THE TOWN OF PARRISH BURNED.

Seven Million Feet of Lumber and
Fifteen to Twenty Houses
Gone up in Smoke.

Meagre reports have reached us of
the total destruction by fire of the
busy little town of Parrish, on the
extension of Tionesta Valley Rail-
road, in Jenks township, on Wednes-
day night, or early Thursday morn-
ing, of last week. About 7,000,000
feet of hemlock lumber, several
thousand shingles, the shingle mill,
seventeen dwelling houses, the gener-
al store and postoffice, succumbed to
the flames. The large saw mill, only,
being saved.

About four years ago Mr. Robert
Parrish began lumbering operations
there, since which a stirring and busy
community has been built up. We
are not informed as to the amount of
loss entailed, but learn that the lum-
ber was insured for \$29,000. The
work of re-building has already be-
gun, we understand. It is thought
the fire originated from the fire pit,
at least there was where it was first
discovered. The saving of the mill
was due to a favorable wind.

—The fourth and last quarterly
meeting of this Conference year will
be held at the Nebraska M. E. church
Saturday and Sunday, August 18 and
19. Services Saturday at 8 o'clock
p. m., at which time Presiding Elder
Rev. C. O. Mead will preach.

—The shower of Monday morning,
between 6 and 7 o'clock, was the
most copious we have had in more
than six weeks, but it lasted only
about 15 minutes, and soaked the
ground barely an inch beneath the
surface. Yet it was oh, so welcome.

—Mr. J. B. Erb of West Hickory,
calls our attention to an error which
occurred in an item among the news
notes of our last issue, in connection
with election of Governors from Cen-
tra county. Our item stated that
William Bigler was Governor in
1848, whereas it should have been
1852. Mr. Erb can give many interest-
ing reminiscences connected with
the gubernatorial contests as far
back as 1830, all from memory.

—The almost universal use of
lightning rods so long is an evidence
of how far the masses of mankind
may be mistaken. An exchange re-
marks that since the discovery that
the rods are in many instances a det-
riment to dwellings in place of pro-
tection, they are fast disappearing.
More disaster was created than aver-
ted by the use of the so-called pro-
tectors. A few good trees in the
yard is a better protector than a
house covered with rods.

—C. M. Arner through his real es-
tate agency, sold to A. E. Moore, of
Butler county, a 75-acre farm, for-
merly belonging to Hon. C. W.
Clark. The property is located near
Hunter Run, on the opposite side of
the public road from Mr. Clark's, and
is known as the old Snyder place.
Mr. Moore has commenced the erec-
tion of a house and will put up
other buildings forthwith. We are
pleased to welcome him to citizenship
in our county.

—Repairs now going on in and
about the court house will make a
decided improvement in the comfort
and appearance of that temple of
justice. New steel ceilings, new
handsome in design, have been placed
in the Sheriff's, Treasurer's and Com-
missioners' offices, the jury rooms are
being repainted and wainscoted, and
the court room plastering and fresco
ceiling repaired. New floors and
joists are also being put into the
Commissioners' room. All these re-
pairs have been badly needed for
some time, and will doubtless be
much appreciated.

—Friends of the family here re-
ceived the intelligence by wire of the
death, yesterday, of Viola, wife of
our former townsman, Halbert W.
Roberts, at her home in Mayville, N.
Y. Mrs. Roberts had been an invalid
for the past five years, during which
period she was a great though patient
sufferer. Through it all her husband
provided every means in his power to
alleviate her suffering and make her
life as comfortable as possible. Her
home was formerly in Sherman, N. Y.,
where the internet will take place
30 years. Mr. Roberts has the sincere
sympathy of his many friends here in
this hour of deepest sorrow.

—Men's fine dress shoes, \$1.25 at
Ledeber & Miles'.

—A large line of summer goods
for sale at Barnett's at actual cost.
Come early.

—The excursion to Chautauqua
Lake to-morrow bids fair to be well
patronized from this section. The
train leaves this station at 7:45, go-
ing by way of Oil City. Fare for the
round trip \$1.25. Two children un-
der the age of 12 years can ride on
one ticket. The program for to-mor-
row at the Assembly ground is as
follows: 11 a. m. Address of wel-
come by Bishop Vincent, response by
Master of State Grange. Address by
Prof. L. H. Bailey, of Cornell Uni-
versity. Subject "The University
and the Farmer." 2 p. m. Address
by Gov. Flower, 2:30, Address by
Hon. Jas. A. Mount, of Shannondale,
Indiana. Subject, "The future of
Agriculture in the United States im-
peratively demands of the farmer a
higher standard of intelligence."
Music by soloists, quartette and band
will be provided by the Chautauqua
management, a guarantee of excel-
lence.

—The annual taxes of the world ag-
gregate the enormous sum of \$4,500,000,000.
The time of holding the Bucktail re-
union at Kane has been changed from
August 23d and 24th to August 29th and
30th.

—Lancaster has three sisters whose com-
bined ages amount to 293 years, and
are living at the Fulton House and are:
Mrs. Margaret Ewing, aged 92; Mrs.
Elizabeth Zell, aged 94; and Mrs. Mar-
tha Morrison, aged 97.

—Meadville has an architect, contractor
and builder who never attended school a
day in his life, and can neither read or
write. And yet he can figure out the
amount of material needed in a building
and seldom misses his calculations.

