DOINGS AT HARRISBURG.

HARRISBURG, Pa., April 29, 1895.

The past week has been one of unusual activity "on the hill," and a considerable step forward has been made in legislative matters, while several measures received their death blows, not all of which were bad ones, either. One of the very just measures to go down for the lack of a few votes was the bill to provide for a more equitable basis of distribution of the common school appropriation. The larger cities and more populous counties refused to support it, and only ninety-three votes were recorded for it, lacking ten of the constitutional majority. Representative Merrick, who is always found on the side of the people, and for whom the cracking of the whip of the houses has no terrors, made a determined fight for the adoption of the bill, and had his advice been followed there is scarcely any doubt but that the bill would have gone through the House. Tionesta county may well be proud of her zodiac-natured but fearless champion on the floor of the House.

The Donthell bill to organize a State school book board passed the House on Tuesday. It provides for the purchase of books at the lowest possible figure, and after this new board has obtained from the publishers their best figures and submitted the same to the different school boards of the State, the said boards can then adopt the same. In other words, the bill does not compel school boards to adopt these prices if they can do better by private contract. The system shall be in vogue for five years as an experiment should it become a law.

"Greater Pittsburg" raised quite a breeze in the House last week, but the bill passed finally by a large majority. The commercial importance which the greater city will achieve will doubtless extend to all the western portion of the State and Pittsburg will be the fourth great city of the union in a short time if the claims of its friends are realized.

Representative Smith's bill to authorize Justices of the peace to try certain criminal cases with the aid of a jury passed finally in the House Tuesday. A number of the counties of the State are already working under this law, of which Forest is one.

The bill introduced by Representative Harry Mullion, of Cameron county, authorizing county commissioners to sell to actual settlers and convey unseated lands belonging to the several counties. The bill, as the title implies gives to the commissioners the right to sell at a nominal figure these lands which have come into their possession through failure of the owners to pay the taxes, to settlers who wish to possess themselves of a home or farm, making it obligatory on the settler to clear and improve a certain amount within five years from the time in which he buys the land, at the expiration of which period he shall be entitled to receive a deed therefor.

The Ways and Means committee reported the tax conference bill to the House on Thursday, having amended the same by striking from the list of taxables, manufacturing corporations and building and loan associations. The bill will probably come on for discussion in a few days, and no doubt will consume much of the time between this and the adjournment day. It is likely to pass the House. What the Senate may do with it is hard to guess.

Congressional appointment will doubtless have an ending shortly. The sub-committee will report to the general committee early this week a bill which has been practically agreed upon. Philadelphia is given six congressmen and Allegheny three, to which they are entitled. The only change suggested in the State outside these two counties is in the present 28th district, taking Clarion and Forest from that district, and adding them to the Venango-Warren-McKean district.

The bill introduced by the writer providing for the acknowledgment and recording of Surplus Bonds given at Treasurer's tax sales, has passed finally in the Senate and will go to the Governor this week.

Mr. Burrell of Mercer wants teachers who have taught in the public schools for 50 years to receive a pension of ten dollars a month, and his bill to that effect has passed second reading. There is as much justice, and perhaps more, in this measure than pensioning Judges, though the House will hardly adopt it. Speaking of the judge's pension grab, it is just possible that measure will not get through the Senate. It is evident the friends have "smelt a rat," and it is to be hoped they will profit by the opinions so unanimously expressed by the press and people all over the State. Even the Philadelphia papers are beginning to waken.

J. E. W.

BRACKINRIDGE is to be a United States Senatorial candidate in Kentucky on a platform of free silver and "the devil take my adversary." If mud doesn't fly it won't be because Brackinridge isn't in the mire.

THE passage of the Judge's retire-

ment bill through the house at Harrisburg is one of the amazing features of nineteenth century legislation, and the more one thinks of this bold and audacious affront the more hideous does the monster appear. The proposition has actually staggered the people of the Commonwealth, who cannot look upon it as anything other than downright wickedness. What sin are the common people guilty of that they should have so unholy a piece of legislation thrust upon them? Let a halt be called upon this daring proposition before it is too late.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It. The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is to sever a shock to the system, as tobacco, to an inveterate smoker, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, and when you take Baco-Curo, it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with ten per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. Sold by all druggists, with our iron-clad guarantee at \$1.00 per box or three boxes, thirty days treatment, \$2.50 or sent direct upon receipt of price. Send six two-cent stamps for sample box, booklet and Eureka Chemical & Mfg. Co. Manufacturing Chemists, LaCrosse, Wisconsin.

Office of THE PIONEER PRESS COMPANY, C. W. Hornick, Supt. St. Paul, Minn., Sept. 7, 1894. Eureka Chemical and Mfg Co., LaCrosse, Wis. Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keely Cure," "No-To-Tobacco," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HORNICK.
