COUNTY TREASURER.

ASSOCIATE JUDGE.

We are authorized to announce JOHN J. GREEN, of Jenks township, as a candidate for Associate Judge, subject to Republican usages.

A CHINAMAN has been defeated for Mayor of a town in Nebraska. If he had been in his own country he would have been exempt from military service. He could not run well.

THE Illinois Democracy, or all that is left of it, will declare for free silver. This means that the Republican plurality of 123,000 in that state in 1894 will go up to 150,000 or 175,000 in 1896.

THE wise Presidential aspirant is keeping silent nowadays. Of course this refers to Republicans only. Nothing that any Democrat can say will make his chances of election worse than they are.—St. Louis Democrat.

BISMARCK says that "in politics it is much easier to know what to avoid than what to do." It is evident that he knows nothing about the Democrats. They make just as big blunders in trying to avoid anything as they do in their performances.

So NORWAY and Sweden, Russia and Germany are getting snarled up. If things keep on Uncle Sam will be the only civilized nation that has not done war paint, and even he may have to look ugly if John Bull doesn't settle down to common sense.—Philadelphia Inquirer.

As IF to add to the bewilderment of the income tax situation, enemies of Grover are quoting his message in favor of the tax, while others show his undying opposition as was evidenced by his letter to Wilson. With the Cleveland mind divided how could a court come to unanimity?

A MCGOWAN paper in Massachusetts says it is settled that the Republican party of New York is hopelessly divided between Platt and anti-Platt, and that the Democrats of the state are feeling greatly encouraged. This division may exist and yet not cost the party more than a 'bus load of voters. Platt is a bore.

THE cuckoos, especially the New York Evening Post, that were so horrified over Admiral Walker's implied reflection on Minister Willis, will doubtless praise Mulligan's imprudent attack on Chief Justice Ide, of Samoa, with immoderation, and yet Walker is in no respect a subordinate of Willis, while Mulligan is of Ide. But everything goes under Clevelandism.

A WRITER in the Medical News suggests that epidemics are transmitted in the form of germs accompanying the thousands of tons of meteoric matter and cosmic dust which fall annually upon the earth. One consolation about this theory is that good as well as bad germs can find an entrance, and there is no reason why a feeling of cheerful expectation may not be cultivated in the matter.

DURING the eight months ending February 28 the value of dutiable imports increased \$43,500,000 and the free imports increased \$2,300,000. At the same time the value of exports decreased \$74,300,000. This country is therefore about \$120,000,000 worse off in its trade with foreign nations than it was a year ago. The tremendous increase in imports is due entirely to the new tariff and it represents the business which has gone to the foreigners and of which this country has been deprived by reason of that law. The effect on our manufacturers will be felt throughout the year.

A BILL which ought to become a law has been introduced by Senator Penrose, which prohibits prize fighting and regulates boxing contests. The penalty is a fine of \$1,000 and three months in jail. A prize fight is described as a pugilistic contest upon the result of which any money, prize or valuable thing is wagered. Also any boxing contest which is over six rounds in length, or in which

the naked fists or gloves of less than six ounces in weight are used. All speculators and those not present laying bets on such fight may, in the discretion of the Court, be punished in like measure.

THOSE ELUSIVE MARKETS.

Farmers were assured over and over again that if they would only turn in and elect Cleveland and a Democratic congress prosperity on a scale never experienced by them before would at once be at their doors to overwhelm them with its blessings. Cleveland and Democracy had a scheme for opening up "the markets of the world" to American farm products that was certain to make every farmer rich in almost no time. Beguiled by the alluring prospect, enough farmers were caught by these assurances to insure the triumph of Cleveland and Democracy in general.

There have been two years of it since. The first year showed up poorly for the farmer; but then the administration was so busy turning out the "robber" Republicans to put Democrats in their places that allowances were possibly in order. The second year, however, things would differ, and "the markets of the world" would be just fighting for American farm products. We now have seven months of the second fiscal year to compare with the like seven months of the first fiscal year, but by some sort of necromancy the exhibit made is just the opposite of what should have been expected. Instead of a marked increase in the second year there has been a decided falling off in the demands for American farm products, and the one conclusion to be reached from the showing, therefore, is that the farmer has been fooled.—Onwego, N. Y., Daily Times.

HOW BUYERS ARE CHEATED.

We have time and again drawn the attention of the American people to the fact that the worst goods now being sold in our markets are cheap foreign goods. They have been shipped here by foreign manufacturers in order to compel the makers of American goods to sell their superior products on the same basis of prices as the cheap foreign imitations, knowing that, in order to do this and in order to retain possession of our home market, the American manufacturers must sell at a loss. A striking object lesson has been given in Boston which is described by the Commercial Bulletin, March 23, as follows:

There is now going on in Boston an exhibition, free to the public, that is a better plea for protection than columns of argument. There is still in the minds of the American people an idea that somehow "imported" dry goods are better than American, an idea notoriously false to those versed in the business. Shoddy materials not only in woollens but in silks and cottons are much more generally used abroad than at home.

However, that idea does prevail, and consequently merchant tailors are obliged to sell Hockanum goods as "our latest importations from England," and dry goods merchants label Pacific Mills dress goods "Haute Nouveaute de Paris," and with steady faces get five cents a yard profit on fancy Barnaby gingham from foolish women who want the "genuine imported Scotch plaids."

