DOINGS AT HARRISBURG.

HABRISBULG, Pa., May 6, 1895. In the House the past week a good deal of work was accomplished, though among the measures disposed of finally there were none of very great importance. The second reading calendar of House bills has been dropped, virtually, and no more will be considered except those relating to apportionment, appropriations and revenues. There is still a large number to be taken up on final passage, and these, with Senate bills, will give the lower House all it wants to do for the next four or five weeks. If the revenue and apportionment bills were once disposed of there would be comparatively easy sailing, but these will undoubtedly consume a week's time at the very least, and then may fail of final passag

Quay county had an "inning," and an "outing," too, for that matter, last week. It came up on final passage Tuesday and lacked eleven votes of the required constitutional majority. The following day the opponents of the bill called it up for reconsideration, hoping thereby to give it a final quietus. This turn of affairs seemed to inceuse even their followers, who looked upon such action as unfair, and many of those who had voted against the bill on final passage changed front and assisted in the vote to reconsider. The bill will come up again on Wednesday and it is pretty generally believed will pass. The friends of the new county have some very strong reasons to support their claims, and the venerable George V. Lawrence, who has helped to make several new counties during his

long legislative career, says this measure is a most just one and he will lend his assistance once more in the direction of progress and reason by supporting it, It is said eight murders have been committed since Easter in the territory embraced in the limits of the proposed new county, none of which have as yet been prosecuted, owing to the great distance from the present sent of justice.

If the bill now on the House calendar becomes a law, and there is every reason to believe it will, Pennsylvania's great war Governor, the late Andrew G. Curtin, will have a fine monument on the

Memorial Day Program.

port : It has been, in times past, customary to have memorial services at the M. E Church, Tionesta, on Monday, May 26th at 11 o'clock, a. m., which services will be conducted by Rev. W. W. Dale, All

are invited to attend. On the morning of the 30th, Stow Pos will start for Zuendel church and con fuct services there at 9 o'clock; at 10 o'clock conduct services at Bartholomew church; after which they will return to lionesta. The Sunday School teachers and children are expected to act as a committee on flowers and sing appropriate des during the exercises.

At2 o'clock sharp, the post will march or the cometery from their headquarters and Sunday Schools will fall in line, opposite the respective churches, when a place in line will be assigned them. The children of the Sunday School are bereby constituted a committee on flowers. Ceremonies at the cemetery will be

conducted according to the ritual. After which the Post and people will assemble at the Court House, where they will be addressed by Rev. I. A. Hume, Champlain of Pleasantville Post, Rev. W. W. Dale, Rev. J. V. McAninch, and others, and odes and songs will be sung by prominent local singers.

The following persons are detailed to ecorate graves as follows :

Capt. Knox is appointed Marshall of the day. Why is it that we observe Memorial Day after the lapse of these many years? there is no haw to compel it, no Fresident has directed it, no Governor orders it, but it was left to the American volunteer soldiery to inaugurate Memorial Day. Better for the Nation that its children and youth remember this day than that it have armics as large as all Europe. No war of disunion will occur in this coun-try, so long as it observes the day, as its observance is far better than forts bris-tling with cannon. So let us all unite in observing it, let it be the day of the 365 to remember the valorous deeds of those who have crossed the river. Let flowers be strewn over each and every grave of the land and pay the same tribute of love and respect to the heroic dead, wherever they may be buried. I. Tonesta the day has been properly observed for many years, and it is safe to say always will be. In a few years the G. A. St. Paul, Minn., Sept. 7, 1894. Eureka Chemical and M'f'g Co., La Crosse, Wis. Dear Sirs-I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobac-co for the time being, at least. I tried the so-called "Keely Cure," "Mo-To-Bee," and various other remedies, but without success, until I accidentally le rned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured; I am in perfect health, and the hor-rible ciaving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it. Yours very truly, C. W. HONNICK.

capital grounds to commemorate his great work during the rebellion. The monument will be erected by the "sixteeners" of the Soldiers' Orphan school, and the bill simply appropriates sufficient ground space for that purpose.

A bill passed the House finally last Wednesday which provides that female teachers shall have the same pay as male teachers holding the grade of certificates. Whether it shall become a law depends somewhat on the Senate's action. Another on the same subject passed finally, also, allowing school directors to qualify each other in assuming their duties as such. This bill will be quite a boom to country school boards who often are put to much inconvenience in securing an officer competent to admininister oaths.

The pure food bill introduced by Representative Grigsby, of Lawrence county. has passed the House and is now in the Senate. If it should become a law it will very materially add to the duties of the new department of agriculture. Under this act it is made the duty of the Secretary of Agriculture, through the Dairy and Food Commissioner, to obtain sam ples of any and all articles of food likely to be adulterated, and If, after proper test, they are found to be adulterated or mixed with any material having a tendency to lower their food value, the Secretary is authorized to commence suit against the offender. If conviction is obtained, the offender, in addition to the penalty and costs of the suit, has to pay all of the costs of analysis and selecting the sample.

A bill on the same line has also gone to the Senate, providing for pure liquors, and is quite a stringent measure.

A bill to prevent trusts in articles of general necessity, aimed at the sugar trust and beef trust and various other monopolies, has passed the House or second reading. It is to be regretted that it is hardly far enough along on the calendar to get through both Houses, for it is in the right line, and lack of time may prevent its final passage.

Road legislation has received some attention in the week past, but it is safe to predict that no road legislation will be passed this session. Too much diversity of opinion as to proper methods, and too much difference in climatic and other con ditions of this big State to make one road law that will suit all. Fact is, the pres-ent laws are ample to afford good roads all over this State, but to have them cost money, and about every community is already carrying all the load possible in matters of taxation.

matters of taxation. Quite a delegation of members and Senators went to Philadelphia Friday. A couple of dozen attended the Wana-maker reception, while the others took in Enflato Bill's "Wild West." The Senate is still holding up the House resolution for final adjournment and i' is hinted that is will hold the House till the first or second week in June, and will fefore adjournment until the lower House has passed the Senato bills. That sort of action involves two proprisitions-either an all summer's session or a general slaughter of Senato bills. J. E. W.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It

How to Cure Yearself While Using It. The tobacco habit grows on a man un-til his nervous system is seriously affec-ted, impairing health, comfort and happi-ness. To quit suddenly is too severe a shock to the system, as tobacco, to an in-veterate user becomes a stimulent that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully com-pounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Cure, it will notify you when to stop. We give a written guarantee to perma-nensity cure any case with three boxes, or refund the money with ten per cent. In-
