, who is now a resident of Toledo, Oregon, conveys the pleasing news that he and his estimable wife are enjoying good health for people of their advanced years, and that they will celebrate their golden wedding on the 10th of September. All the old friends in this section will join the REPUBLICAN in sending greetings of joy to this worthy and highly esteemed pair on this happy occasion, and will wish them very many returns of the day. Mr. Cromer tells us they are not troubled with sickness, storms, rattlesnakes, potato bugs or cabbage worms. Besides they can slip out most any time and bring in a deer or a mess of fine fish. Fine country, that.

Mrs. H. S. Bates, of Titusville, has issued invitations to the marriage of her eldest daughter, Miss Brownie Bates, to Mr. Avery Warner Skinner, for Thursday morning, Aug. 24, at 11 o'clock. The prospective bride is a favorite in Titusville society, and her substantial attainments and rare graces are known to a circle of friends in this city, where she has been an occasional guest of relatives. The groom belonging to an excellent family of Syracuse, N. Y., is a young man of fine mental equipment, and is at present the principal of an academy at Andes, N. Y., in the Catskill region.—Franklin News. The bride-elect has a large circle of admiring friends in Tionesta, to whom this intelligence will come with much pleasure.

Last Friday Charles Torney, of near King's Mill, pulled ten ears of corn from his garden, and he found on eight of them a large brown worm about one inch long. He brought an ear to town and showed it to a number of our citizens, but not one could say he ever saw such a worm on corn before. The husks are not worm eaten, and how the worm got there is a mystery. The corn was the sweet variety, and it is not known whether such a worm is at work on the common Indian corn. It would be well for the farmers to look their corn over.—Emlenton News. Townsman D. W. Clark reports a similar find in his garden a few days ago, and says this strange worm has made considerable inroads in his sweet corn supply.

Free Methodist Camp Meeting.

The Free Methodist camp meeting which closed at Youngville last Wednesday was a very successful one according to a correspondent of the Derrick from that place. Presiding Elder Rev. Walter A. Sellow is a second Vincent in his management of large crowds of people. Their singing is really artistic. Monday afternoon three were immersed in the waters of the Brokenstraw, in the centre of the borough. Tuesday eleven more were dipped. The ceremonies on these occasions were solemn in the extreme. The managers of the association are talking of renting this beautiful grove for five years. The grove is located about midway between the railroad depots and very near both. The elder gives Youngville great credit for the excellent order which prevailed during the eight days of the encampment. Nearly a half hundred have been converted; 14 baptised; \$100 was raised for the orphanage at Gerry, N. Y.; about \$200 for the general expenses of the meeting, and everything prospered. It must be said of these people that they are a wonderfully devoted set. Many of their rules ought to be adopted by other churches, one of which is use no tobacco in any shape. The people of Youngville will welcome them back if they should favor them with their presence any time in the future.

Kellektiville.

The Hickory ball team came over and played the Stars a game on Saturday. The score at the end of the 7th inning stood 21 for Hickory and 16 for the Stars. It is thought we would have got it still worse had the game been played out.

The festival spoken of in last week's letter was fairly well attended, the proceeds of the evening netting \$16. The funds will be used in furnishing lights and other necessary articles for the meeting house. The ladies deserve much praise for their labors, and also for the elegant pies, cakes, ice cream, etc. The only objection we offer is to the practice of carrying a sample of each cake home, which in some instances might run us short, but on this occasion there was an abundant share for each one and lots to spare.

Chas. Berlin had the misfortune to cut his right foot with an axe one day last week. The wound was dressed by Dr. Barber and the patient is getting along nicely. It is safe to say Chas. only struck the foot once.

We noticed the smiling countenance of Wm. Hood and F. F. Whittekin on our streets a day or two last week. W. S. Gillespie was down from Pool's Creek on Saturday. Will is interested in the lumber business there.

Thos. Gillooly returned home Wednesday from a business trip to Ohio. On his return Thos. stopped off a day at Pittsburg and took in the ball game between Pittsburg and St. Louis. He says the game was a little better than the one played here Saturday.

Thomas Cowan reports having seen a large black bear near his place a few days ago. Tom says he was filling up on blackberries.

Reports say that one of our young men is thinking seriously of committing matrimony in the next few days.

NEWSY NOTES.

Some of the leading physicians of New York think they have found a cure for cancer by inoculating the patient with virus of erysipelas. The discovery was an accident, a patient in a cancer hospital having become inoculated with the virus, and improving steadily thereafter.

