Oll Notes.

Dr. Siggins shot his latest well on the C. F. Cropp farm last Friday, and the indications are it will make a small producer.

Ferry Stewart has material on the ground for a rig on the Irwin tract, in the vicinity of the Crop farm, to the south.

I. N. Patterson has a rig up for # new well in the territory adjacent to bis already developed field near the Wolcott leases, Hickory township. And Wolcott & Son will commence a new well shortly on the Vockroth farm south of all former developments.

The Proper Oil Co,'s well on the T. J. Bowman tract, headwaters of Siggins run, Harmony township, and Mercer, which had been a mystery for several days, was opened Friday, and will make a good paying producer. It was shot yesterday, and responded quite liberally. The same

company is about ready to begin drilling a well on J. S. Vail's farm, southeast of the above well. That field is looked upon as a promising one by experienced operators. Pleasantville Record : While H. J. Hopkins has been scouring the whole

The Oil City people are beginning to doubt that the river water should he held accountable for the fever epidemic which had such an alarming run in that city during the past winter and spring. This feeling is fostered by recent analysis of the water taken from the stream near Pittsburg, and therefore more liable to pollution than at points higher up. Under direction of the Councils of Pittsburg six samples of Allegheny water were sent to Yale, Harvard and the Western University for analysis, and all the reports unite in stating that the water is

ter, and contains no germ of a deleteriou nature, Everything is coming Franklin's way his season. The town now has toads. It rained toads down there Thursday afternoon. Along the street leading to the Erie depot, at the east end of the French Creek bridge, there were thousands it not millions of little toads, not more than half an inch in length. The side walk was covered with them to the depth of an inch or two, and the women were out in front of their houses with brooms sweeping them from the sidewalk. They rolled from the roofs of the buildings, which fact coufirmed the be-

lief of those who saw them that they came down with the rain. Great is Franklin, Blizzard. -Children's slippers 50c, 75c and
