

Governor McKinley's majority in Ohio is exactly 80,995. What an avalanche for Larry Neal to be buried under. He and his free trade plank will never be heard of again in Ohio.

UNDER the new tariff bill being prepared by the Ways and Means Committee pig iron is to be admitted free of duty. The Pennsylvania furnaces cannot compete with that sort of thing.

HERE are the official figures as finally computed at the State Department in Harrisburg: Jackson, Rep., 442,248; Osborn 307,102; Kent, Pro., 21,350; Windsor, Peoples, 6,976; Fell, Rep., 439,613; Thompson, Dem., 306,032; Ames, Pro., 21,733; Stevenson, Peoples, 7,268.

THAT income tax project is not getting very much encouragement. Even the Phila. Ledger, Cleveland's court organ, says that "an income tax is a source of corruption by the tax levy, and it was a constant source of scandal during the late war." The income tax is a relic of the war. What sane man wants it revived?

EX-SECRETARY WHITNEY says that the result of the recent election was a Democratic defeat, but not a Republican triumph. We don't know how he figures it out, but when the Republicans have 138, in Pennsylvania, 100,000 in New York, 81,000 in Ohio, 40,000 in Iowa, 35,000 in Massachusetts and have captured the New Jersey Legislature it would occur to the average mind that they had scored a pretty big triumph. Perhaps Mr. Whitney is whistling through his graveyard.

GLOVERSVILLE, N. Y., gives probably a conspicuous illustration of the bad effects of the threatened Democratic tariff reductions. The number of destitute people in the city exceeds anything ever before known and it has compelled church and charity organizations and the village authorities to take the matter in hand and make preparation to provide for the starving. The prosperity of the place depends almost wholly on the manufacture of gloves, upon which the McKinley tariff imposes a high duty. A year ago the place was highly prosperous, but the fear of a reduction of the duty on gloves has closed most of the factories and thrown hundreds of people out of employment. It is thought that the town will have to raise the money to support the destitute by special tax. If this course is adopted it will offer an object lesson for those who are so sure that the "tariff is a tax."

THE Kansas City Journal says editorially that a prominent loan agent in Kansas has received instructions from Eastern capitalists for whom he does business to extend time on Kansas mortgages and to make new loans on Kansas farms. This action is the direct result of the elections and shows how the prosperity of Kansas will be promoted by the defeat of the Populists. The three elections in which that party won full or partial victories has cost Kansas millions of dollars. It was one of the most costly delusions into which a people was ever voluntarily led. If they have learned the lesson thoroughly, however, it will not be without beneficial results. Kansas is a State with great resources. If it were not the three years of Populist rule would have completely bankrupted it. But if the people will now resolutely put behind them the populist delusions they can retrieve all they have lost in a few years.—Phila. Press.

HERE is a condition of affairs brought about by Democratic tariff tinkering which is simply appalling. A Sbaron (Mercer county) mill man who had been making an investigation of the condition of thousands of idle workmen and their dependents in the Mahoning Valley, especially in Youngstown, Ohio, and vicinity says:

"The real condition in Youngstown is not understood as it should be by the community at large, because, with the exception of the Ohio Sun, the newspapers there have either ignored or qualified the facts. The degree of absolute suffering in that city is simply frightful. Things have reached such a state that outside interest is being aroused, and the management will probably be extended to other localities."

This is deplorable but with mills shut down, the workshop doors closed, no work, no prospect of work, nothing to eat, and a Democratic Congressional committee tinkering at the tariff, there is little hope that matters will be any better—at least for a long time to come.

It is announced that England is highly pleased at the way in which Cleveland has treated the Hawaiian matter. Of course England would be pleased, and Grover intended to please England. In fact there is a story to the effect that Cleveland played right into England's hands in the treatment of the question, and did the very thing that England desired to have done. It will not surprise anybody to hear that Great Britain will soon have indirect control of the Hawaiian Island through the sovereignty of the will of the present claimant to them. Oh, Cleveland will do anything that England asks.