In defiance of tradition, Shepard, Norwell & Co. have filled their show windows on Winter street, Boston, with American upholstery goods, American prints, plisses and crepons, American gingham, American wool dress goods and American silks. These goods are all labeled "Made in America," and they tell their own story. The expressions of amazement from the crowds about the windows would seem to show that even some of the Free-Trade League have at last had the truth hammered into their skulls.

There isn't an American in Boston who can go away from that object lesson without a feeling of pride in his country. If this article or exhibition itself is of any pecuniary advantage to Messrs. Shepard, Norwell & Co., it is no more than they deserve for a plucky attempt, by an act of practical patriotism, to break down a moss grown colonial prejudice in favor of imported goods, which is really a serious barrier to American manufacturers.

Here is plain proof in a leading store window in Boston that the finest goods in that market are "made in America." Similar American made upholstery goods, prints, crepons, gingham, woolen dress goods and American silks are sold in the United States. Let the American people then demand that these goods be sold under their true names. Ask for the American goods and pay the American prices. Do not let the salesmen palm off upon you a foreign shoddy or cheat you out of an additional five cents a yard to pay for foreign labels.—American Economicist.

"Not a voter in Pennsylvania but has a woman for his mother," solemnly asserts an advocate for woman suffrage in an adjoining county. We are glad of it. As mothers, women suits first rate. Who wants a man for a mother anyway?—Greensburg Tribune.

NEWSY NOTES.

William Reinsley has at Clarksville, Mercer county a remarkable freak of nature in the shape of a chicken with two heads that only differ in the fact that one is bright yellow and the other white. The chicken can eat with either beak. It is apparently healthy.

For the first time in the history of Richmond, Ind., a colored man served on a jury in the county in which Fred Douglas was mobbed several years ago for trying to make a speech. Joe Watkins, one of the best known colored men in the county, was thus honored and placed on the jury. After the mobbing of Douglas at Pendleton he lay for a month at the home of Neal Harty before he was able to get up.

President Cleveland and the members of his cabinet and the Governors of all the states and their staffs have been invited to be present at the big drill in May at Memphis, Tenn. Miss Helen Gould will be invited to act as "sponsor" for the Confederate veterans of that city.

The latest engineering and ship canal idea is to dispense with the 24 locks in the Welland Canal leading from Lake Erie to Lake Ontario, and to make the whole drop of 236 feet between these two lakes in two pneumatic balance locks, built of steel, operated by compressed air, and large enough to admit vessels of ocean draught.

The revenue from the Blair county liquor licenses amount to \$28,550.

Five prisoners escaped from the county jail at Smithport, McKean county, at about 8 o'clock, Saturday evening. The prisoners, two of whom were colored, had made a file from an old knife and with the rudely fashioned tool had filed the lock from the door of a vacant cell, and with the same knife blade they succeeded in loosening a stone in the wall Saturday evening. Just before the turkey entered the corridor they removed the stone and escaped without being observed by the turkey or any of the sheriff's family. They were seen running down King street by a party of Swedes who did not think it necessary to give an alarm.

Mr. Samuel Barnhart of the Neck, below Williamsport while ploughing a few days ago, unearthed the barrels of two old muskets. The muskets are thought to have been left there by soldiers on their retreat from Gettysburg and were found to be loaded.

There are over 200 secret societies in the United States and the total membership is over 4,000,000. The largest is the Masonic, with 890,000; the Odd Fellows come next with 892,000.

Says an old Pennsylvania farmer: "I always know when there is to be a wind storm by watching the turkeys and chickens go to roost each night. In calm weather the fowls always roost on their poles with their heads alternating each way; that is, one faces east, next west, and so on. But when there is going to be a high wind they always roost toward the direction from which it is coming. There are reasons for these different ways of roosting. I take it, when there is no wind to guard against they can see danger more readily if they are headed in both directions, but when wind is to arise they face it because they can hold their position much better. But the cart I can't understand," he concluded, "is how the critters know that the wind is going to rise when we mortals lack all intimation of it."

A New Swindling Scheme.

Here's a new and clever swindle by sharpers: Their scheme is for one of them to enter a store and make a small purchase tendering a \$5 or \$10 bill in payment. He takes the change given him and departs. An hour later two men enter and confidently tell the store-keeper they are detectives looking for a man who is passing counterfeit money. They describe the man and the store-keeper eagerly tells them he has been there within an hour. The bill was produced, pronounced a counterfeit, and is borrowed by the "detectives" who give a receipt for the money and leave in hot pursuit of the suspect. They never come back.—Ez.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It. The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo, it will modify you when to stop. We give written guarantee to permanently cure any case with three boxes, or refund the money with ten per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. Sold by all druggists, with our ironclad guarantee at \$1.00 per box, three boxes, (thirty days treatment), \$2.50 or sent direct upon receipt of price. Send six two-cent stamps for sample box, booklet and proofs free. Eureka Chemical & Manufacturing Company, Manufacturing Chemists, LaCrosse, Wisconsin.

LANSON'S.

DON'T STOP TOBACCO. IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about it. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will modify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or

smoke. An iron-clad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure), \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. Eureka Chemical & Mfg Co., LaCrosse, Wis.

Office of THE PIONEER PRESS COMPANY, C. W. HORNICK, Supt. St. Paul, Minn., Sept. 7, 1894.

Eureka Chemical and Mfg Co., LaCrosse, Wis. Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HORNICK.
