

Republican State Ticket.

Congress-at-Large, Hon. GALUSHA A. GROW, of Susquehanna County.

GALUSHA A. GROW NOMINATED.

The reconvened Republican convention of August 10 last, to nominate a candidate for Congressman-at-large to fill the unexpired term of the late Gen. William Lilly, was called to order at 12:15 in the opera house at Harrisburg, Wednesday, Jan. 4, by Permanent Chairman H. B. Packer.

The work of the convention was simplified by the withdrawal of all the candidates except the Hon. Galusha A. Grow, and his nomination was made by acclamation amid the greatest enthusiasm. The old "war horse" of Republicanism was brought forward after the nomination was made and delivered a short but most stirring address, showing that the fire of his younger days was still there.

THE PLATFORM.

Resolved, That the Republican Convention of Pennsylvania, recalled to nominate a candidate for Congressman-at-Large, needs not be reminded of the fact that this is a representative office, that the situation in Washington gives it not only State but National importance, and that it invites the fullest possible expression of the public view on Tuesday, the 20th of February next, to the end that all our land may know the tenor of current thought upon the most immediate and vital issue presented in the Wilson bill.

The simple anticipation of this measure has closed thousands of workshops. It has reduced to idleness two millions of workmen and soap houses now displace former hives of industry.

It has reduced values to an amount greater than the National debt. It will enlarge the free list only upon products which employ the greatest number of American workmen.

It will strike with equal cruelty the farmer, the miner, the lumberman, the iron worker, the glassworker and the textile worker.

It will transfer work from our own mills, mines and workshops to those of foreign countries.

It is sectional in its authorship, and is all too plainly aimed at Northern industries.

It strikes southern industries only where the same blow reaches greater Northern industries.

It fosters the plantation system and destroys the farm.

It is an attempt upon free traders of the South to reduce the industries of the North to the level of those of the South.

It is vicious in its change from specific to ad valorem duties, the latter inviting foreign undervaluations and leading to constant and cumulative frauds upon the revenues.

It is vicious in reducing instead of increasing revenues.

It will reduce the revenues many millions of dollars, and the reductions will grow with time.

It is vicious in compelling the Government to make up these deficits by means of increased internal and direct tax.

It is doubly vicious in compelling its supporters to resort to the most odious war taxes or borrow money.

It is wholly erroneous in the theory that the less work there is to do in this country the higher will be the wages of the workman.

The protective policy conveys the opposing thought, and says that the policy which secures the largest amount of work at home is the one which secures the best wages to the home workman.

If the Wilson bill does all those things in the threats which it conveys, what will it do in its fruition?

The Republicans of Pennsylvania, and the people of our great Commonwealth as well, declare war upon it, unceasing war in House and Senate, and its Senators and Representatives in Congress, including the Congressman-at-Large nominated to day, are requested to make this warfare felt in every wise and patriotic way, to the end that by the defeat of the Wilson bill American workmen, producers and manufacturers may resume that prosperity which the country had a single year ago.

The defeat of the Wilson bill and the consequent retention of the protective system will bring this prosperity within thirty days, not alone to the farms, mines, furnaces and mills and workshops of Pennsylvania, but to every section of our country heretofore devoted to development and improvement. It will restore values, and in all ways contribute to the welfare of the land and the happiness of the people.

Resolved, That Pennsylvania's recent majority of 134,000 was a most emphatic endorsement of our party's National and State platforms, both of which are now reaffirmed, with the additional declaration that the Republican party favors the long-established policy of our republic to encourage sister republics however weak, and foster the spirit of liberty wherever its fires are kindled, so long as this can be done without promoting or encouraging "dangerous foreign alliances," and in this connection we denounce the unpatriotic foreign policy of the Democratic national administration in the Hawaiian matter.

Is nominating ex-Speaker Grow, the Republican State Convention displayed commendable wisdom. The nomination is certainly the most satisfactory one that could have been made.

It is seldom, indeed, that there is such unanimity of sentiment as is expressed on all sides over the naming of Mr. Grow.—Blissard.

At the recent meeting of the State Committee the time fixed for holding the Republican State convention was May 23, at Harrisburg. The date is a trifle earlier than usual.

WHAT if the Republican administration had proposed a new "bonded debt of \$200,000,000," where would the Democratic editors have stood on the question? Why every mother's son of them would have needed a cast iron windpipe in less than three weeks, so great would have been the howl against it. But when Grover says "thumbs up" up they pop.

THE New York Independent, in a very able editorial on the report of the majority on the Ways and Means committee on the Wilson Tariff bill, winds up in the following caustic remark: Great is Tariff Reform! It shows how we can give away our home market and secure more of it; how our industries can be benefited by having their possible profits cut down to the vanishing point; how with our markets filled with foreign goods our employes will have staidier employment in making the same articles; how our laborers can have their wages reduced from fifty to sixty percent, and become larger consumers; how our mills may be closed and our industries stimulated; how we may give away both penny and cake and profit by the transaction.

—About a year ago I took a violent attack of the grippe. I coughed day and night for about six weeks; then my wife suggested that I try Chamberlain's Cough Remedy. At first I could see no difference, but still kept taking it, and soon found that it was what I needed. If I coughed, or it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I take pleasure in acknowledging the benefit I have received from it.