—Cambridgeport, Pa., has a practical il-
lustration of the eternal fitness of things.
A prominent butcher of that place re-
joices in the name of Bullock, the lead-
ing undertaker is named Coffin, while
one of the milk vendors is called Waters.

—A young man of Sherman lately adver-
tised for a wife and his sister answered
the advertisement, and the young man
thinks there is no balm in advertise-
ments; and the old people think it is
pretty hard to have two fools in one
family.

—The Commissioners of Clarion county
have let the contract for the erection of
a new bridge across the Clarion river at
the mouth of Tobey creek, to take the
place of the old covered bridge blown
down last spring a year ago. The new
bridge will cost \$12,000.

—The Armstrong county gas field is now
said to be the greatest discovered. It is
more productive, proportionately, than
the famous Murrayville field. The
Philadelphia company has over thirty
thousand acres leased in this county. At
present this company has seventeen
wells in course of drilling.—Kittanning
Sentinel.

—Col. F. W. Bowen, of the Oil City Bliz-
zard, has charge of the arrangements for
this part of the country for an excursion
to the Holy Lands which will start in
February next and will be of about two
months duration. As the Colonel him-
self will accompany the party, the ques-
tion as to whether there really is any fish
to be caught in the Dead Sea is at last
looked for a searching and abiding set-
tlement.—Titusville World.

—Flem Schreengost was shot by Wm.
Blanchard who lives in the hollow back
of the station last Friday night. Schre-
engost and a crowd of companions had
gathered about Blanchard's residence and
were annoying him in various ways.
Blanchard warned them to leave repeat-
edly, and at last when Schreengost
caught a cat and was making night hid-
dens by tormenting it, Blanchard could
stand the racket no longer, and fired at
Schreengost, killing the cat and wound-
ing Schreengost severely.—Kittanning
Free Press.

—The statement made by Gen. Roy
Stone of the Agricultural Department,
before the National Good Roads Confer-
ence at Asbury Park, that the farmers of
this country lose between \$600,000,000 and
\$700,000,000 yearly from being compelled
to haul their produce over poor roads,
show the practical importance of the
good roads movement. Good roads
mean not only speedier means of com-
munication, but longer service from
horses and vehicles. They are another
way of making the labor and capital of
farmers more efficient.

—Professor Richard Garner who went to
the Gorilla country in Africa to try and
garner a few words of monkey talk, is
reported as saying: "If I was only sure
of learning three words a year, I would
forsake friends and family, go to Africa
and devote the rest of my life to a study
that yielded such rich results in the
present and promised such immense pos-
sibilities for the future." The monkey
who has no more brains than to talk of
forsaking his family for such small busi-
ness should be able to talk the language
readily without going to Africa.

—The most dangerous counterfeit of United
States money discovered for years is
announced from the treasury department to-
day. Because it is so difficult of de-
tection from the genuine note the counter-
feit is described in minute detail by
the secret service in order to put the pub-
lic upon its guard. The counterfeit is of
the \$10 legal tender note, series of 1880,
check letter B, face plate number 2290,
back plate number 2292, signed by W. S.
Rosencrans, register; James W. Hyatt,
treasurer, and bearing a portrait of Web-
ster and a large and round red seal.

—There arrived at the Clarion House one
night last week a bicycle rider whose
achievement on the wheel surpasses any
thing previously accomplished in the
way of cross country riding. Mr. John
Dorn, whose home is in Springfield,
Mass., and who is a young man of about
21 or 22 years, started from Cheyenne,
Wyoming, on the 8th day of July and
reached Hildway in just 27 days. The
distance made in that time is 2200 miles,
being an average of 105 miles per day.

East Hickory.

Derrick Correspondence.]

The entertainment in Whitton's Hall
was a financial success.

—A large number of Free Methodists are
attending camp meeting at Meadville.
Berries are getting quite scarce. The
dry weather is destroying them.

The well on Hickory, being drilled by
the Forest Gas Company, is down some-
thing over 500 feet.

A son was born to Mr. and Mrs. Jas.
Church on Friday.

John Taft has moved his family to
Queen, where he has a large contract for
Wheeler & Dusenbury.

The Macabees installed their officers
on Saturday evening and elected one
member.

Ell Berlin is having his buildings all
repainted, which makes a great improve-
ment in their looks.

Ernest Taft almost severed the ring
finger of his left hand with an axe on
Saturday, but with care the finger can be
saved.

Squirrels are beginning to appear in
large numbers in the woods about here
and rare sport is expected when the sea-
son opens. One person saw twenty-five
in passing through one strip of timber.
They appear to be scattered and are
working on red oak acorns.

Owners of bicycles who have been
made the objects of successful or unsuc-
cessful attempts to steal their machines
will be interested in the statement that a
regular business of bicycle stealing is
carried on and that an establishment in
Chicago deals exclusively in stolen ma-
chines. The practice is to remove the
numbers on the bicycles and in some
cases parts of the various machines are
interchanged so as to utterly destroy the
identity of the wheels. The concern is
said to have agents in various parts of
the country, and it is not surprising to
learn that the business of dealing in
stolen machines is a large one, consider-
ing the freedom with which they are left
exposed, and that it must be profitable
in view of the value of the wheels goes
without saying.
