The Councils of Meadville, after ineffectual efforts to come to an agreement with the water company of that place, have decided to submit to the voters the question of bonding the town for water works. It is possible to take the water from French Creek.

The figure 9 in our dates is with us and has come to stay. Few men or women now living will over date a document without using a 9. It now stands third-1894-where it will remain six years. It will then move up to second place-1900 and there rest for one hundred years.

The 10th annual reunion of the 105th Penna, Volunters will be held in the court house, in Brookville, on Wednesday, October 10. A good turnout of the members is expected. All old soldiers are cordially invited to meet with the 105th, and enjoy a good day and evening.

The great railroad strike will result in ome good. It has directed the attention hitching up one of H. E. Gillespie's of the country to the Pullman Company's methods, and the outcome will probably be a measure passed by Congress regulating the charges for riding on these cars, so that travelers will not have to pay fare and hire the porter besides. There were teachers' institutes held

during the past scholastic year in sixtysix counties and four cities. There were 349 days devoted to the work. The number of teachers in attendance was 19,845; school directors present, 4,208; instruc-tors, 505; lecturers, 215. Total receipts, \$57,719.70; total expenditures, \$55,343.84. Chinese justice is a very searching article. If a cashier embezzles, they don't fall back on his bondsmen, but on the cashier, whose head is promptly cut off. A man who recently killed his father was executed, and along with him his school-

master for not having taught him better.

If school teachers in our land were thus

held responsible for the malefactions of their former pupils, teachers would be scarce and wages would climb. The revival in the Methodist church at East Brady last winter was the greatest that has been held in that place for many years, about 170 persons resolving to change their manner of living. News. Jonathan Reynolds, of Mead, was in the city to-day and, in speaking of the extremely dry weather which this section is now experiencing, said: "Fifty-three years ago this summer was the dryest season I ever saw. Our people were six weeks without a particle of flour in the house. We had to depend those days on water as the power for grinding, and there was none whatever for such use." Those who believe that the destruction of the forests is causing our "dry seasons" can debate this question in connection with the "strike,"-Meadville
