

ELECTION RESULTS.

REPUBLICANS SWEEP EVERYTHING

In Pennsylvania the vote was very heavy and returns have been slow in coming in, but enough has been received to indicate that Hastings is elected by the largest majority ever given a candidate in the state. State Chairman Gilkeon claims the state by over 200,000, while the official returns may swell it to 250,000. The Republicans will probably have 24 of the 28 Pennsylvania Congressmen in the next legislature with a total of 218 members in the next House of Representatives. Griswold in the Crawford-Erie district is elected over Sibley by an estimated majority of 1500.

NEW YORK.

The Republicans have carried the state by estimated pluralities ranging from 130,000 to 150,000, and for the first time in many years will control the State legislature. Strong, Republican candidate for Mayor of New York city is elected over Grant, the Tammany leader, by 42,000. Tammany has given up all hope of carrying a single office.

OHIO.

The greatest Republican victory in the history of the party was achieved in Ohio. The Republicans claim 17 of the 21 congressmen. Tom Johnson of free trade fame is defeated by 5,000.

OTHER STATES.

All indications point to the defeat of Congressman Wm. I. Wilson in West Virginia. In New Jersey the Republicans claim 6 of the 8 Congressmen, the Democrats concede 5. A Republican U. S. Senator will be returned to succeed Senator McPherson. Returns from nearly all of the states voting yesterday, indicate Republican gains.

FOREST COUNTY.

Forest county from returns that have been received at this time clearly show that the majority for the Republican state ticket is the largest ever given. It will be from 400 to 500. All of the candidates on the county ticket are elected by majorities ranging from 300 to 500. Wm. C. Arnold, candidate for Congress and Jno. F. Craig for State Senate will have a majority of 400 to 450 in Forest county. As no returns of other counties in this Congressional and Senatorial district have been received, it is impossible to determine what the result is, but from present indications there is good reason to believe that we have won both. Official returns will be given in full in our next issue.

PUNTSUTAWNEY SMITH who was himself a candidate for the Legislature and should have been and probably was elected, very truthfully asserts: "The American people have not yet quite outgrown the contemptible notion that when a man is nominated for office it is the duty of the opposition to begin slandering and traducing his character at once. This habit of the wholesale abuse of candidates is pernicious as well as mean and vulgar, because it helps to spread and perpetuate the dangerous doctrine that all men are corrupt and rotten at heart, and that the only difference is that some succeed in concealing it more effectually than others. The truth is that most men love honor and integrity and hate dishonesty and corruption, and this notion that every man is a knave, and that all that is necessary is an investigation of his character to find that out, is degrading and demoralizing to mankind in general. It is safe to assert that nine-tenths of the stories circulated about candidates are lies, or such perversions and distortions of little things as to make them appear hideous. It is safe to assume that a man who is not known as a bad man until he is nominated as the candidate of some political party, and has always had the respect of his neighbors, is all right."

The following is the Thanksgiving proclamation of Gov. Penneyer, of Oregon and is probably the shortest ever issued. "I hereby appoint the last Thursday of this month a Thanksgiving holiday. In the day of prosperity, be joyful, but in the day of adversity, consider.—Ecclesiastes VII. 14."

Then why stand in your own light
This is of Personal Importance to You.

We can and will save you money. This is an age of progress and advanced methods. There was a time when all a merchant had to do was to tack 25 to 50 per cent. profit on his goods and wait for his customers to come to him. Those times are past. Business cannot be done successfully in that way. Instead of the liberal profits of the past, we must have large sales and small profits. We've got to hustle for all we get, and we find that the only way to keep our trade constantly increasing is to undersell all competitors—give our trade better values than can be found elsewhere.

Where else can you find such values as these:
