**Republican County Committee Meeting.**

A well attended meeting of the Republican County Committee was held at the court house Monday evening, every township in the county being represented. The meeting was called to order by Chairman J. I. Woods, who briefly stated the object of the meeting to be for the purpose of making preliminary arrangements for the ensuing campaign. Mr. Woods had the poll books ready, and gave them out to all committee members present with proper instructions. An informal talk on the prospects of the campaign now approaching was indulged in by several of the members present, all indications pointing to a solid and united party in the different portions of the county. **The Sherman Bill Repeal.**

The vote on the repeal of the Sherman silver law in the House at Washington was taken on Monday and as everybody expected resulted in the repeal by a large majority. All of the Bland amendments were defeated as fast as proposed, the vote being as follows:

- The 16 of silver to one of gold basis on the free coinage proposition was defeated, yeas 123, nays 225.
- The 17 to 1 amendment was defeated yeas 100, nays 240.
- The 18 to 1 free coinage amendment was rejected, yeas 102; nays 239.
- The 19 to 1 amendment was rejected yeas 105, nays 222.
- The amendment to re-enact the Bland-Allison act was defeated—yeas 136, nays 213.
- The Wilson repeal bill was passed—yeas 239, nays 110.

Don't forget to observe whether your name is on the registry list. Wednesday, September 6th is the last day. Attend to it now, or you may lose your vote this fall.

THE Democrats who a year ago said the tariff on tin was a tax on the workingman's dinner pail are the very people who have created such a condition of affairs that he has not got anything just now to put into the dinner pail.

GOVERNOR BOIES has been renominated in Iowa, but he will not be elected this year. This is a very much Republican year in that State, and Governor Boies must have thought so from his extreme reluctance to permit his name to be put up for renomination.

THE free trade papers are begging everybody not to mention the tariff in these days. If tariff agitation has done no harm the clouds will all roll by when Congress has repealed the purchasing clause of the Sherman act. Does any one expect this? Does any one expect it?

CONGRESS will repeal the purchasing clause of the Sherman act in the next three or four weeks. This now looks probable. The country will then be relieved of whatever danger lurks in the Sherman act. Whatever depression is left will be due to the apprehension of an assault on the tariff.

CAPTAIN GEORGE W. SKINNER, of Fulton county, has been informed that his appointment as pension agent at Pittsburgh has been confirmed by the Senate and the papers forwarded to the President for his signature. As soon as the papers are returned to the bureau the Captain's commission will be issued.

THOSE bad Texas Democrats are at it again. A party of them held a meeting near Texarkana and adopted resolutions denouncing Cleveland as the enemy of the people. They then hanged the President in effigy and riddled the dummy with bullets. It would seem from the several occurrences of this character that Grover is getting himself disliked by the Texas Democrats.

It is funny to see the Democratic papers, from the greatest to the least, squirm because they are reminded by their opposition contemporaries of bank failures, manufacturing shut-downs and the panic generally, when they have done nothing but howl calamity for the last thirty years. And that, too, in the face of the most prosperous times that any country on the globe has ever known.

THE besmirched Breckinridge, of Kentucky, notified Speaker Crisp that he would speak on the silver question, and then did not appear. It would have been a rare exhibition of cheek for Breckinridge to pose before the country on any subject, after the history of the past two weeks with which his name has been connected. His absention himself shows that he is not proof against public opinion which thinks he ought to subside, if not resign.

A CORRESPONDENT asks, in the name of "Many Readers," what is meant by free silver. It means that if, as now, the government makes a coin containing 412½ grains of standard silver a legal tender dollar, while that weight of silver is worth only sixty four cents in the bullion market, the government should also coin anybody's 412½ grains of silver into a dollar, free of charge, and give it back to him; thus giving the profit on coinage to the man who owns the silver, instead of the people.—N. Y. Press.

