The Late Henry O. Davis.

Henry O. Davis was born in Allegheny county, N. Y., October 31, 1823, and died at his home in Tionesta, Pa., Nov. 10, 1894.

When about the age of 18 years, the subject of this sketch, accompanied by his brother, came to this section of country and first located at what is now Sheffield, in Warren county. The two brothers afterward came to Coon creek, near the present village of Nebraska, where they worked in the lumber woods for a number of years. Afterward, about the year 1860, Mr. Davis moved to Farmington township, Clarion county, and for a number of years followed farming. In 1865 he formed a partnership with Charles Leeper in the mercantile business, locating in Tylersburg, the firm name being Leeper & Davis. In this pursuit he continued until 1871, when he sold his interest to his partner and moved with his family to Tionesta.

During his residence among us, his straightforward, honorable career as a citizen is so familiar to our people that we need not attempt to add anything in his praise. For many years he followed river lumbering, and until the infirmities of age, and the hard work and exposure to which his business in younger days subjected him, and began to tell on his constitution, he was one of the most successful pilots on the Allegheny or Ohio rivers. Of a quiet, unassuming disposition he bore in a marked degree the esteem of all who knew him; a man of unflinching honesty and integrity he had the confidence of everyone. Surely a good citizen has gone from among us. He was afflicted with no special disease—simply a wearing out of the constitution.

Mr. Davis was united in marriage in 1840, with Elizabeth Butler, who died Aug. 25, 1887. To them 9 children were born, three of whom, Charles R. Harry and Edith, survive to mourn the death of a loving and affectionate father.

He had been a member of Clarion Lodge, I. O. O. F., for many years being in good standing in that order at the time of his demise. On Saturday last at 2:00 p. m., Tionesta Lodge turned out in a body, and conducted the funeral services at the grave, there being near fifty members present. Rev. W. W. Dale officiated at the services held at the house, and assisted in the ceremonies at the cemetery.

Killed While Skidding Timber.

Saturday morning, November 10th, Samuel Henry was engaged with several other men in skidding timber for W. A. Crossman of Redelyffe. They had rolled a stick on the third tier and Mr. Henry was about the center of the stick and had driven the grabs for sliding the timber to place with a team of horses. The grabs had not been properly placed, and when the horses were started the stick of timber rolled back instead of sliding forward, and crushed Mr. Henry under it. Death was instantaneous. Mr. Henry was a single man, about twenty-seven years of age. The body was taken to his home at Perryville, Jefferson county, for burial.—Marienville Express.

Kellettville.

A. B. Hurd & Co., of Erie have a rig up on the J. C. Schooley lands, about a half mile above Kellettville, on the public road leading to Mayburg. They expect to begin drilling this week. Mr. Hurd has been the owner of this lease for several years, and a few years ago the territory was a paying one. This is the same lease on which the forest fire broke out and burned down 11 derricks early in the fall. They expect to sink two wells.

No. 74, on the Cook lease is down about 800 feet. This may be the last well drilled on the lease this fall as there are no preparations being made for the building of another derrick, although there are 3 or 4 locations cleaned off ready for the timbers.

L. Pierson, who had a contract of skidding 50 thousand feet of pine square timber for Collins & Siggins, 4 miles up Bobbs Creek, has given up the job and returned home. Collins & Siggins are making 160,000 ft. of pine on the L. F. Watson tract.

John and August Charleston of Tionesta have taken the job of skidding and delivering to Tionesta about 1 million feet of hemlock for Robinson & Weant, and Gulton timber, about two miles east of Newtown Mills.

The work of grading on the railroad is fast being completed, and in less than two weeks the rails will be laid to this place. At this writing the graders are in the cut at Whitman & Bowers old mill seat; by to-day, (Tuesday) the track layers will be at the mill.

On Saturday R. J. Flynn of Newtown Mills received a telegram from New Castle stating that his mother had died at that place on Friday at 4:30 p. m. The deceased was well and favorably known in this county, having lived in the vicinity of Newmansville for over 40 years, her husband, Mr. Christopher Flynn, being one of the first settlers in Green township. Funeral services were conducted by Rev. Father McNee, of St. Michael's Roman Catholic church, on Tuesday morning, after which the remains were laid beside those of her husband, to await the resurrection morn. Those present from here were T. P. and R. J. Flynn

and their wives, Mrs. M. J. Miller, J. R. Flynn and J. C. Miller.

Adam Frederick has disposed of his house and lot to Harry B. Dotterer. Consideration \$85.

A select crowd attended the ball at Proper & Myers' hall on Friday evening. The attendance would have been much larger had it not been for the inclement weather. Music was rendered by the German Hill band, and supper at the Brooklyn house.

Mr. and Mrs. Thos. Gilooly's young son has been quite sick for the past week. The child is under the care of Dr. Webster.

The Kellettville branch of the W. C. T. U. intends giving a silver medal contest about Dec. 15, next. There are 8 ladies preparing for the prize; the contestants are Maude Weller, Sallie Wilson, Jennie Pierson, Edna Johnson, Nellie Shaffer, Lena Eaton, Kate Wolf and Hatie Chamberlain. Miss Green, of West Hickory, is teaching the class, each member gets one lesson a week.