Jamestowners are jubilant over the prospect of securing the county seat and the new county buildings. At a meeting of the Supervisors at Mayville Aug. 9 a resolution to move the county seat was adopted by vote of 18 to 10. Dunkirk and Fredonia were strong bidders, but could not get enough votes. The question will now be submitted to the people to vote upon at the next general election.

The new State library and Administration Building at Harrisburg will be a two-story structure of imposing appearance. The Auditor General and State Treasurer will have quarters on the first floor front and the Governor on the second. The library will occupy the rear building, which will be supplied with all the modern appointments in the way of side galleries, lights and ventilation.

The Butler Citizen says: Samuel Meals, of Venango exp., had the best amount of eye this year that we have ever heard of. I.e., 103 bushels from 103 dozens, cut from 4 acres. Some of the wheat of that vicinity also turned out a bushel to the dozen this year. A. D. Shearer, who lives on the W. C. Thompson farm near Butler raised 96 bushel of wheat on 3 acres, and threshed it from the field. 32 bushels to the acre.

The 108th Regiment Pennsylvania Volunteers will reunite at New Bethlehem, this county, October 12th. Thos. E. Richardson, of Richmond, Va., of Co. K, 12th Regiment, Virginia Infantry, will be present and return the flag he captured from the 106th at Boydstown Plank Road, Va., on the 27th of October, 1864. He will also present the regiment with a gavel made from a post in Libby prison and a brick taken from the structure.—Clarion Republican.

The Kittanning Times says Ford City is a decidedly forlorn looking place these days. A person visiting it now after having been there when the works were running full time, would not think it was the same city. Every man who could get work elsewhere has gone away, in many instances taking their families with them. The town presents a Sunday appearance every day now. When the wheels will again be put in motion no one can tell. That much actual suffering is existing is true. Many of the poorer families have applied for and obtained relief. Others are traveling to other towns soliciting assistance.

Rev. Dr. Roberts, of Philadelphia, the stated clerk of the General Assembly of the Presbyterian church in the United States, has just issued the summarized statistics of this body, from which it is learned that there are almost 7,300 churches of this denomination in the country, with 853,000 communicants, and a Sunday school membership of over 900,000. The contributions last year amounted to almost \$15,000,000, to which should be added interest from permanent funds, for seminaries, etc., amounting to over \$2,000,000. Home Missions received something over a million dollars last year, and Foreign Missions between \$500,000 and \$600,000.

One who has been there and knows how it gives this advice: When you go to the World's Fair—that is, if you are going—don't take with you a big trunk full of clothing. You won't need it, neither the trunk or the clothing. Take clothing that fits easy on you, good every day clothing, that you can feel comfortable in, and you will be all right. Nobody looks at the clothes you have on to criticize their cut or texture or material. People are too much engaged in seeing other things to scan their neighbors or make comment on their appearance. In a great show like that, where there are people from all parts of the earth, any peculiarity of dress is not noticed, except, perhaps, if it be undress such as the Fiji Islanders and the people in the Dahomey Village on the Midway Pleinaseance affect. You are liable to bump up against a Turk or an Algerian or an Arab, a Siamese citizen, a Brazilian, or a native of any other country in the world, at almost every corner you turn, and none of them are on the watch to see how you are dressed. And above all don't go to the Fair wearing tight shoes. Remember that you will have a great deal of walking to do, and if your feet are at ease you will not be half as tired. In the building devoted to manufacturers

and liberal arts there are 75 miles of aisles, in and out and round about, and if you start out to go through that building you want to wear easy shoes. Don't wear old shoes, but easy shoes.

The Harrisburg Patriot says: The five million dollars appropriation now being paid by State Treasurer Morrison to the several common school districts of the state upon warrants issued by Schaeffer are for the two years ending the first Monday of June, 1893. At the last session of the legislature this amount was increased to \$5,500,000. The general impression seems to have been made by this act of the general assembly that a portion of the appropriation for the support of the common schools was specially set apart by the legislature for the purpose of purchasing text books, supplies, &c. On account of this misunderstanding frequent inquiries have been received at the department of public instruction from school directors and others interested, asking for information on the subject. These have all been answered to the effect that no part of the appropriation was specifically appropriated for such purposes. The increased appropriation will not be available until the close of the current school year, ending the first Monday of June, 1894, the whole amount of which is to be paid for the support of the public schools in the several districts and to be used as the funds raised in the several districts by local taxation for school purposes.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., under the great food, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera, and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by Siggins & Nason.