CONGRESSMAN C. W. STONE, was at Pittsburg Thursday. Like all good Republicans, Mr. Stone is feeling very jubilant over the recent election results, but he refused to talk to a reporter about the coming gubernatorial campaign or his own candidacy. Regarding national affairs, Mr. Stone said: "The seigniorage is sufficient to keep up the present coinage ratio for a year or so, and monetary matters will be lost sight of during the tariff discussions which are shortly to come before both houses at Washington. The Chicago platform and the character of the men who compose the Ways and Means Committee seem to indicate that many radical reductions are to be expected in the new tariff bill now in preparation. To introduce a bill is one thing while to make it an act is another. With such a warning as the recent election results have shown, I do not think a radical tariff reduction bill could be made a law, even though both houses are Democratic."

Smallpox.

The local Board of Health has received notification from the State Board of Health that smallpox is epidemic in the eastern section of the State, in Berks county. This disease is a contagious eruptive fever. The contagion is transmitted by the atmosphere and direct contact. The eruption appears first upon the face and forehead. By running the fingers over the surface little elevations are noticed, appearing like shot under the skin. Redness increases and this elevation becomes a vesicle filled with a milky substance which becomes pustular. The pus thickens, and upon the surface is found a scab. Providing the pus does not penetrate below the true skin there is no permanent scar. Complications of the respiratory tract are most dominant.

Home treatment: Keep the patients by themselves. The attendants should bathe daily in carbolic water, and should not mingle with other people. The diet should at first consist of milk, no animal soups given until fever subsides. In profuse sweating with great prostration give two drams of whiskey in a glass of milk three times per day. During convalescence keep the patient in the same room as before; do not bathe until the scabs have dropped off. To disinfect the room, close it and burn sulphur for half a day. The families who have been exposed should keep out of society for three weeks.

Preventives: Vaccination. Externally: Liberal application of Soap and water. Internally: Use of cinnamon two or three times per day.

PRESTON STEELE, M. D.

"Doc." Haggerty Heard From.

The greater number of our readers and especially those living in Pleasantville, says the Record, have a distinct remembrance of one Doc Haggerty and a glycerine explosion which about five years ago created a sensation in this neighborhood. The explosion took place all right enough on the morning of Nov. 25, 1888, and people quite generally believed that Doc Haggerty was blown to the everlasting winds although a few who were better acquainted with him mooted the question of his being "in it." One of the strangest features of the case was, that no part of Haggerty's remains were found. True it is that some flesh and strips of his overcoat were picked up, enclosed in a coffin and sent to his home and buried with due respect and ceremony but no one who examined the small particles of flesh could say that it was not horse flesh, or that it was human flesh; and there was not a piece of bone that resembled any part of a human frame. From time to time rumors have been afloat to the effect that Haggerty had been seen, but most people around here gave them no credence. Recently, however, a former resident of Pleasantville, now in the Virginia oil field, and reliable authority, stated that he saw Haggerty very frequently in West Virginia and Pittsburg. On being questioned as to the possibility of his being mistaken in identity, he replied that he had lived a neighbor to Haggerty in Clarendon, for two years previous to his disappearance, and that mistaken identity was no more possible than it would be with his own brother. Further evidence of Haggerty still existing in the flesh is that a brother has told Pleasantville parties that "Doc" was yet in the land of the living.

For a person to insert a piece of fuse with a fulminate cap attached, into a can of glycerine, skip out and explode a load of the stuff with the result of the one in question, is one of the easiest jobs imaginable; but for a person weighing over two hundred pounds to be blown into atoms, without trace of a particle visible to the naked eye, is something which has never yet happened in connection with explosions of this nature.

NEWSY NOTES.

Snow all the way from one to three feet in depth was reported along the line of the Dunkirk road last Thursday. Trains were blocked for several hours between Buffalo and Dunkirk.

Captain R. W. Hunt, president of the Ferris Wheel company, was in Pittsburg recently. It was learned that George W. Ferris, the originator of the big Midway Pleasure attraction, and the construction company that built it are out \$62,000.

A writer says whenever a horse driven by him has balked, he has got out of his carriage, gone to the horse's forehead, lifted it from the ground, and struck the shoe a few blows with a stone. He has never failed to start a balky horse in this very simple way.

Report of the Guiltonville school for the month ending Nov. 10, 1893. Number enrolled 25. Percent of attendance 93. Those who were present every day are Dora Meyer, Eva West, Carrie, Ellen and Kate Grubbs, John, Jas and James Meyer, Willard, Chapin, Gerald and Walter Hamilton, Arthur Matha, Will Dotterer, Allen and Clarence Grubbs.

HARRIET E. GREEN, Teacher. Boys if you take the trouble to work out the following problem it will show exactly what people think you are. Place the year of your birth on a piece of paper, add your age at your last birthday last year, not this, multiply the result by 1,000 and subtract 87,423. Substitute for figures letters of the alphabet, a for 1, b for 2, c for three and read the result very carefully.

The Franklin News says: Judge Farst, of Centre county has rendered a decision that a person has a right to kill a dog found trespassing on his or her premises. A case of this kind was tried at the November term in this county, when Mr. Pettigrew, of President, will answer to a charge of cruelty to animals on account of shooting a dog that he alleges had repeatedly trespassed on his property and shown signs of vicious disposition.

Col. W. J. Hallings and brother, Wade have gone to Phoenix, Arizona, where the Colonel will engage in the irrigation business in the Salt river valley. The company of which he is a representative has secured the control of a stream of water in the vicinity of Phoenix sufficient in quantity to irrigate 100,000 acres of land. Wade will engage in law business in Phoenix a city that four years ago numbered 2,000 inhabitants, and which at the present time has a population of over 12,000.—Emlenton News.

A very novel sight that is seldom witnessed in Kintanning, was a drove of flock of 800 turkeys, which were driven to town on Tuesday by Thomas Burns, of Dayton and shipped by freight from here to the Eastern market. The turkeys were bought at different places along the route and were driven along much the same as sheep. In loading them into the cars an open shed is built into which the turkeys are driven. The only outlet from this shed leads into a car where the turkeys are driven and boxed for shipment.—Free Press.

Gloves that are but slightly soiled may be easily cleaned by the exercise of a little patience and care. The best way to do this is to place the glove upon the hand, wet a piece of clean flannel with benzine, and wipe the stained part very slightly and carefully. As soon as the flannel shows any sign of discoloration, take a new portion. Do not rub the gloves at all or the color may be ruined but wipe gently with tips of the fingers toward the wrist. The smell of the cleaning agent will be gone as soon as the glove is dry.—Good Housekeeping.

A religious paper tells how a clergyman put an effectual stopper on several members of that class of people who annoy others in church by giggling and talking. He paused, looked at the disturbers and said: "Some years since I was preaching, a young man who sat before me was continually laughing, talking and making unorthodox grimaces. I paused and administered a severe rebuke. After the close of the services a gentleman said to me: 'Sir, you made a great mistake; that young man is an idiot.' Since then I have always been afraid to reprove those who misbehave themselves in chapel, lest I should repeat that mistake and reprove another idiot." During the rest of the service there was good order.

—The Best Plaster—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by Siggins & Herman.

BARNETT, TIONESTA.

November Days.

November is a month of rainy, disagreeable days. The damp cold air penetrates everywhere and chills the blood, laying the system open to the danger of colds, pneumonia and kindred complaints. There is but one remedy that stimulates the system and fortifies it against such attacks, and that is whiskey. Not such a whiskey as is generally peddled on the public, but a whiskey of known purity and quality. Such a whiskey is Klein's Silver Age, Duquesne or Bear Creek Whiskeys. These whiskeys have been before the public for many years and find favor wherever purity is required. Physicians prescribe them; hospitals use them, and every reputable dealer sells them. They are for sale at \$1.50, \$1.25, and \$1.00 per quart respectively. Send for a catalogue and price list of all liquors unaltered. All goods neatly boxed and expressed anywhere. Address, Max Klein, 82 Federal street, Allegheny, Pa.