Al Richards was up from Tionesta to visit his parents.

Mrs. A. V. Deshner and daughter are visiting friends at Cherry Grove.

John Brennan got his arm quite badly mashed by letting a pipe fall on it at the deep well one day last week.

NEWS NOTES.

Attorney General Hessel has given an unofficial opinion that the marriage law of 1885 is still in force.

Charles Bunnell, of Pittsburg, after lying in jail a year at Youngstown, charged with stealing a bicycle, proved his innocence Saturday and was released.

State College, Pa., has established an agricultural Chautauque course, a university extension and a creamery and butter-making course, to run during the winter months.

George S. Good, of Lock Haven, Pa., and James Kerr, clerk of the National House of Representatives, have secured the contract to construct 120 miles of railroad in Oklahoma.

It is reported that Henry A. Wassor, of Greenville, a salesman who has been with the firm of P. Minnig & Co. for the past two years, has fallen heir to a fortune of \$40,000 by the death of a relative in Germany. Mr. Wassor has been on the road for 19 years. It is added that he will leave soon for Germany to claim his fortune.

The old war Governor Andrew G. Curtin is to be immortalized in marble, a monument is now being started to erect a monument to him by the old soldiers of Centre county. The tablet is to cost \$25,000, to be built of the finest marble, surmounted with a figure of Gov. Curtin and will be erected in the public square. Financial assistance has already been tendered by the various soldier organizations of the State.

It has been noticed among sportsmen in many parts of the country that the ruffed grouse, or common pheasant, is very scarce. An exchange says: "The cause of the scarcity is because the eggs are stolen by parties of chemists who use portions of the eggs in making a drug, which is very rare. A man with six boys and seven fine bird dogs was in the vicinity of Beranton last summer and collected 10,000 pheasant eggs. This is why pheasants are hard to find."

Harry Campbell, a former Clarion county farmer, who about fifty years ago went to California, in a private letter to a friend here gives an account of his crops for this year as follows: "My fruit crop this year is very good; nearly 100 tons of green fruit. I had 25 tons of apricots, 10 tons Bartlett pears, between 50 and 60 tons of peaches, 2 1/2 tons of almonds besides some figs, prunes, cherries, etc. And all this from a 20 acre farm. A pretty good crop, ain't it?"

"Family jars" of the kind mentioned in the following item from the Blizard should be studiously avoided: As a general thing glass will not digest well on a case from stomach, and persons should carefully examine jars made of that material before using them for fruit or berries. Last evening a family in this city fortunately discovered several small pieces of glass in some preserved fruit which they were about to devour and upon examination found that a thin coating of glass had become loosened from the inside bottom of the jar which had contained the fruit.

The recent state convention of county commissioners took favorable action toward the passage of a law requiring constables to make returns to court only when they have violations of law to report in their districts. They assumed that a constable should either be diligent enough in the discharge of his duties to find some violations of the law to report, or he should stay at home when the time arrives for making his return. The plan of having all the constables of a county report at court every three months, when only a few of them have any thing to report is not a good one and involves a useless expense, was the opinion of the convention.

Miss Sallie Maclay, formerly of near Curtisville, this county, but now a resident of Missouri county, Montana, has just gone through an exciting and most pleasant contest with another lady for the position of county superintendent. The candidates were driven over the county by their admirers and an occasional collection was lifted to defray expenses. The candidates thoroughly enjoyed the campaign. Strange to relate Miss Maclay was on the Democratic ticket. Her father was elected to the State Senate from this district in 1872.—Clarion Jacksonian. Many of our older citizens well remember the election of Hon. David Maclay to the Senate.

Warren county is taking steps in the direction of getting something out of the people it has heretofore boarded for nothing. The Mirror says: It is learned from an unofficial source that the county commissioners contemplate at no distant day greeting in connection with the jail an enclosure wherein vagrants and other persons confined in the county jail on

SENTENCE CAN BE PUT TO WORK BREAKING STONE.

A special act of assembly for Warren county passed in the year 1867 endows the commissioners with power to go ahead with such a project, stipulating only that the prisoners shall be placed at such employment as will produce the greatest amount of benefit to the taxpayers of the county.

An exchange says: One day last week a farmer from south of town came to our office and complained that bills of different kinds had been pasted on his barns, signs had been pasted on his fences, and without his consent. He wanted to know if there was any law in reference to such matters. We informed him that there was and for the benefit of all we here will publish it. The act was passed June 8th, 1891, and is as follows: "If any person or persons shall, without the consent of the owner or owners thereof, wilfully daub, paint advertisements or post placards upon, or otherwise deface the walls of any building, house or yards, or the fences around the yard or yards connected therewith, or any fences surrounding or enclosing any vacant lot, inlots, farm or farms; or shall cause the same to be done by others; such offenders shall be guilty of a misdemeanor and upon conviction be sentenced to pay a fine not exceeding \$25 and undergo an imprisonment of not exceeding 30 days, or both, or either, at the discretion of the Court." The best way for advertisers to reach the people is through the newspapers.