THE New York Anarchists are secretly working among the unemployed to foment revolutionary schemes. The New York Anarchist is the hornet of the Metropolis, and ought to be squelched. Thus far they have been working secretly because they fear the police if they come out openly, and the police have had little to do. It is only a question of time when they will become emboldened and will speak out openly their nefarious teachings. Then the police will take a hand, and the Anarchists will wish they had never seen New York.

This is from the Washington Post, which is not an organ of any particular kind, but likes to whack away at anything and everything it sees ahead of it: "There is some ground for hoping that we have seen the last national campaign on the calamity issue. It is reasonable to assume that both parties have had enough of that, at least for very many years to come, and that the country will not hereafter have to listen to the idiotic asseveration by the Republican or the Democratic party, as the case may be, that one-half of the people are resolutely bent on chaos."

And pray, who were the calamity howlers a year ago? Certainly not the Republicans. They said let well enough alone. The country was prosperous, business was good, the factories were all running, merchants were happy, the laboring men were getting good wages, and everything serene under Republican rule. The Democracy shouted and warned the voters that if this condition—this prosperous condition of affairs—continued the whole country would be ruined, and blindly the voters heeded the cry and turned the Republicans out. You have only to glance around to see the effect of that turning down of the Republican party. The Democracy were the calamity howlers, and now they are sitting in sorrow and brooding over the result of their falsifying, and calling on the Republicans to help them out of the hole. The Republican party never started nor upheld a calamity issue.

THE Commissioner of Pensions has discovered one dishonest pension agent, and he makes his discovery the pretext for suspending every pension granted a Union soldier through this particular agent. This is the thickest and flimsiest excuse yet made for raiding the soldiers' pensions. The Commissioner is trying to outdo Hoke Smith in his assaults on the bread and butter of Union veterans. It is high time the old soldiers spoke out, and they are speaking very plainly and to the point. Hoke Smith's ears will tingle when he hears from that gathering in Indianapolis.

NO BANKER, no merchant and no corporation can make plans for the future when the question for the moment is not a question of relative profits, but of a fight for existence.—Evening Post.

Exactly so. And the cause of the whole trouble lies in the election of a President and Congress pledged to Free-Trade, which the *Evening Post* and other Free-Trade papers of New York fooled the people into believing would make them rich and prosperous.

A MAN looking for work in Ohio said to a farmer: "Can you give me work?" The farmer said he had some sheep to shear if he could find a man who knew how to shear. The man said he learned that business and considered himself an expert. He was told to go to the barn where he would find shears and commence shearing. The farmer went out to see how the man was getting along, but to his surprise found the shearer shearing the sheep from the wrong end. The farmer said: "That will never do, you told me that you understood shearing sheep." "Yes, sir, I told you so, but since Grover Cleveland's election and the fall in wool I have been ashamed to look a sheep in the face."

THE disposition of Mr. Springer from the chairmanship of Ways and Means and the substitution of an ultra free trader in the face of the condition of the industries and wage workers of the country is an indication of the determination of Congress and the administration to give the country a sample of Democratic tariff legislation on the Democratic platform of 1892 that protection is a fraud. This announcement of the standing committees in advance of the vote on silver was in conformity, it is alleged, with an understanding that as soon as the House has disposed of the silver question and the new rules have been adopted, the President will be ready to transmit a special message on the subject of tariff revision pending action on the silver question in the Senate.—Harriburg Telegraph.

"THE South gets thirty-two chairmen," shouts the Democratic Memphis Appeal-Avalanche in a circus poster headline over the account of the arrangement of the House committees by Speaker Crisp. This gleam of the Southern Democrats over the restoration of things as they were "befo' de war" is fully justified. But it is not so satisfactory to other sections. The Minneapolis Tribune says that not a state west of the Mississippi River and north of the old Mason and Dixon line has been honored with a chairmanship. There are fourteen States in that section which cast about 2,000,000 votes last November, while the single state of Alabama that cast little more than half the vote of Iowa has three chairmanships. It is true that Democratic Congressmen from the Northwest are not very numerous, but this boycott of a whole section, and that the most growing one, is a most vivid illustration of the spirit that controls the Democratic party.—Phila. Press.
